PRODUCT OVERVIEW

The Auxmir BM-2519 mirror features a double-sided design with 1X and 30X magnification, integrated LED lighting with three color modes, and adjustable brightness. It is rechargeable and designed for versatile use.

Key Components:

- Double-Sided Mirror (1X and 30X magnification)
- LED Light Ring
- Touch Control Buttons (for power, light mode, and brightness)
- Adjustable Stand
- Stable Base with Storage Tray
- USB Type-C Charging Port
- Tweezers (included accessory)

SETUP

The mirror is designed for easy assembly and disassembly, making it convenient for both stationary use and travel.

Assembly:

1. Verify all three elements are present: the mirror head, the stand, and the base.
2. Insert the stand into the base and turn clockwise until it locks securely.
3. Attach the mirror head to the top of the stand until you hear a 'click' indicating it is fixed.

Image: Step-by-step guide for mirror assembly.

Disassembly for Travel:

1. Place the mirror on a flat surface.
2. Pull the mirror head forward to detach it from the stand.
3. Hold the stand and turn it counter-clockwise to remove it from the base.

Image: Instructions for disassembling the mirror for compact storage and travel.

OPERATION

Power On/Off:

Locate the touch control button on the mirror surface. A short touch will turn the LED light on or off.

Adjusting Light Modes:

With the light on, short touch the control button to cycle through the three available light modes: Cool Light (6000K), Natural Light (4500K), and Warm Light (3000K).

SEAMLESS BRIGHTNESS CONTROL

Create the Perfect Ambiance for Any Moment

Long press to adjust brightness

**Magnifying Mirror Use: Maintain 10cm/4in
Distance to Avoid Dizziness**

• Inserting Contact Lens

• Grooming Eyebrow

• Drawing Eyeliner

• Doing Precision Skincare

Image: Illustration of continuous brightness adjustment via touch control.

Using Magnification:

The mirror features two sides: 1X for a standard view and 30X for detailed magnification. Rotate the mirror head to switch between the two sides. When using the 30X magnifying side, maintain a distance of approximately 10 cm (4 inches) from the mirror to achieve a clear image and avoid blurriness or dizziness. This is a normal physical phenomenon for high-magnification mirrors.

360° ROTATION

DUAL TOUCH CONTROLS

Image: Demonstrating the 1X and 30X magnification sides and the recommended usage distance for the 30X side.

360° Rotation:

The mirror head can be rotated 360 degrees horizontally to adjust to your preferred viewing angle. The stable base ensures the mirror remains steady during rotation.

Charging:

The mirror is equipped with a 2000mAh rechargeable lithium battery. Connect the included USB Type-C cable to the charging port on the mirror and to a compatible USB power source (e.g., computer, car charger, power bank, wall charger). A full charge takes approximately 3-5 hours and provides up to 15 hours of continuous use. The mirror also features a 30-minute auto-off function to conserve battery life.

Phone Holder & Storage Tray:

The mirror's base includes a convenient storage tray for small items like jewelry or cosmetics. It also features a slot that can securely hold your smartphone, allowing for vertical video mode or widescreen theater mode while you use the mirror.

PORTABLE SIZE

MAINTENANCE

To ensure the longevity and optimal performance of your Auxmir mirror, follow these maintenance guidelines:

- **Cleaning the Mirror Surface:** Use a soft, lint-free cloth to gently wipe the mirror. For stubborn smudges, dampen the cloth slightly with water or a mild, non-abrasive glass cleaner. Avoid harsh chemicals or abrasive materials that could scratch the mirror or damage the LED lights.
- **Cleaning the Body and Base:** Wipe the ABS plastic body and base with a soft, dry cloth. If necessary, a slightly damp cloth can be used, but ensure no moisture enters the charging port or touch control areas.
- **Storage:** When not in use, especially for extended periods, store the mirror in a cool, dry place. If traveling, disassemble the mirror as instructed in the Setup section to protect its components.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Recharge the mirror when the light dims or when the battery indicator suggests a low charge.

TROUBLESHOOTING

If you encounter any issues with your Auxmir mirror, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
LED light does not turn on.	Battery is discharged.	Connect the mirror to a power source using the USB Type-C cable and charge for 3-5 hours.
LED light is dim or flickers.	Low battery.	Recharge the mirror.
Cannot change light mode or brightness.	Touch control malfunction or low battery.	Ensure the mirror is charged. Try a short press for mode change and a long press for brightness. If the issue persists, contact customer support.
Image is blurry or distorted on 30X side.	Incorrect viewing distance.	Maintain a distance of approximately 10 cm (4 inches) from the 30X magnifying mirror for a clear image.
Mirror head is loose or wobbly.	Improper assembly.	Ensure the mirror head and stand are securely attached and locked into the base as per assembly instructions.

SPECIFICATIONS

- **Model Number:** BM-2519
- **Magnification:** 1X / 30X (Double-Sided)
- **Mirror Diameter:** 8 inches
- **LED Lights:** 64 LEDs
- **Light Modes:** 3 (Cool, Natural, Warm)
- **Brightness:** Dimmable
- **Battery:** 2000mAh Rechargeable Lithium Battery
- **Charging Time:** 3-5 hours
- **Continuous Use:** Up to 15 hours
- **Auto-off:** 30 minutes
- **Rotation:** 360°
- **Material:** Acrylonitrile Butadiene Styrene (ABS), Plastic, Glass
- **Dimensions (L x W x H):** 6.1 x 22.5 x 21.9 cm
- **Weight:** 650 grams
- **Included Components:** Magnifying Lighted Mirror, Tweezers, USB Type-C Charging Cable
