SETUP

1. Download the Find Hub App

To begin, download the official Google Find Hub app from the Google Play Store on your Android device. This application is essential for managing and locating your Ajblg Air Trackers.

Left-Behind Remind

When you leave it behind

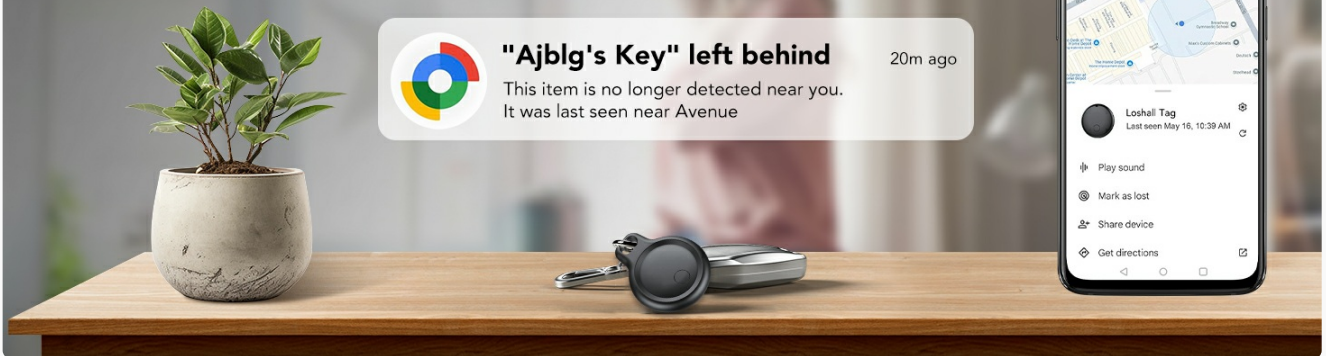

Image: Step 1 - Download the Google Find Hub app.

2. Pairing the Tracker

Follow these steps to pair your Ajblg Air Tracker with your Android phone:

1. Ensure Bluetooth is enabled on your Android phone.
2. Press the power button on the Ajblg Air Tracker once to activate it and enter pairing mode.
3. Place the tracker near your Android phone.
4. The Google Find Hub app will automatically detect the tracker and prompt you to connect. Follow the on-screen instructions to complete the pairing process.

OPERATING INSTRUCTIONS

Locating Lost Items

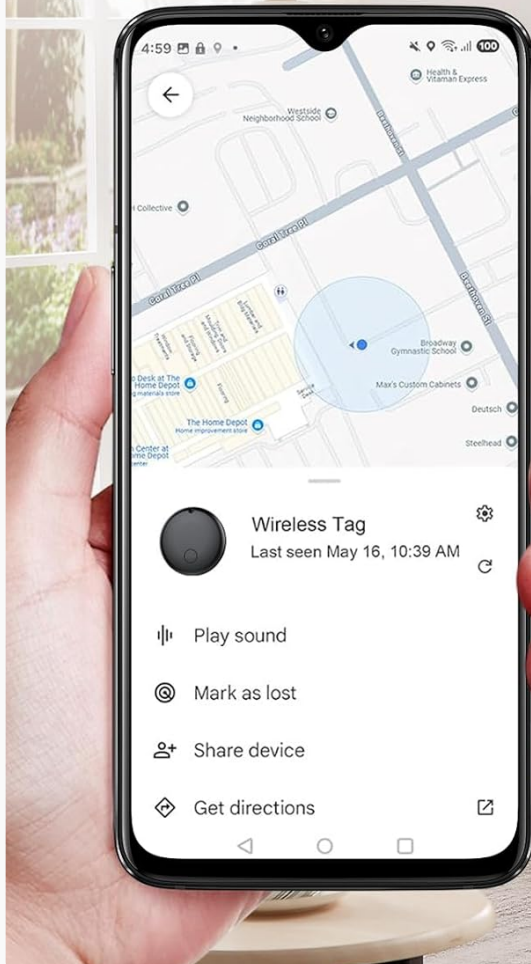

The Ajblg Air Tracker offers multiple ways to help you find your lost items:

- **Nearby Search:** Within the Google Find Hub app, you can view your distance from the lost item. The Bluetooth range extends up to 120 feet (approximately 36 meters), helping you narrow down your search area.
- **Loud Alert:** If the item is nearby but out of sight, use the 'Play Sound' feature in the app. The tracker's built-in speaker will emit an alarm between 80-100 dB, making it easier to locate in cluttered spaces like under

furniture or in bags.

Find Your Item Nearby

Click "Play Sound" to locate via audio Select "Directions" for precise tracking

Up to 100dB loud Beep

Up to 350ft Bluetooth range

LTEMS LOST ANYWHERE

Real-time GPS location and route finding

Google's system is continuously being upgraded for enhanced performance.

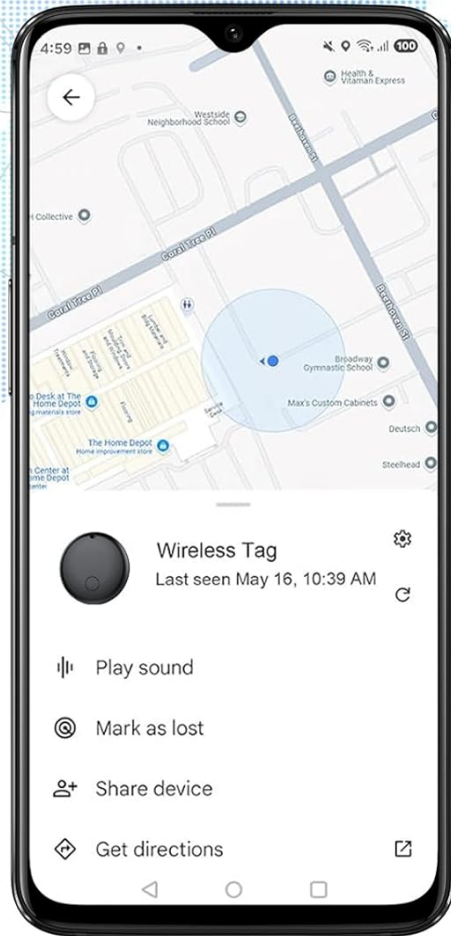

Image: Real-time GPS location and route finding via the Find Hub app.

Left-Behind Reminders

The Ajbgl Air Tracker can notify you if you leave an item behind. The app will send a reminder, indicating that the item is no longer detected near you and its last known location.

Left-Behind Remind

Sharing Devices

You can share access to your Ajblg Air Trackers with other users through the Google Find My Device app. This allows multiple individuals to view the item's location on a map, which is useful for shared items like family car keys or luggage.

Privacy Protection

Your privacy is protected when using the Ajblg Air Tracker. The Google Find My Device app utilizes encrypted and anonymous networks. Location data and history are not stored, and Google cannot access this information, ensuring your data remains secure.

MAINTENANCE

Battery Replacement

Each Ajblg Air Tracker is powered by a CR2032 coin cell battery, which can last up to 1 year depending on usage

and environmental conditions. When the battery is low, it can be easily replaced to ensure continuous functionality.

1. Locate the battery compartment on the back of the tracker.
2. Gently twist or pry open the cover (specific method may vary, refer to visual cues on the tracker).
3. Remove the old CR2032 battery.
4. Insert a new CR2032 battery with the positive (+) side facing up.
5. Securely close the battery compartment cover.

REPLACEABLE BATTERY LASTS UP TO 1 YEAR

365

Days

Compatible Devices	Android devices (Android 9 and above)
Material	Plastic, Silicone

TROUBLESHOOTING

If you encounter issues with your Ajbgl Android Air Tracker, consider the following solutions:

- **Tracker Not Connecting:**

- Ensure Bluetooth is active on your Android device.
- Verify the tracker is within the Bluetooth range (up to 120 feet).
- Check the tracker's battery level. A low battery can prevent proper connection. Replace the CR2032 battery if necessary.
- Restart your Android phone and try pairing again.

- **Tracker Not Emitting Sound:**

- Confirm the tracker is connected to your device via the Find Hub app.
- Ensure the tracker's battery is not depleted.
- Check for any physical obstructions that might muffle the sound.

- **Inaccurate Location:**

- Location accuracy depends on the density of Android devices in the area. In sparsely populated areas, location updates might be less frequent or precise.
- Ensure your phone's location services are enabled for the Find Hub app.

- **Tracker Not Turning On:**

- Replace the CR2032 battery with a new one.
- Press and hold the power button for a few seconds to ensure it's attempting to power on.

WARRANTY AND SUPPORT

For warranty information, technical support, or further assistance, please refer to the contact information provided

with your product packaging or visit the official Ajblg website. Keep your proof of purchase for warranty claims.
