SETUP AND ARRANGEMENT

Follow these steps to prepare and arrange your artificial greenery stems:

1. **Unpack:** Carefully remove the stems from their packaging. Some compression may occur during shipping.

CARE AND MAINTENANCE

- **Cleaning:** Dust regularly with a soft, dry cloth or a feather duster. For heavier dust or minor stains, gently wipe with a damp cloth and allow to air dry. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** If storing, gently reshape the stems and place them in a box or bag to prevent crushing and dust accumulation.
- **Reshaping:** Over time, if the stems lose their shape, you can gently bend the internal wires to restore their original or desired form.

TROUBLESHOOTING

Issue: Stems appear flattened or compressed upon arrival.

Solution: This is normal due to packaging. Gently bend and spread the wire stems and individual leaves to restore their natural volume and shape.

Issue: Leaves are dusty.

Solution: Use a soft, dry cloth, feather duster, or a can of compressed air to remove dust. For stubborn dust, a slightly damp cloth can be used, followed by air drying.
