# Generic Microfiber Dust Bags User Manual

For Henry, Quick, and Numatic NQ100, Hen100, HET100 Vacuum Cleaners

## 1. PRODUCT OVERVIEW

These microfiber dust bags are designed for use with Henry, Quick, and Numatic NQ100, Hen100, HET100 vacuum cleaners. Each bag features a three-layer filtration system to effectively capture 99.9% of dirt, pet dander, and other particles, contributing to improved indoor air quality. The innovative self-locking auto-seal collar prevents dust from escaping during disposal, ensuring a cleaner and safer environment. The design offers ample cleaning capacity while saving storage space and maintaining effective motor performance for your vacuum cleaner.

## 2. SETUP AND INSTALLATION

- Open Vacuum Cleaner Compartment:** Locate and open the dust bag compartment on your Henry, Quick, or Numatic vacuum cleaner according to its specific user manual.
- Remove Old Bag (if applicable):** Carefully remove any existing full dust bag. Ensure proper disposal to prevent dust release.
- Insert New Dust Bag:** Take a new microfiber dust bag. Align the collar of the new bag with the vacuum cleaner's bag inlet. Push firmly until the bag is securely seated and the auto-seal collar engages. Ensure there are no gaps for dust to escape.
- Close Compartment:** Close the vacuum cleaner's dust bag compartment securely.

### 3. OPERATING INSTRUCTIONS

---

Once the dust bag is correctly installed, your vacuum cleaner is ready for operation. The microfiber bags are designed for high cleaning efficiency, capturing fine particles and maintaining strong suction.

### 4. MAINTENANCE

---

For optimal performance and to maintain consistent suction power, it is recommended to replace the dust bag every 5-7 weeks. This interval may vary depending on usage frequency and the amount of debris collected. Replace the bag sooner if it appears full or if you notice a decrease in suction.

## 5. TROUBLESHOOTING

- **Reduced Suction Power:** If your vacuum cleaner experiences reduced suction, check the dust bag. It may be full and require replacement. Ensure the bag is correctly installed and sealed.
- **Dust Escaping:** If dust is escaping from the vacuum, verify that the dust bag is properly seated and the auto-seal collar is fully engaged. Ensure the vacuum compartment lid is securely closed.

## 6. SPECIFICATIONS

Product Name	Microfiber Dust Bags
Material	Three-layers of microfiber material
Compatibility	Henry, Quick, Numatic NQ100, Hen100, HET100 Vacuum Cleaners
Number of Pieces	4 per pack
