

Roborock Qrevo 2R3W Robot Vacuum and Mop User Manual

Model: Qrevo 2R3W

1. INTRODUCTION

Welcome to the user manual for your Roborock Qrevo 2R3W Robot Vacuum and Mop. This advanced cleaning device is designed to provide comprehensive floor care, combining powerful vacuuming with efficient mopping capabilities. It features a multifunctional dock for automated maintenance, intelligent navigation, and app control for a seamless cleaning experience.

2. IMPORTANT SAFETY INFORMATION

Before operating your Roborock Qrevo 2R3W, please read all safety instructions carefully to prevent injury or damage. Keep this manual for future reference.

- Do not allow children to operate the robot. Supervise children and pets when the robot is in operation.
- Ensure the power voltage matches the specifications on the charging dock.
- Do not use the robot in environments with open flames, flammable materials, or corrosive liquids.
- Avoid using the robot on wet surfaces or in areas with standing water, unless specifically designed for wet cleaning.

- Regularly inspect the power cable for damage. If damaged, contact customer support for replacement.

3. PACKAGE CONTENTS

Verify that all components are present in your package:

- Roborock Qrevo 2R3W Robot Vacuum (1)
- Multifunctional Dock (1)
- Mop Cloth (2)
- Power Cable (1)
- User Manual (1)

4. INITIAL SETUP

4.1 Unpacking

Carefully remove all packaging materials from the robot and the multifunctional dock. Ensure no protective films or shipping inserts remain on the device or its sensors.

4.2 Dock Placement

Place the multifunctional dock on a hard, level surface against a wall. Ensure there is at least 0.5 meters (1.6 feet) of clear space on both sides and 1.5 meters (4.9 feet) in front of the dock for optimal robot navigation and return.

Connect the power cable to the dock and plug it into a power outlet.

4.3 Water Tank and Dustbin Setup

The multifunctional dock features separate clean and dirty water tanks, and an auto-emptying dustbin. Fill the clean water tank with clean tap water. Ensure the dust bag is correctly installed in the dock's dustbin compartment.

4.4 App Installation and Connection

Download the Roborock app from your mobile device's app store. Follow the in-app instructions to connect your robot to your home Wi-Fi network (2.4GHz only) and complete the initial mapping process. The app allows for customized cleaning routines, no-go zones, and real-time monitoring.

5. OPERATING YOUR ROBOROCK QREVO 2R3W

5.1 Power On/Off

Press and hold the power button on the robot to turn it on or off. The robot will emit a voice prompt indicating its status.

5.2 Cleaning Modes

The Roborock Qrevo 2R3W offers versatile cleaning modes:

- **Vacuuming:** Utilizes a powerful 5500Pa suction to effectively capture dust, dirt, and pet hair from various floor types. The all-rubber brush minimizes hair tangles.
- **Mopping:** Features dual spinning mops that rotate at 200 RPM with consistent downward pressure (up to 6N) to remove stubborn stains. You can adjust water flow levels via the app.
- **Vacuum & Mop:** Performs both functions simultaneously. The Auto Mop Lifting feature raises the mops by 7mm when carpets are detected, preventing wetting and allowing seamless transition between hard floors and carpets.

Dual Spinning Mops

Dual mops spin while pressing down, effortlessly removing stains and leaving you with a spotless floor.

Image: The robot vacuum showcasing its dual spinning mops in action, effectively cleaning a stained floor.

5,500 Pa Extreme Suction

Enhanced suction power easily captures dust and dirt from floors and carpets for a better clean.

Image: An illustration demonstrating the powerful 5500 Pa suction of the robot vacuum, lifting debris from the floor.

Auto Mop Lifting

Automatically lifts the mops when detecting carpets, enabling mopping floors and vacuuming carpets in one go.

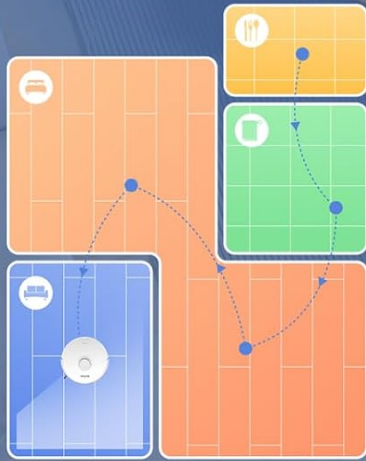

Image: The robot vacuum demonstrating its auto mop lifting capability, showing the mops raised by 7mm.

5.3 Navigation and Obstacle Avoidance

The robot uses PreciSense LiDAR Navigation to quickly scan your home and create precise maps. This allows it to plan optimal cleaning routes. Reactive Tech Obstacle Avoidance detects and avoids potential hazards with precision, ensuring smooth and efficient cleaning without collisions.

PreciSense LiDAR Navigation

Quickly scans to create precise maps and plan the optimal cleaning route for your home.

5.4 App Control and Features

The Roborock app provides comprehensive control over your robot. Features include:

- **3D Mapping:** View your home's layout in 3D and customize cleaning areas.
- **Custom Routines:** Set specific cleaning schedules and modes for different rooms or times.
- **Smart No-Go Zones:** Define areas the robot should avoid, such as pet bowls or delicate furniture.
- **Multi-Level Mapping:** Supports mapping up to 4 levels, automatically recognizing the floor it's on.
- **Voice Control:** Compatible with Amazon Alexa and Google Home for hands-free operation.

6. MAINTENANCE AND CARE

Regular maintenance ensures optimal performance and extends the lifespan of your Roborock Qrevo 2R3W.

6.1 Multifunctional Dock Maintenance

- **Auto Mop Washing:** The dock automatically washes the mop pads during and after cleaning.
- **Hot Air Drying:** After cleaning, the mops are dried with 45°C hot air to prevent odors and mildew.
- **Auto Tank Refilling:** The dock automatically refills the robot's water tank for continuous mopping.
- **Auto Dust Emptying:** The robot's dustbin is automatically emptied into a 2.7L dust bag in the dock, providing up to 7 weeks of hands-free dust disposal.
- **Detachable Dock Base:** The base of the dock is easily detachable for convenient cleaning of accumulated dirt.

Multifunctional Dock

Say Goodbye to Dirty Work

Image: The multifunctional dock highlighting its various automated features for convenience, including the detachable base for easy cleaning.

6.2 Robot Maintenance

- **Main Brush:** Regularly remove hair and debris from the all-rubber main brush.
- **Side Brush:** Check and clean the side brush for tangled hair or debris.
- **Mop Pads:** Wash or replace mop pads as needed.
- **Filter:** The filter is washable. Rinse it under running water and allow it to air dry completely before reinstallation.
- **Sensors:** Wipe all sensors (cliff sensors, wall sensor, charging contacts) with a soft, dry cloth.

6.3 Maintenance Schedule

Component	Frequency	Action
Main Brush	Weekly	Clean hair and debris
Side Brush	Monthly	Clean/Replace if worn
Mop Pads	After each use	Wash/Replace

Component	Frequency	Action
Filter	Bi-weekly	Wash and air dry
Sensors & Charging Contacts	Monthly	Wipe clean
Dust Bag (Dock)	Every 7 weeks (approx.)	Replace
Water Tanks (Dock)	As needed	Clean and refill

7. TROUBLESHOOTING COMMON ISSUES

If you encounter problems with your Roborock Qrevo 2R3W, refer to the following table for solutions:

Problem	Possible Cause	Solution
Robot does not power on	Low battery; Power cable not connected	Place robot on dock to charge; Ensure power cable is securely connected to dock and outlet
Robot cannot return to dock	Dock is blocked or moved; No-go zone near dock	Clear obstacles around dock; Ensure dock is in an open area; Check app for virtual walls/no-go zones
Poor vacuuming performance	Full dustbin; Clogged brush; Dirty filter	Empty dustbin/replace dust bag; Clean main brush; Clean/replace filter
Poor mopping performance	Dirty mop pads; Empty water tank; Clogged water nozzle	Wash/replace mop pads; Refill clean water tank; Clean water nozzle
Robot gets stuck frequently	Loose cables; Small objects; Complex furniture layout	Tidy up cables; Remove small objects; Use no-go zones in problematic areas
App connection issues	Incorrect Wi-Fi password; Router issues; Robot offline	Re-enter Wi-Fi password; Restart router; Restart robot and try connecting again

For issues not listed here, please refer to the official Roborock app's help section or contact customer support.

8. TECHNICAL SPECIFICATIONS

Feature	Specification
Brand	roborock
Model Name	Qrevo 2R3W
Product Dimensions	19.2"L x 13.4"W x 22"H
Item Weight	26.9 pounds
Color	Black
Suction Power	5500Pa
Mop Spinning Speed	200 RPM

Feature	Specification
Auto Mop Lifting Height	7mm
Clean Water Tank Capacity	5 Liters
Dust Bag Capacity (Dock)	2.7 Liters (up to 7 weeks hands-free)
Battery Life	180 minutes
Voltage	120 Volts
Filter Type	Washable
Navigation System	PreciSense LiDAR Navigation
Obstacle Avoidance	Reactive Tech Obstacle Avoidance
Compatible Devices	Smartphones, Amazon Echo, Google Home
Country of Origin	China
UPC	195043003030

9. WARRANTY AND SUPPORT

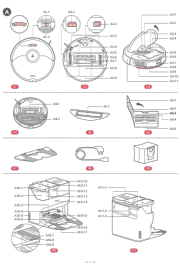

9.1 Warranty Information

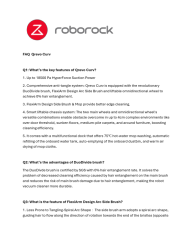

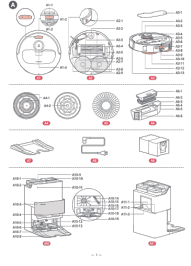

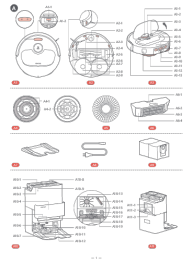

Your Roborock Qrevo 2R3W comes with a manufacturer's warranty. Please refer to the warranty card included in your product packaging or visit the official Roborock website for detailed warranty terms and conditions.

9.2 Customer Support

For technical assistance, troubleshooting, or spare parts, please contact Roborock customer support. You can find contact information on the official Roborock website or within the Roborock app. An electronic version of this user manual is also available for download at <https://manuals.plus/m/5ea668d6a9c41cec6f1de788a2ed23fdce00a37b98b3e79b286a7b82e4e12a81>.
