Safety Information

Please observe the following safety precautions to prevent injury and ensure proper operation of your adjustable bed base:

- **Electrical Safety:** Ensure the power cord is not pinched or damaged. Do not operate the base if the cord or plug is damaged. Always unplug the base before cleaning or performing maintenance.
- **Children and Pets:** Keep children and pets away from the adjustable base, especially during operation, to prevent entanglement or injury from moving parts.
- **Weight Capacity:** Do not exceed the recommended weight capacity of the bed base. Refer to the specifications section for details. Distribute weight evenly.
- **Moving Parts:** Keep hands and feet clear of all moving parts during operation.

- **Flammable Materials:** Do not use or store flammable materials near the bed base.
- **Professional Installation:** If you are unsure about any assembly steps, consult a qualified professional.

Setup

Your Serta baselogic Level 2 Adjustable Base Bed Frame is designed for straightforward assembly. An installation manual is included with your product for detailed step-by-step instructions. Key features facilitating setup include its foldable design and adjustable legs.

Unpacking and Initial Placement

1. Carefully remove all components from the packaging.
2. Unfold the bed base in the desired location. The foldable design allows for convenient transport and compact storage.

Adjustable Legs and Zero-Clearance Profile

The base features 3-in-1 adjustable legs, allowing you to customize the bed height. The legs stack in 4-inch increments (4", 8", or 12"). They can also be removed entirely for a zero-clearance profile, making the base compatible with most platform bed frames.

The zero-clearance design allows the base to be used without legs, fitting seamlessly into most platform bed frames.

Operating Instructions

The Serta baselogic Level 2 Adjustable Base offers intuitive controls for personalized comfort.

Wireless Remote Control

Your adjustable base comes with a wireless remote for effortless control of all functions. Ensure the remote has working batteries (not included) before use.

The wireless remote control, featuring dedicated buttons for head and foot adjustments, Zero-G preset, and a one-touch flat button.

Head and Foot Adjustability

Use the 'HEAD' and 'FOOT' buttons on the wireless remote to raise or lower the upper body and leg sections of the bed base. Adjust to find your perfect position for sleeping, reading, or relaxing.

Zero-Gravity Preset

The built-in 'ZERO-G' preset button on your remote instantly moves the bed to a position that helps relieve pressure points, promoting deeper relaxation and better rest. This position elevates both the head and feet slightly, mimicking the feeling of weightlessness.

The Zero-Gravity preset helps alleviate pressure points for enhanced relaxation and comfort.

One-Touch Flat Preset

The 'FLAT' button on the remote allows you to instantly return the bed base to a completely flat position with a single touch.

Maintenance

Proper care and maintenance will extend the life of your Serta baselogic adjustable base.

Fabric Care

- To prolong the life of your fabric, protect it from direct sunlight whenever possible.
- Keep the base at a minimum of 12 inches (30 cm) away from direct heat sources.
- For deeper cleaning, blot liquid spills with a clean dry cloth. Wipe with a clean cloth dampened with warm water. Do not wet excessively or use abrasive or harsh chemicals.
- A soft bristle brush may be used to remove ingrained soil. Avoid scratching by gentle brushing.
- Wipe with a clean cloth dampened with warm water to remove residues. Dry out of direct sunlight and away from direct heat sources. If persistent marks remain visible after cleaning, seek professional advice.
- For spot cleaning, wipe the area with a light damp sponge or vacuum with a soft brush attachment to remove particles.

General Maintenance

- Regularly inspect all connections and fasteners to ensure they are secure.
- Keep the area around the motor and moving parts free from obstructions.

Troubleshooting

If you encounter issues with your Serta baselogic adjustable base, refer to the following common troubleshooting steps:

- **No Power/Base Not Responding:**
  - Check if the power cord is securely plugged into a working electrical outlet.
  - Ensure the power supply is not tripped (check circuit breaker).
  - Verify that the remote control batteries are correctly installed and not depleted.
- **Remote Control Not Working:**
  - Replace the batteries in the remote control.
  - Ensure there are no obstructions between the remote and the bed base's receiver.
  - If the remote has a pairing button, try re-pairing it according to the full installation manual.
- **Motor Noise:**
  - Some motor noise during adjustment is normal.
  - If the noise is excessive or unusual, check for any objects obstructing the motor or moving parts.
- **Uneven Movement:**
  - Ensure the bed base is placed on a flat, level surface.
  - Check that all legs are securely tightened and evenly supporting the base.

For issues not covered here, please refer to the detailed installation manual or contact Serta customer support.
