Ulanzi D200

Ulanzi D200 Stream Controller Instruction Manual

Model: D200 | Brand: Ulanzi

INTRODUCTION

This manual provides comprehensive instructions for setting up, operating, and maintaining your Ulanzi D200 Stream Controller. Designed for live streamers, content creators, and professionals, the D200 offers intuitive control over various applications and workflows.

PRODUCT OVERVIEW

The Ulanzi D200 Stream Controller is a versatile device featuring 14 LCD keys, including one large key for system monitoring (CPU+GPU/Time display) and 13 customizable keys. It is designed to streamline your digital workflow by providing quick access to applications, shortcuts, and multi-action commands.

Key Features:

- **Plug & Play Connectivity:** Utilizes USB 2.0 for driver-free setup, allowing immediate use upon connection to your computer.
- **Customizable LCD Keys:** Features 13 programmable LCD keys and one large display key for CPU/GPU/Time, enabling personalized control with custom icons.
- **Multi-Action Capabilities:** Assign multiple actions to a single button, simplifying complex tasks and optimizing workflow efficiency.
- **Broad Application Support:** Seamlessly integrates with popular streaming platforms (OBS, YouTube, Twitch, Zoom) and professional software (PowerPoint, Excel, Photoshop).
- **Rich Plugin Ecosystem:** Access a variety of plugins through the 'U-Studio' store to enhance functionality and manage tools.
- **Multi-Page Functionality:** Create and switch between up to 10 profiles, sub-pages, and folders to adapt to different scenarios and workflows.
- **Premium Build Quality:** Constructed from matte aluminum with a sophisticated design.

SETUP INSTRUCTIONS

Connecting the Device:

1. Unbox the Ulanzi D200 Stream Controller and its accessories.
2. Connect the provided USB cable to the D200 and then to an available USB 2.0 port on your computer.
3. The device is plug-and-play and does not require additional driver installation. It should be recognized automatically by your operating system (Windows 10 or later, Mac OS 10.13 or later).

便利なプラグ&プレイ

プラグインするだけで設定完了! ドラッグ&ドロップで簡単に様々なソフトやツールをカスタマイズでき、ワークフローを自由に設計します。

Software Installation (U-Studio):

While the D200 is driver-free, the U-Studio software is recommended for full customization and access to plugins. Download the latest version of U-Studio from the official Ulanzi website.

1. Visit the official Ulanzi support website.
2. Locate and download the U-Studio software compatible with your operating system (Windows or Mac).
3. Follow the on-screen instructions to install U-Studio.
4. Launch U-Studio to begin customizing your D200.

OPERATING INSTRUCTIONS

Customizing Keys with Drag & Drop:

The Ulanzi D200 allows for easy customization of its 13 LCD keys using a drag-and-drop interface within the U-Studio software.

1. Open the U-Studio application on your computer.
2. Browse the available actions, applications, and plugins in the U-Studio library.
3. Drag your desired action or application icon from the library and drop it onto one of the 13 customizable LCD keys on the virtual D200 interface.
4. You can also assign multiple actions to a single key to create complex macros.

ワンタップで、マルチタスクを操作できる!

複数のアクションを1つのマクロキーに設定することにより、1回押すだけで、複数の操作を同時に実行できます。プロセスを簡素化し、面倒なステップが必要なし。

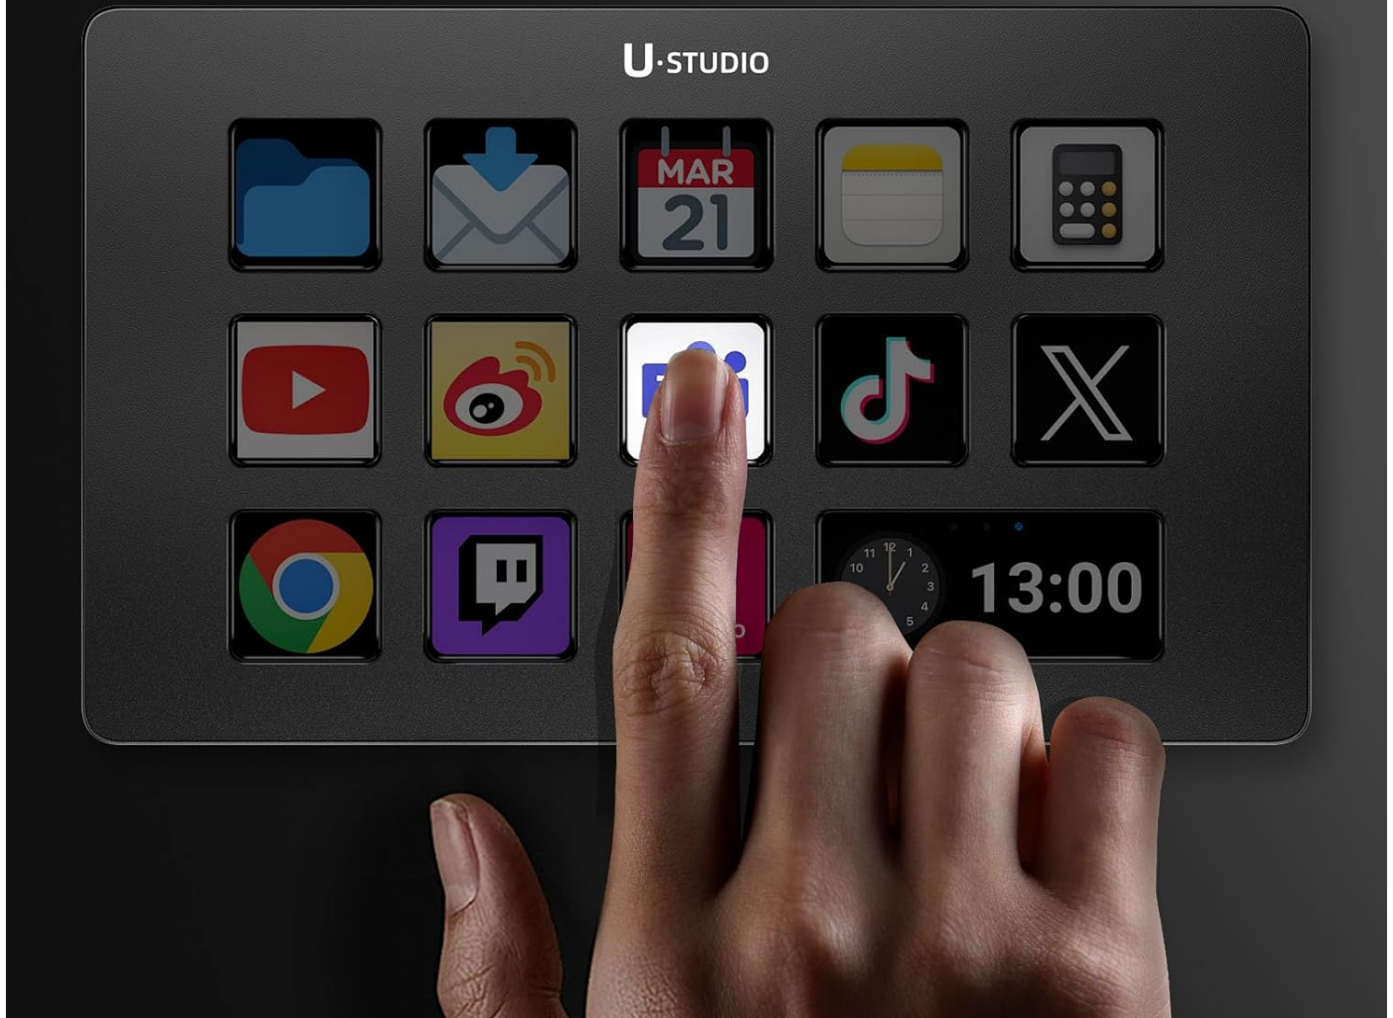

Figure 4: Drag and drop actions to customize your D200 keys.

Multi-Page and Profile Management:

Organize your keys into different profiles, sub-pages, and folders to manage various workflows efficiently. The D200 supports up to 10 secondary pages.

- Create different profiles for specific tasks (e.g., "Gaming Profile," "Editing Profile," "Streaming Profile").
- Within each profile, you can create sub-pages or folders to categorize actions further.
- Easily switch between profiles and pages using dedicated keys or gestures configured in U-Studio.

MAINTENANCE

To ensure the longevity and optimal performance of your Ulanzi D200 Stream Controller, follow these maintenance guidelines:

- Keep the device clean by wiping it with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- Protect the device from extreme temperatures, direct sunlight, and moisture.
- Avoid dropping the device or subjecting it to strong impacts.
- Ensure proper ventilation around the device during prolonged use.

TROUBLESHOOTING

If you encounter issues with your Ulanzi D200 Stream Controller, please refer to the following common troubleshooting steps:

- **Device Not Recognized:**
 - Ensure the USB cable is securely connected to both the D200 and your computer.
 - Try connecting the D200 to a different USB port on your computer.
 - Restart your computer.
 - Verify that your operating system meets the minimum requirements (Windows 10+ or Mac OS 10.13+).
- **Keys Not Responding:**
 - Check if the U-Studio software is running and properly configured.
 - Ensure that actions are correctly assigned to the keys within U-Studio.
 - Restart the U-Studio application.

- **U-Studio Software Issues:**

- Update U-Studio to the latest version from the official Ulanzi website.
- If the issue persists, try reinstalling the U-Studio software.

For further assistance, please contact Ulanzi customer support.

WARRANTY AND SUPPORT

The Ulanzi D200 Stream Controller comes with a **12-month quality warranty** from the date of purchase. This warranty covers initial defects and natural failures that occur during normal use.

In case of any issues covered under warranty, Ulanzi provides exchange services. Please retain your proof of purchase for warranty claims.

Contact Support:

For technical support, warranty claims, or any other inquiries, please visit the official Ulanzi website or contact their customer service department.
