## EINSEO Gatling

# EINSEO Gatling AI Lover Male Masturbator Instruction Manual

Model: Gatling

## 1. INTRODUCTION

---

Thank you for choosing the EINSEO Gatling AI Lover Male Masturbator. This device is designed to provide a versatile and engaging experience with advanced features including AI-powered interaction, multiple stimulation modes, and a waterproof design. This manual provides essential information for safe and effective use, maintenance, and care of your device.

## 2. SAFETY INFORMATION

---

- This product is intended for adult use only.
- Clean the device thoroughly before and after each use as instructed in the Maintenance section.
- Use only water-based lubricants with this device. Oil-based lubricants can damage the silicone material.
- Discontinue use immediately if you experience any discomfort, pain, or irritation. Consult a medical professional if symptoms persist.
- Do not immerse the main unit in water for extended periods, despite its waterproof rating. Ensure the charging port is dry before charging.
- Keep out of reach of children.
- Store in a cool, dry place away from direct sunlight and extreme temperatures.

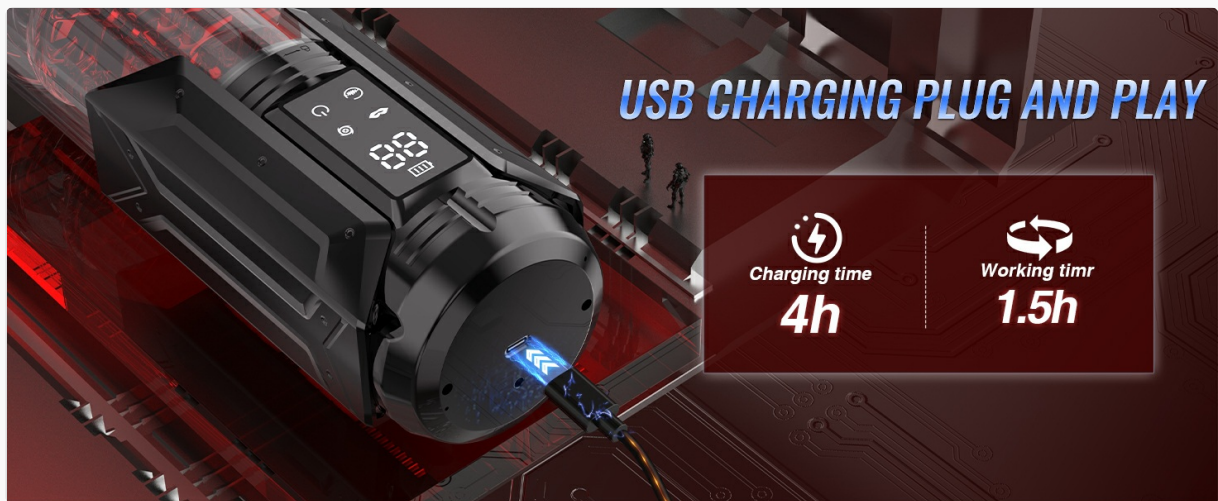

## 3. PACKAGE CONTENTS

---

Verify that all items are present in your package:

- 1 x EINSEO Gatling Male Masturbator
- 1 x Water-based Lubricant sample
- 1 x USB Charging Cable
- 1 x User Manual (this document)

- 1 x Suction Base

The package includes the main device, lubricant, USB cable, user manual, and a suction base.

## 4. SETUP

### 4.1 Initial Charging

Before first use, fully charge the device. Connect the provided USB charging cable to the charging port on the device and to a standard USB power adapter (not included). The LED display will indicate charging status. A full charge takes approximately 4 hours and provides about 1.5 hours of use.

Connect the USB cable to the device for charging. A full charge takes 4 hours and provides 1.5 hours of operation.

### 4.2 Attaching the Suction Base

To use the device hands-free, attach the suction base to the bottom of the main unit. Ensure it is securely fastened. The suction base can then be affixed to any smooth, flat surface like tile, glass, or tabletops.

# FULLY WATERPROOF

HOT & COLD COMPATIBLE

The suction base allows for hands-free use on smooth surfaces.

## 5. OPERATING INSTRUCTIONS

### 5.1 Basic Controls

The device features an LED display and intuitive buttons for control.

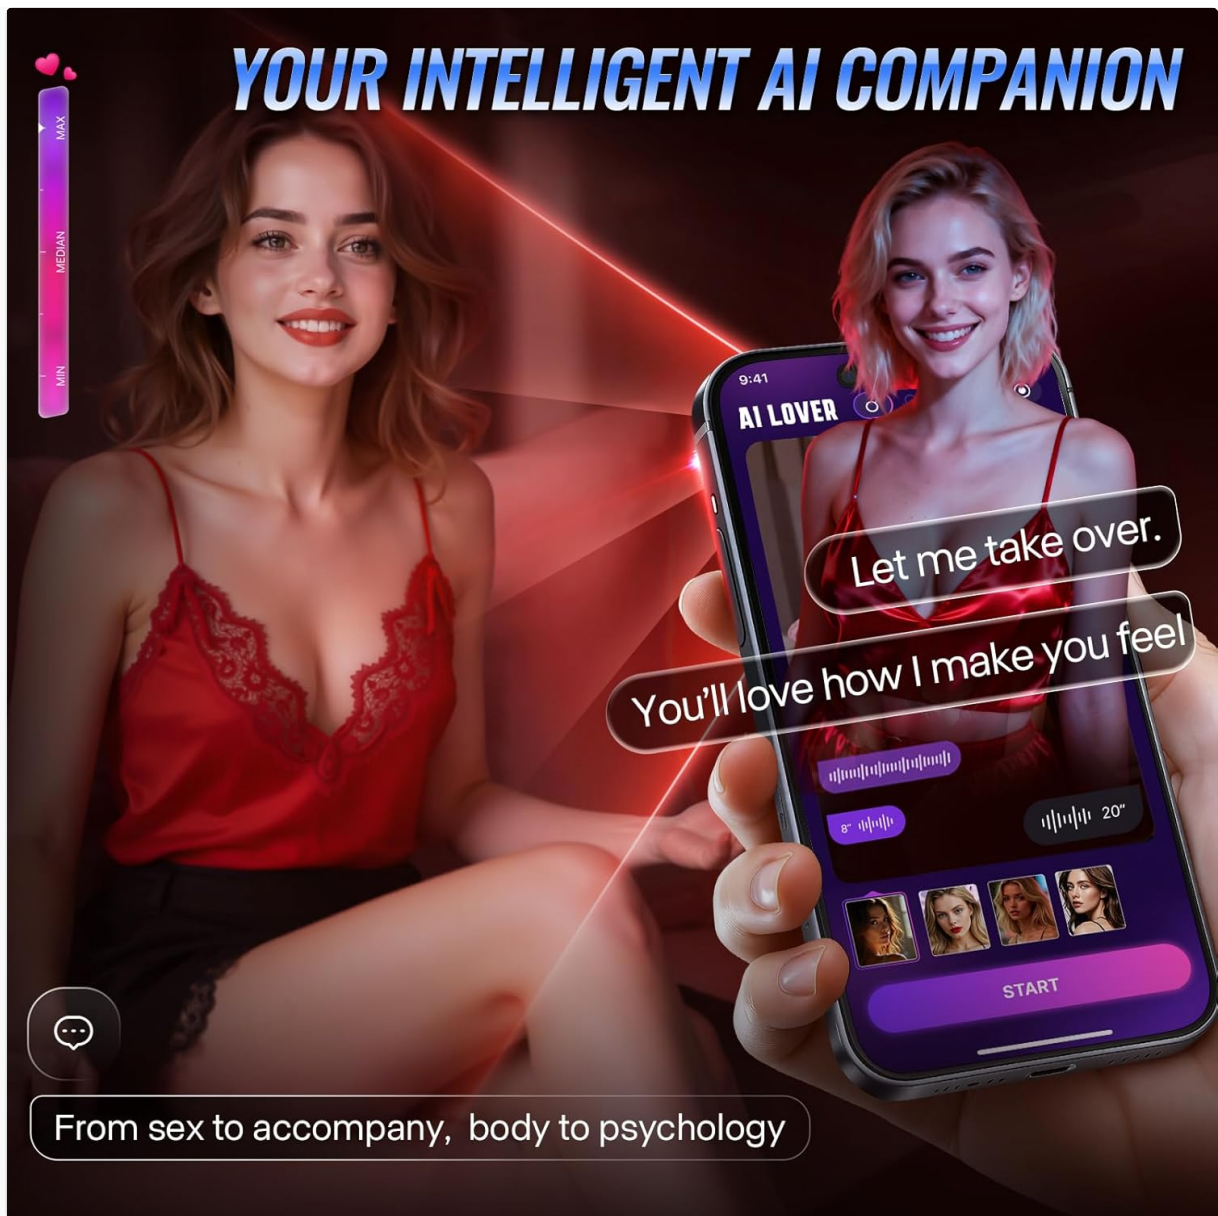

The LED display shows current settings and battery level. Buttons control power and modes.

- **Power Button:** Press and hold to turn the device on or off. Short press to cycle through modes or confirm selections.
- **Mode Buttons:** Use dedicated buttons to adjust thrusting, rotating, and suction intensities.
- **Burst Mode Button:** Activates a one-touch maximum intensity setting for all functions.

## 5.2 AI Lover Mode and App Control

The device can be connected to a smartphone app to unlock advanced AI Lover features. This mode allows for real-time voice or text chat, where your commands can instantly adjust the device's thrust, rotation, and suction. A video mode synchronizes the device's tempo with on-screen action. Remote control functionality allows a partner to manage the device's pace and intensity, even over long distances.

The AI Lover app provides interactive control and synchronization features.

### 5.3 Thrusting and Rotating Modes

The device offers 7 powerful thrusting and rotating modes. The internal sleeve provides a 30mm deep thrust and 360-degree rotation for comprehensive stimulation. Adjust the intensity using the dedicated buttons.

# Hands-Free Freedom Anywhere

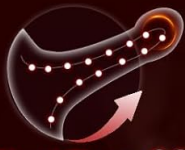

The device features both thrusting and 360-degree rotating actions.

## 5.4 Suction Modes

There are 7 suction intensities available, providing rhythmic pressure. Holding the suction button for 6 seconds activates a vacuum burst, which can enhance blood flow.

# 6S DEEP VACUUM SUCTION

*Feels Like a Real Throat*

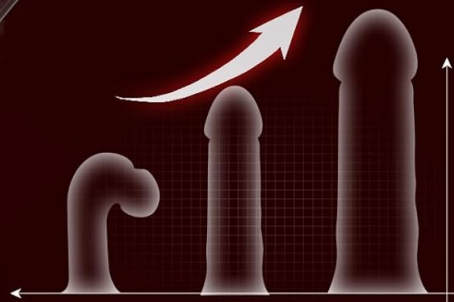

**Blood Flow +30%**

**Hardness Index +50%**

**Boost Size with Vacuum Pump**

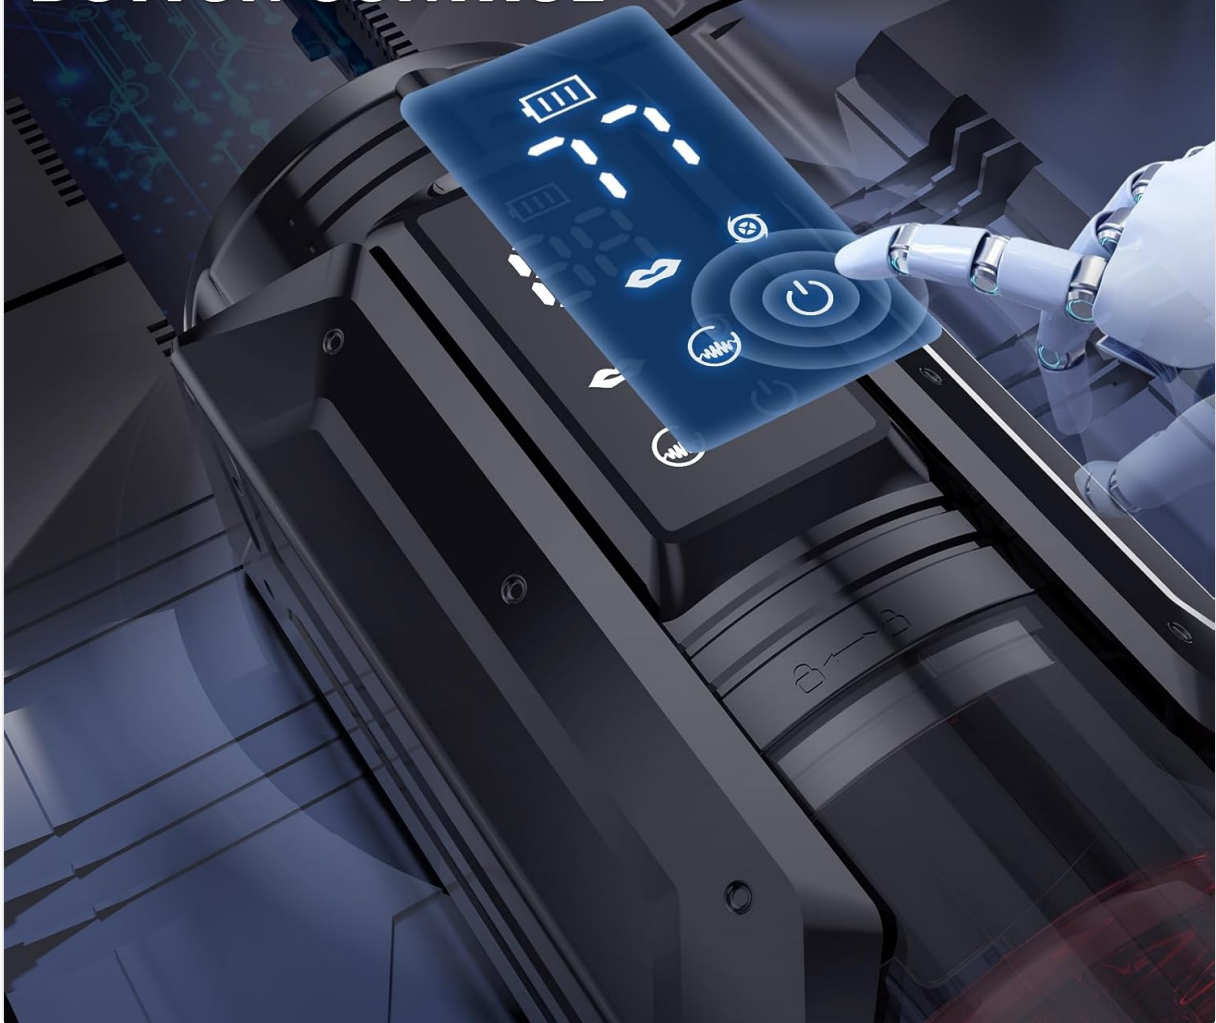

Deep vacuum suction can be activated to increase blood flow.

## 5.5 Water Massage Function

The device is fully waterproof, allowing for use with water. Filling the sleeve with warm water can create a soothing sensation, while cold water can be used for desensitization training.

# SMART LED DISPLAY & SIMPLE BUTTON CONTROL

The device supports both warm and cold water for varied experiences.

## 5.6 Internal Sleeve Design

The elastic, jelly-like inner sleeve features a textured tongue tip for gentle stimulation and dense particle textures for comprehensive sensation.

# UPGRADED BRAND BOX WITH DISCREET SHIPPING

The internal sleeve features a licking tongue, dense particles, and a soft entry.

## 6. MAINTENANCE

### 6.1 Cleaning Instructions

The device features a waterproof and detachable sleeve for easy cleaning. Follow these steps:

1. Remove the lid from the device.
2. Fill the cup with warm water and a mild, toy-safe soap.
3. Turn on the suction function briefly to help circulate the cleaning solution.
4. Rotate and unscrew the casing to fully detach the inner sleeve.
5. Take out the silicone sleeve.
6. Wash the sleeve thoroughly with warm water and toy cleaner or mild soap. Rinse completely to remove all soap residue.
7. Allow all components to air dry completely before reassembling or storing.

## DEEP SUCTION TRAINING MAKES YOU HARDER AND LONGER

Negative pressure suction boosts blood flow to the penis, enhancing erection size and firmness

Blood Flow **+30%**

Hardness Index **+50%**

Follow these steps for thorough cleaning of the detachable sleeve.

### 6.2 Storage

Store the device in a clean, dry place, away from direct sunlight and extreme temperatures. Ensure it is fully dry before storage to prevent bacterial growth.

## 7. TROUBLESHOOTING

If you encounter any issues with your EINSEO Gatling device, please refer to the following common solutions:

- **Device not turning on:** Ensure the device is fully charged. Connect it to the USB charging cable and allow it to charge for at least 30 minutes before attempting to power it on again.
- **Weak or inconsistent performance:** Check the battery level on the LED display. Recharge if the battery is low. Ensure the internal sleeve is correctly assembled and free from obstructions.
- **App connectivity issues:** Ensure Bluetooth is enabled on your smartphone and the device is within range. Restart both the device and the app.
- **Unusual noise:** A low hum is normal during operation. If you hear loud or grinding noises, discontinue use and contact customer support. The device is designed for quiet operation (approximately 45dB).

The device operates at a low noise level of approximately 45dB.

If these steps do not resolve the issue, please contact EINSEO customer support for further assistance.

## 8. SPECIFICATIONS
