## Silonn SLIM40B-US

# Silonn Boost Ice Maker User Manual

Model: SLIM40B-US

## INTRODUCTION

---

Welcome to the Silonn Boost Ice Maker user manual. This guide provides detailed instructions for the safe and efficient operation, maintenance, and troubleshooting of your new ice maker. Please read this manual thoroughly before first use and retain it for future reference.

## PRODUCT OVERVIEW AND KEY FEATURES

---

The Silonn Boost Ice Maker is designed for convenient and efficient ice production, featuring an innovative expandable ice basket and a large water tank to ensure a continuous supply of ice.

### Key Features:

- **Innovative 2.5L Ice Basket:** Unlike standard ice makers, this boost ice maker features a unique 2.5L spring-load ice basket that holds up to 9 cups of ice—more than double the typical capacity. Enjoy an uninterrupted ice supply without constantly emptying the basket, making it perfect for parties, gatherings, and daily use.
- **Large 1.8L Water Tank for Fewer Refills:** With a spacious 1.8L water tank, this ice machine minimizes the hassle of frequent refills, ensuring a continuous ice supply throughout the day. Ideal for home, office, or social events, it keeps the ice flowing without interruption.
- **Intuitive LED Touch Control Panel:** The easy-to-use LED touch panel features four clear indicators—white for ice-making, red for low water, green for a full basket, and blue for self-cleaning—allowing you to monitor and control the countertop ice maker effortlessly at a glance.
- **Fast & Efficient Ice Production:** Get 9 bullet-shaped ice cubes in just 6 minutes and up to 26 lbs per day, ensuring a steady ice supply for cocktails, cold drinks, or food preservation. Choose between two ice sizes to suit different beverages and occasions.
- **Effortless Cleaning & Compact Design:** The ice maker's countertop features an automatic self-cleaning mode, ensuring hassle-free maintenance and fresh, hygienic ice every time. Plus, its compact size (8.9" × 13.2" × 11.14") makes it easy to place and move for use in kitchens, offices, or even RVs.

## Product Components

## SETUP

---

1. **Unpacking:** Carefully remove the ice maker from its packaging. Ensure all components are present: the ice maker unit, ice scoop, and ice basket.
2. **Placement:** Place the ice maker on a flat, stable surface away from direct sunlight and heat sources. Ensure there is adequate ventilation around the unit. Do not place it near appliances that emit heat.
3. **Initial Cleaning:** Before first use, clean the interior of the ice maker. Refer to the "Maintenance" section for detailed cleaning instructions.
4. **Power Connection:** Plug the power cord into a grounded electrical outlet.

### Filling the Water Tank

Open the top lid of the ice maker. Fill the water tank with clean, potable water up to the "MAX" fill line. Do not overfill.

### Starting Ice Production

1. After filling the water tank, close the lid.
2. Press the **"ON/OFF"** button on the LED touch panel to turn on the unit.
3. Select your desired ice cube size by pressing the **"SMALL"** or **"LARGE"** button. The indicator light for the selected size will illuminate.
4. The ice maker will begin the ice-making cycle. The "Ice-Making" indicator (white light) will be illuminated.
5. The first batch of ice cubes will be ready in approximately 6 minutes. Subsequent batches may be faster.

### Monitoring Ice Production

- **Low Water Indicator (Red Light):** If the water level in the tank is too low, the red indicator light will illuminate, and the ice maker will stop production. Refill the water tank to resume operation.
- **Ice Full Indicator (Green Light):** When the ice basket is full, the green indicator light will illuminate, and the ice maker will automatically stop production. Remove ice from the basket to resume operation.

### Using the Expandable Ice Basket

The Silonn Boost Ice Maker features an innovative 2.5L spring-load ice basket. As ice fills the basket, its capacity expands to hold more ice, reducing the need for frequent emptying.

# AUTOMATIC SELF-CLEANING

Easy to use and maintain

Comparison of the two available ice cube sizes: Small (0.71" x 1.18") and Large (0.87" x 1.28").

## MAINTENANCE

---

### Automatic Self-Cleaning

The Silonn Boost Ice Maker is equipped with an automatic self-cleaning function for easy maintenance.

1. Ensure the water tank is filled with clean water.
2. Press the "**CLEAN**" button on the control panel. The blue indicator light will illuminate.
3. The self-cleaning cycle will begin, circulating water through the system to remove mineral buildup and impurities.
4. Once the cycle is complete, drain the water from the unit. Refer to the user manual for specific

draining instructions (usually a drain plug at the bottom or side).

## INTUITIVE LED PANEL

An internal view illustrating the automatic self-cleaning process, showing water pathways for thorough cleaning.

### Regular Cleaning

- **Exterior:** Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Interior:** Periodically clean the water tank and ice basket with a mild detergent and warm water. Rinse thoroughly to remove any soap residue.
- **Descaling:** If you notice reduced ice production or mineral buildup, perform a descaling process using a mixture of water and vinegar or a commercial descaling solution, following the product's specific instructions.

### Storage

If the ice maker will not be used for an extended period, drain all water from the unit, clean it thoroughly, and store it in a dry, well-ventilated area.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Ice maker not producing ice.	Low water level.	Refill the water tank.
	Ice basket is full.	Remove ice from the basket.
	Unit not plugged in or power outage.	Check power connection and outlet.
Ice cubes are small or clumpy.	Water temperature too high.	Use colder water. Ensure unit is in a cool environment.
	Mineral buildup.	Perform a self-cleaning cycle or descaling.
Unit is noisy.	Normal operation sounds (compressor, water pump).	This is normal. Ensure unit is on a stable, level surface.
Water leaking.	Drain plug not properly sealed.	Check and secure the drain plug.

If the problem persists after attempting these solutions, please contact Silonn Customer Support for assistance.
