3. GETTING STARTED

3.1. Charging and Activation

Before first use, fully charge your Blackview W80pro Smartwatch. The watch will not turn on with 0% battery. It needs to be charged for at least 15 minutes to accumulate enough power to activate it. The built-in magnets will automatically attach to the correct poles for charging.

1. Connect the charging cable to a 5V/1A adapter and plug it in.
2. Align the magnetic end of the cable with the metal contact points on the back cover of the watch.
3. The watch display will indicate charging status. A full charge typically takes approximately 3 hours.

It is recommended to charge the device once a month if not in use to maintain battery longevity.

3.2. App Download and Pairing

To unlock the full potential of your Blackview W80pro Smartwatch, download and pair it with the companion app, 'FitCloudPro'.

1. Scan the QR code provided in the user manual or on the watch screen to download the 'FitCloudPro'

app from your smartphone's app store (Google Play Store for Android, Apple App Store for iOS).

2. Open the 'FitCloudPro' app and create an account or log in.

3. Navigate to the 'Device' section in the app and select 'Add Device'.

4. Ensure your smartwatch is fully charged and within 0.5 meters of your phone.

5. Select 'W80pro' from the list of available devices to pair. Confirm the pairing request on both your phone and the smartwatch.

Once paired, the app will synchronize data and allow you to customize watch settings, receive notifications, and track your health and fitness data.

Video: This video demonstrates the unboxing, initial setup, app download, and pairing process for a similar smartwatch model (EF22), which is applicable to the Blackview W80pro. It shows how to install the app and connect the watch to a smartphone.

3.3. Strap Adjustment

The Blackview W80pro comes with two straps: a silicone strap and a nylon strap. The metal strap can be adjusted for a comfortable fit using the included tool.

1. Identify the arrows on the inside of the metal strap links. These indicate the direction to push the pin.

2. Use the provided tool to push the pin out from the side opposite the arrow.

3. Remove the desired number of links to achieve a comfortable fit.

4. Reinsert the pin in the opposite direction of the arrow to secure the strap.

Video: This video demonstrates how to adjust the metal strap of a similar smartwatch model (EF22) using the provided tool, which is relevant for the Blackview W80pro.

4. KEY FEATURES & OPERATION

4.1. LED Illumination

The Blackview W80pro features an integrated LED flashlight with an illumination range of up to 10 meters. It offers stable and penetrating light, ideal for emergencies or extreme environments.

- **Continuous Light Mode:** Provides a steady beam of light.
- **SOS Mode:** Emits a flashing light pattern for signaling in emergencies.

To activate the flashlight, short press the customizable button (usually the 'Light' button on the side).

4.2. Bluetooth Calling & Notifications

Stay connected with Bluetooth calling and receive notifications directly on your wrist.

- **Make/Receive Calls:** The smartwatch has a built-in microphone and speaker, allowing you to make and receive calls without needing to take out your phone. It can synchronize up to 50 contacts.
- **Notifications:** After connecting and synchronizing with your smartphone, you will receive notifications from various apps such as Twitter, Facebook, LinkedIn, WhatsApp, Line, Instagram, Snapchat, and Skype.

4.3. GPS Navigation & Compass

The Blackview W80pro is equipped with integrated GPS navigation and an electromagnetic-resistant internal compass, making it an ideal companion for outdoor activities.

- **GPS Navigation:** Provides precise orientation via satellite signals and records your real-time tracks.
- **Compass:** Offers reliable localization even in unfamiliar environments.

4.4. Health Monitoring

Monitor your health 24/7 with the Blackview W80pro, helping you maintain a healthier lifestyle.

- **Heart Rate Monitoring:** Tracks your heart rate throughout the day.
- **Blood Oxygen (SpO2) Monitoring:** Measures your blood oxygen levels.
- **Sleep Analysis:** Monitors your sleep patterns and quality.
- **Stress Monitoring:** Helps you understand and manage your stress levels.

Attention: This smartwatch is not a medical device and cannot replace professional medical advice. Consult a doctor for any health concerns.

4.5. Sports Modes

The Blackview W80pro offers over 100 sports modes to track your physical activities. It records essential data such as heart rate, steps, distance, and calories burned.

- Select your preferred sport mode from the watch menu.
- The watch will automatically start tracking relevant metrics for your chosen activity.
- Its distinguished water resistance allows for sports in various weather conditions.

4.6. Customizable Watch Faces & AI ChatGPT

Personalize your Blackview W80pro with diverse watch faces and leverage the integrated AI ChatGPT functionality.

- **Diverse Watch Faces:** Choose from a variety of pre-installed watch faces or download more from the 'Gloryfit' app.
- **Custom Watch Faces:** Decorate your watch face with your favorite photos or create personalized designs using the ChatGPT functionality.
- **AI ChatGPT:** Interact with ChatGPT directly from your watch for quick information, creative ideas, or to generate unique watch face designs.

4.7. Other Smart Functions

The Blackview W80pro includes a range of additional smart features for convenience and productivity:

- **Music Control:** Control music playback on your smartphone directly from your watch.
- **Camera Control:** Use your watch as a remote shutter for your phone's camera.
- **Weather Forecast:** Get real-time weather updates.
- **Sedentary Reminders:** Receive alerts to move after periods of inactivity.
- **Timer & Alarm:** Set timers and alarms for various tasks.
- **Calculator:** Perform basic calculations on your wrist.

Video: This video demonstrates the menu interface and various functions of the Blackview W80pro Smartwatch, including timer, alarm, stopwatch, and other utility apps.

5. DURABILITY & DESIGN

The Blackview W80pro Smartwatch is built with military-grade quality, designed to withstand harsh conditions.

- **Military Quality:** Constructed from aluminum alloy, it has passed 12 strict military tests, ensuring resistance to scratches, cold temperatures, and shocks.
- **Water Resistance:** Its robust design allows it to be used in various weather conditions and is resistant to water exposure.

Compatible Devices	Smartphones (Android 6.0+, iOS 9.0+)
Memory Storage Capacity	128 MB

7. MAINTENANCE & CARE

To ensure the longevity and optimal performance of your Blackview W80pro Smartwatch, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the watch screen and straps with a soft, dry cloth. For stubborn dirt, use a slightly damp cloth and mild soap, then rinse and dry thoroughly.
- **Avoid Chemicals:** Do not use harsh chemicals, cleaning solvents, or strong detergents, as they may damage the watch's finish or internal components.
- **Water Exposure:** While water-resistant, avoid prolonged submersion in water, especially hot water or saltwater, which can degrade seals over time. Dry the watch thoroughly after exposure to water.
- **Temperature:** Avoid exposing the watch to extreme temperatures (hot or cold) or sudden temperature changes, as this can affect battery life and screen performance.
- **Charging:** Use only the provided charging cable. Ensure the charging contacts are clean and dry before charging.
- **Storage:** When not in use for extended periods, store the watch in a cool, dry place. Charge it periodically (e.g., once a month) to prevent deep discharge of the battery.

8. TROUBLESHOOTING

If you encounter any issues with your Blackview W80pro Smartwatch, refer to the following common solutions:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger for at least 15 minutes before attempting to power it on.
- **Unable to pair with phone:**

    a. Ensure Bluetooth is enabled on your phone and the watch.
    b. Make sure the watch is within 0.5 meters of your phone.
    c. Restart both your phone and the watch.

    d. Clear the Bluetooth cache on your phone (if applicable).

    e. Ensure the 'FitCloudPro' app has necessary permissions (Bluetooth, location).

- **Notifications not received:**

  a. Check if notifications are enabled in the 'FitCloudPro' app for specific applications.

  b. Ensure the app is running in the background and not being closed by your phone's power-saving settings.

  c. Verify that your phone's notification settings allow the 'FitCloudPro' app to display notifications.

- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor on the back of the watch regularly.

- **Short battery life:**

  a. Reduce screen brightness and screen-on time.

  b. Disable continuous heart rate monitoring or set it to a longer interval.

  c. Limit the number of apps sending notifications to the watch.

  d. Frequent GPS usage will consume more battery.

If the issue persists, please refer to the 'FitCloudPro' app's help section or contact Blackview customer support.

9. WARRANTY & SUPPORT

Blackview offers a **24-month warranty** for the W80pro Smartwatch. This warranty covers manufacturing defects and malfunctions under normal use conditions.

For warranty claims, technical support, or any questions regarding your product, please contact Blackview customer service through the following channels:

- Refer to the contact information provided in your product packaging.
- Visit the official Blackview website for support resources and contact details.
- Contact the seller directly if purchased through a third-party retailer.

Please retain your proof of purchase for warranty validation.
