## SETUP AND INSTALLATION

Follow these general steps to install your new toner cartridge. Refer to your printer's specific user manual for detailed instructions on opening the printer and accessing the toner compartment.

1. **Power Off Printer:** Ensure your printer is turned off and unplugged before beginning the installation process.
2. **Open Printer Access Door:** Locate and open the toner cartridge access door on your Ricoh printer.
3. **Remove Old Cartridge:** Carefully remove the empty or old toner cartridge from its slot.
4. **Unpack New Cartridge:** Remove the new WMSNUH toner cartridge from its packaging. Gently shake the cartridge horizontally 5-6 times to distribute the toner evenly.
5. **Remove Protective Seals:** Remove any protective tapes, covers, or seals from the new cartridge as indicated by the packaging or cartridge itself. *Do not touch the chip or the optical drum.*
6. **Insert New Cartridge:** Align the new cartridge with the slot and slide it firmly into place until it clicks.

7. **Close Printer Door:** Close the toner cartridge access door securely.
8. **Power On Printer:** Plug in and power on your printer. The printer should recognize the new cartridge.
9. **Print Test Page:** Print a test page to confirm proper installation and print quality.

## OPERATING INSTRUCTIONS

---

Once installed, the WMSNUH IM C320F toner cartridge operates seamlessly with your compatible Ricoh printer. No special operating procedures are required beyond your printer's standard functions.

- Ensure your printer drivers are up-to-date for optimal performance.
- Monitor toner levels through your printer's software utility.
- For best results, use high-quality paper suitable for laser printing.
