

Jimmy BX7 Pro

Jimmy BX7 Pro Mattress Vacuum Cleaner User Manual

Model: BX7 Pro

1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using the appliance and retain them for future reference. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always ensure the power supply voltage matches the rating label on the appliance.
- Do not use the appliance on wet surfaces or to pick up liquids.
- Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.
- Unplug from the outlet when not in use and before cleaning or servicing.
- Do not operate any appliance with a damaged cord or plug.
- The UV-C lamp emits ultraviolet radiation. Avoid direct exposure to eyes and skin. The UV-C lamp is designed to activate only when the appliance is in contact with a surface.
- Do not allow children to use the vacuum cleaner. Close supervision is necessary when used near children.
- Use only as described in this manual. Use only manufacturer's recommended attachments.

2. PRODUCT OVERVIEW

The Jimmy BX7 Pro is a corded mattress vacuum cleaner designed for deep cleaning of beds, sofas, and other upholstered surfaces. It features powerful suction, UV-C sterilization, ultrasonic technology, and a quick-heating function to effectively remove dust, pet hair, and allergens.

Figure 2.1: Jimmy BX7 Pro Mattress Vacuum Cleaner. This image shows the complete vacuum cleaner unit, highlighting its compact design and the transparent dust cup.

Key Features:

- **Powerful Suction:** 480W power and 16Kpa suction for effective dust and pet hair removal.
- **Intelligent Dust Sensor:** Automatically detects dust levels and displays cleanliness via LED indicators (red for dirty, green for clean).
- **UV-C & Ultrasonic Technology:** Designed to remove allergens and microorganisms from surfaces.
- **Quick Heating Function:** Heats to 140°F (60°C) in 5 seconds to assist in dust removal. This function activates only when the machine is in contact with the mattress.
- **HEPA Filtration:** Equipped with a HEPA filter to capture fine particles.
- **Long Power Cable:** 5m (16ft) cable for extended reach.
- **Wide Suction Port:** 245mm wide suction port for efficient cleaning.

3. SETUP

The Jimmy BX7 Pro is designed for ease of use with minimal setup required.

1. **Unpacking:** Carefully remove all components from the packaging. Ensure all parts listed in the product manual (not provided in this context, but generally expected) are present.
2. **Power Connection:** Plug the power cord into a suitable electrical outlet. Ensure the outlet voltage matches the specifications of the vacuum cleaner.

3. **Initial Check:** Before first use, ensure the dust cup and filter are correctly installed.

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off

To turn the vacuum cleaner on, press the power button located on the handle. Press it again to turn the appliance off.

4.2 Using UV-C and Ultrasonic Technology

The BX7 Pro integrates UV-C light and ultrasonic technology to target microorganisms and allergens. These features activate automatically when the vacuum head is pressed against a surface, ensuring safe operation and effective cleaning.

Figure 4.1: UV & Ultrasonic Technology. This image illustrates the UV light emitting from the bottom of the vacuum head, indicating its activation during cleaning.

4.3 Quick Heating Function

The vacuum cleaner features a 5-second quick heating function, reaching 140°F (60°C). This heat assists in loosening dust and moisture from fabrics. The heating function is designed to activate only when the machine is in direct contact with the mattress or surface. It will automatically stop heating if the machine is

60°C high temperature cleaning of harmful substances

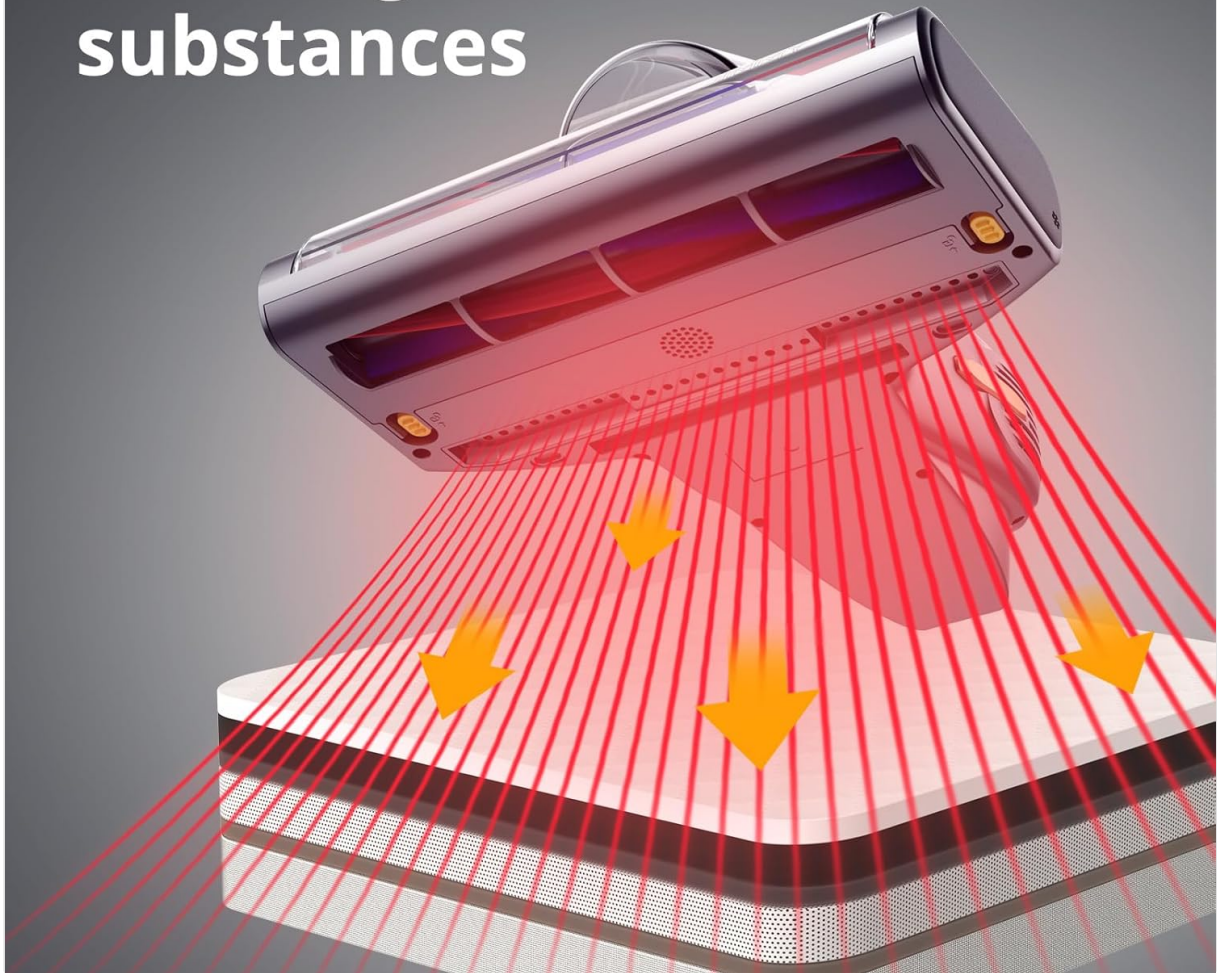

Figure 4.2: Quick Heating Function. This image shows red heat rays emanating from the vacuum's base, demonstrating the heating action on a surface.

4.4 Intelligent Dust Sensor and LED Display

The Intelligent Dust Sensor automatically calculates the concentration of dust on the surface being cleaned. An integrated LED display provides real-time feedback on cleanliness:

- **Red Light:** Indicates a very dirty area.
- **Red to Blue Light:** Indicates a dirty area that is becoming cleaner.
- **Blue Light:** Indicates a clean area.

Smart dust/dust mites sensor

Intelligently calculate dust concentration in the mattress.

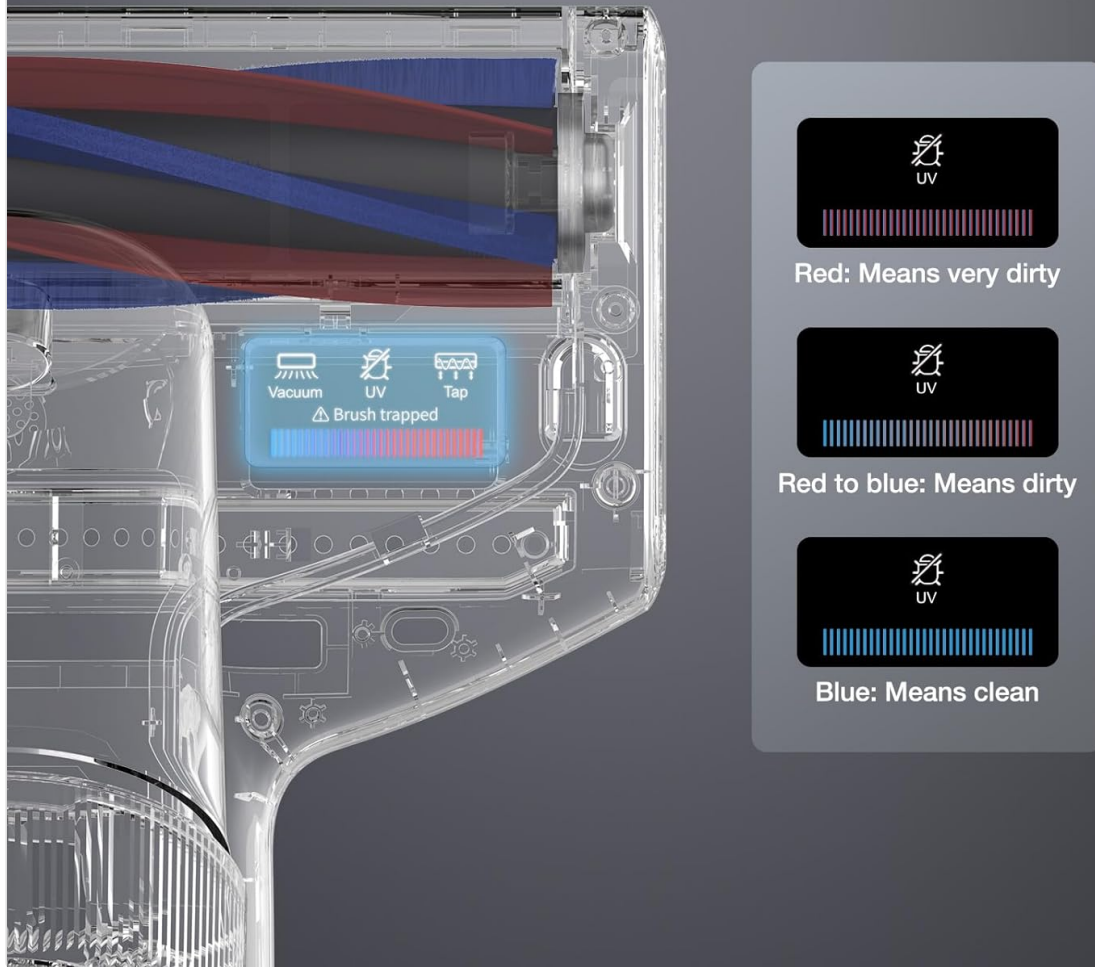

Figure 4.3: Intelligent Dust Sensor. This diagram illustrates the internal workings of the dust sensor and the corresponding LED color indicators for different levels of cleanliness.

Strong and high frequency tapping

Cleaning microorganisms deep in the mattress

Figure 4.4: LED Display Screen. This image shows the vacuum in use on a mattress, with the LED display visible on the top, indicating cleaning performance.

5. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your Jimmy BX7 Pro.

5.1 Emptying the Dust Cup

The transparent dust cup allows you to monitor dust accumulation. Empty the dust cup regularly, especially when the "Red Light" indicator persists or suction power decreases.

1. Ensure the vacuum cleaner is unplugged from the power outlet.
2. Locate the dust cup release button (refer to product diagram in full manual if available).
3. Press the release button and carefully detach the dust cup from the main unit.
4. Hold the dust cup over a trash receptacle and open the bottom flap to empty the contents.
5. Reattach the dust cup securely until it clicks into place.

Figure 5.1: Emptying the Dust Cup. This image shows a hand holding the transparent dust cup, filled with collected dust, ready to be emptied.

5.2 Cleaning the HEPA Filter

The HEPA filter should be cleaned regularly to maintain optimal suction and filtration efficiency. It is recommended to clean the filter after every few uses, or when you notice a decrease in performance.

1. Ensure the vacuum cleaner is unplugged.
2. Remove the dust cup as described above.
3. Carefully remove the HEPA filter from inside the dust cup.
4. Tap the filter gently over a trash can to remove loose dust.
5. Rinse the filter under cool running water until the water runs clear. Do not use detergents.
6. Allow the filter to air dry completely for at least 24 hours before reinserting it. Do not use a dryer or other heating devices.
7. Once dry, reinsert the HEPA filter into the dust cup and reattach the dust cup to the main unit.

Figure 5.2: Cleaning the HEPA Filter. This image shows the filter being rinsed under running water, demonstrating the cleaning process.

6. TROUBLESHOOTING

If you encounter issues with your Jimmy BX7 Pro, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Vacuum does not turn on.	Not plugged in; power outlet malfunction; damaged power cord.	Ensure the power cord is securely plugged into a working outlet. Check the power cord for damage.
Loss of suction.	Full dust cup; clogged filter; obstruction in the suction path.	Empty the dust cup. Clean the HEPA filter. Check the suction port and brush roll for any blockages.

Problem	Possible Cause	Solution
UV-C lamp not activating.	Vacuum not in contact with surface; lamp malfunction.	Ensure the vacuum head is firmly pressed against the cleaning surface. If the issue persists, contact customer support.
Heating function not working.	Vacuum not in contact with surface.	The heating function only activates when the vacuum is in contact with the mattress. Ensure proper contact.
LED dust indicator always red.	Area is very dirty; sensor is obstructed.	Continue cleaning the area until the light turns blue. Ensure the sensor area on the vacuum head is clean.

7. SPECIFICATIONS

Feature	Detail
Brand	Jimmy
Model Name	Jimmy BX7 Pro
Special Feature	Corded
Filter Type	HEPA Filter
Included Components	Light kit included
Is Cordless?	No
Capacity	1 Pounds
Wattage	480 watts
Recommended Uses For Product	Bed
Form Factor	Handheld
Color	Gray
Product Dimensions	16.14"L x 12.99"W x 9.84"H
Manufacturer	Jimmy
Number of Items	1
Style	BX7 Pro-Gray
Portable	Yes
Number of Power Levels	1
Indoor/Outdoor Usage	Indoor
Display Type	No Display
Item Weight	7.98 pounds
