BoxWave ClearTouch ImpactShield (2-Pack)

BoxWave ClearTouch ImpactShield Screen Protector User Manual

Model: ClearTouch ImpactShield (2-Pack) for Ribao Technology CS-610S

Brand: BoxWave

INTRODUCTION

The BoxWave ClearTouch ImpactShield is a high-quality screen protector designed to provide superior protection for your Ribao Technology CS-610S device. This flexible film offers 9H hardness, shock absorption, and crystal-clear visibility, safeguarding your screen from scratches, impacts, and daily wear without compromising display quality or touch sensitivity. This manual provides detailed instructions for installation, maintenance, and troubleshooting to ensure optimal performance and longevity of your screen protector.

SETUP AND INSTALLATION

Proper installation is crucial for the performance and appearance of your ClearTouch ImpactShield. Follow these steps carefully:

- 1. Prepare Your Workspace:** Choose a clean, dust-free environment. Wash your hands thoroughly to avoid transferring oils or dirt to the screen.
- 2. Clean the Device Screen:** Use the provided cleaning cloth (if included) or a microfiber cloth to meticulously clean the Ribao Technology CS-610S screen. Ensure there are no dust particles, smudges, or fingerprints. You may use a screen cleaning solution if necessary, but ensure the screen is completely dry before proceeding.
- 3. Remove Protective Layer 1:** Carefully peel back the first protective layer (often labeled "Step 1" or similar) from

one end of the ClearTouch ImpactShield. Avoid touching the adhesive side of the screen protector.

4. **Align the Protector:** Align the exposed adhesive edge of the screen protector with one edge of your device's screen. Pay close attention to cutouts for cameras, sensors, or buttons to ensure perfect alignment.
5. **Apply Gradually:** Slowly lower the rest of the screen protector onto the device screen, allowing it to adhere gradually. Use a squeegee tool (if included) or a credit card wrapped in a soft cloth to gently push out any air bubbles as you apply. Work from the aligned edge outwards.
6. **Remove Protective Layer 2:** Once the screen protector is fully applied and all major air bubbles are removed, carefully peel off the second protective layer (often labeled "Step 2" or similar) from the top of the screen protector.
7. **Final Smoothing:** Use the squeegee or cloth to smooth out any remaining small bubbles by pushing them towards the edges of the screen. Minor bubbles may disappear on their own within 24-48 hours.

OPERATING CHARACTERISTICS

The ClearTouch ImpactShield is designed to integrate seamlessly with your device, maintaining its original

functionality and display quality.

- **Touch Sensitivity:** The ultra-thin design ensures that touch screen responsiveness is unaffected, allowing for smooth and accurate interactions with your Ribao Technology CS-610S.
- **Display Clarity:** With 99% visibility and high transparency, the screen protector preserves the vibrant colors and sharpness of your device's display, making it virtually unnoticeable once applied.
- **Protection:** The 9H hardness rating provides robust protection against scratches from keys, coins, and other sharp objects. Its flexible material and shock absorption properties help to mitigate damage from impacts and accidental drops.

Crystal Clarity

Keep your screen unobscured as ClearTouch maintains the vibrancy and clarity of your device's display.

MAINTENANCE

To maintain the clarity and effectiveness of your ClearTouch ImpactShield, follow these simple maintenance tips:

- **Regular Cleaning:** Gently wipe the screen protector with a clean, soft, lint-free cloth (e.g., microfiber cloth) to remove dust, smudges, and fingerprints.
- **Stubborn Marks:** For more stubborn marks, lightly dampen the cloth with water or a screen-safe cleaning solution. Avoid harsh chemicals, abrasive materials, or excessive moisture, as these can damage the protector or the device.
- **Avoid Sharp Objects:** While the protector offers 9H hardness, prolonged or excessive contact with extremely sharp objects should still be avoided to prevent potential damage.

TROUBLESHOOTING

If you encounter any issues with your ClearTouch ImpactShield, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Bubbles Under Protector	Dust particles trapped underneath, or improper application.	Gently lift the nearest edge of the protector and use a squeegee or soft cloth to push the bubble towards the edge. For dust, carefully lift the protector and use a dust-removal sticker to lift the particle, then reapply. Small bubbles may dissipate over 24-48 hours.
Misalignment	Protector applied crookedly.	If applied recently, carefully lift the protector from one corner and re-align. The ClearTouch ImpactShield is designed for reusability, allowing for re-application if needed.
Reduced Touch Sensitivity	Rare, but could be due to trapped air or improper adhesion.	Ensure the protector is fully adhered without any lifted edges or large air pockets. Re-smooth the surface. If the issue persists, consider re-applying the protector after a thorough screen cleaning.
Scratches on Protector	Normal wear and tear, or contact with very sharp/abrasive materials.	The protector is doing its job by absorbing the damage. If scratches become too prominent or affect visibility, it's time to replace the screen protector. This product comes in a 2-pack for convenience.

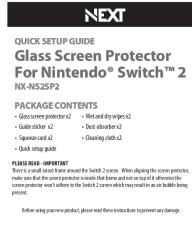

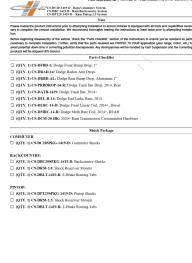

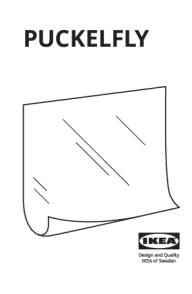

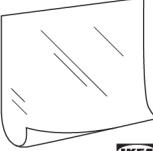

SPECIFICATIONS

- Product Type:** Screen Protector Film
- Compatibility:** Ribao Technology CS-610S
- Material:** Flexible Film with TPU layer
- Hardness Rating:** 9H
- Transparency:** 99% (Crystal Clear)
- Features:** Shock Absorption, Shatterproof, Flexible, Reusable, Precision Cut
- Package Contents:** 2 x ClearTouch ImpactShield Screen Protectors
- Item Weight:** 0.7 ounces
- Manufacturer:** BoxWave
- ASIN:** B0F68PY6HS

WARRANTY AND SUPPORT

BoxWave stands behind the quality of its products. While specific warranty details may vary, customers typically have a return period for products purchased through authorized retailers. For any questions, concerns, or support regarding your ClearTouch ImpactShield screen protector, please contact BoxWave customer service directly. Please refer to the BoxWave official website or your purchase documentation for the most up-to-date warranty information and contact details.
