

## LISEN A608

# LISEN Suction Cup Phone Mount User Manual

Model: A608

## 1. INTRODUCTION

---

Thank you for choosing the LISEN Suction Cup Phone Mount. This manual provides essential information for the safe and effective use of your new device. Please read it thoroughly before installation and operation.

## 2. SAFETY INFORMATION

---

To ensure safe operation and prevent damage, please observe the following safety guidelines:

- **Important Installation Information:** This car mount is designed for smooth, flat surfaces like windshields and screens.
- **Do not use on:**
  - Leather dashboards or other breathable surfaces, as a secure vacuum seal cannot form.
  - Surfaces with large particles, textures, or curves.
- **Compatibility:** Exclusively for iPhone 12 - 16 Series (including Pro Max, Pro, Mini, and Plus variants).
- Ensure the mounting surface is clean and dry before installation to achieve optimal suction.
- Do not obstruct your view of the road or vehicle controls when mounting the device.
- Avoid extreme temperatures. The device is designed to withstand temperatures from -20°F to 176°F (-28°C to 80°C).

## 3. PACKAGE CONTENTS

---

Verify that all items are present in the package:

- LISEN Suction Cup Phone Mount
- 3M adhesive pad (for challenging surfaces)
- Alcohol pad (for surface cleaning)

- User Manual (this document)

*Note: Additional accessories may be included depending on the specific product variant.*

## 4. SETUP AND INSTALLATION

---

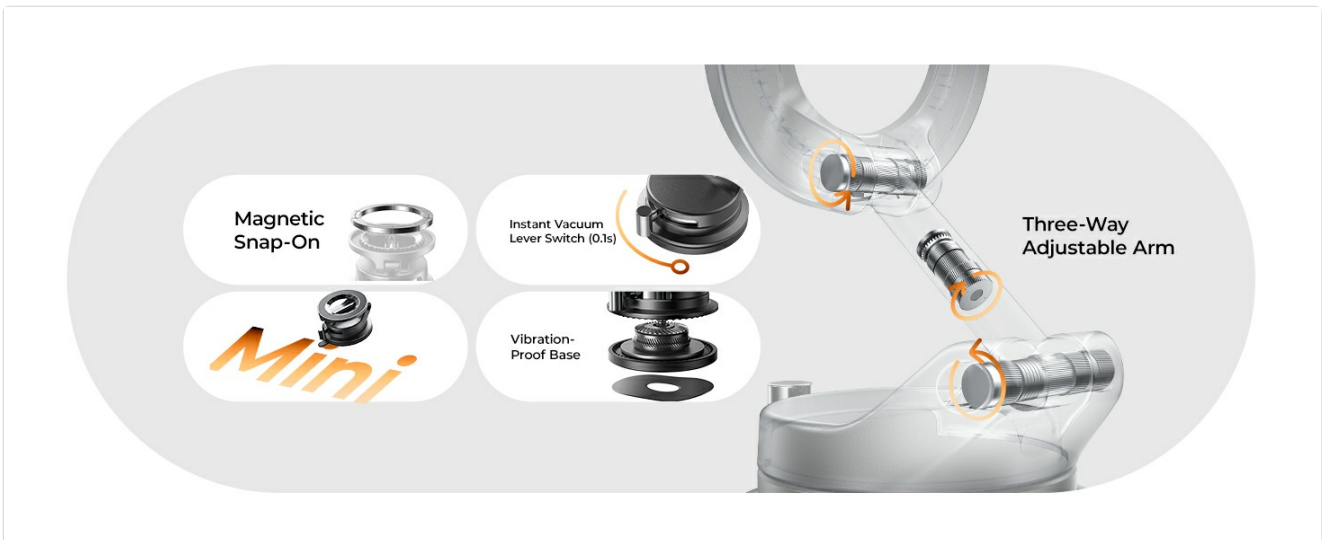

Follow these steps for proper installation of your LISEN Suction Cup Phone Mount:

1. **Clean the Installation Area:** Thoroughly clean the desired mounting surface with the included alcohol pad. Ensure the surface is smooth, flat, and free of dust, dirt, or moisture.

*Image: Step 1 - Cleaning the installation area on a car dashboard.*

2. **Secure the Base Pad (Optional, for textured dashboards):** If mounting on a textured dashboard, peel off the protective film from the included 3M adhesive pad. Firmly press the pad onto the desired mounting area and allow it to cure for 24 hours before attaching the mount. For smooth surfaces like glass or screens, this pad is not required.

*Image: Step 2 - Securing the adhesive base pad on a car dashboard.*

3. **Attach the Suction Cup Bracket:** Place the suction cup of the phone mount onto the cleaned surface (or the center of the adhesive pad).

Image: Step 3 - Attaching the suction cup bracket to the base.

4. **Lock into Place:** Twist the lever on the suction cup base to create a vacuum seal. This will firmly secure the mount to the surface. You should hear a "click" indicating it's locked.

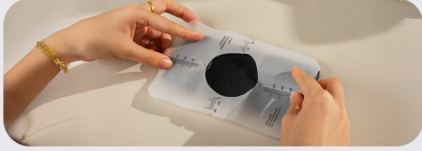

## Installation Steps

Image: Step 4 - Locking the suction cup mount for secure attachment.

5. **Attaching a Non-MagSafe Phone (Optional):** If your phone or case is not MagSafe compatible, use the included adhesive magnetic attachment ring.
  - a. Take out the positioning card and place it on your phone's back.
  - b. Remove the protective film from the magnetic ring and apply it to your phone, pressing firmly to secure.
  - c. Allow the magnetic ring to cure for 12 hours before use to ensure strong adhesion.

**01** Take out positioning card  
Place on phone back

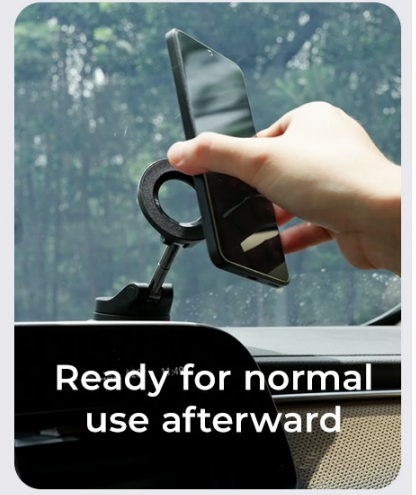

**02** Remove protective film Apply  
to phone Press to secure

**03** Remove the protective  
film from the magnetic ring

**04** Allow magnetic ring to  
cure 12 hours before use

*Image: Steps for attaching a magnetic ring to a non-MagSafe phone.*

**Compatibility Note:** This mount is designed for MagSafe compatible iPhone 12-16 series. It is not recommended for use with granular, uneven, textured, soft, or breathable surfaces without the adhesive pad. Avoid using with metal cases or credit cards placed between the phone and the mount, as this can interfere with magnetic adhesion.

# Install Where You Want

## 5. OPERATING INSTRUCTIONS

### 5.1 Attaching Your Phone

Once the mount is securely installed, simply bring your MagSafe compatible iPhone (or phone with the adhesive magnetic ring) close to the magnetic ring on the mount. The strong magnets will instantly snap your phone into place. This allows for convenient one-handed operation.

## **5.2 Adjusting the Viewing Angle**

The LISEN Suction Cup Phone Mount features a 360° adjustable design for optimal viewing. You can rotate your phone between portrait and landscape orientations, and adjust the angle using the triaxial rotation points. The aerospace-grade metal shaft and ABS base ensure stability even with frequent adjustments.

### 5.3 Removing Your Phone

To remove your phone, simply pull it away from the magnetic ring. The strong magnetic connection allows for quick and easy detachment when parked.

## 6. MAINTENANCE

---

Proper maintenance ensures the longevity and performance of your LISEN Suction Cup Phone Mount:

- **Cleaning the Suction Cup:** If the suction cup becomes dusty or dirty, rinse it with warm water and mild dish soap. Allow it to air dry completely before re-applying. This will restore its stickiness.
- **Cleaning the Mount:** Wipe the mount with a soft, damp cloth to remove dust and grime. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use for extended periods, store the mount in a cool, dry place away from direct sunlight.
