3. SAFETY INFORMATION

WARNING: Not suitable for children under three years old due to small parts which may present a choking hazard.

- Adult supervision is recommended during assembly and play.
- Ensure all electrical connections are secure before operating.
- Do not immerse electrical components in water.
- Keep hair, loose clothing, and fingers away from moving parts of the cars and track.
- Use only the provided power adapter.

4. SETUP AND ASSEMBLY

The track pieces feature secure locking mechanisms for quick setup. Each track piece is labeled to assist with assembly. Refer to the included instruction diagrams for specific track configurations.

- 1. Unpack Components:** Carefully remove all track pieces, cars, controllers, and accessories from the packaging.
- 2. Plan Your Layout:** Refer to the assembly diagrams in the manual to choose your desired track configuration. The set supports various layouts, including straight sections, S-curves, circular loops, and dual racing lanes.
- 3. Connect Track Pieces:** Align the labeled track pieces according to your chosen layout. Gently push the connectors together until they snap securely into place. Ensure a firm connection for consistent power flow.
- 4. Install Overpass and Guardrails:** Assemble the circular overpass sections and attach them to the designated track pieces using the provided brackets. Place guardrails on the outer edges of curves to prevent cars from flying off the track.
- 5. Connect Power and Controllers:** Plug the power adapter into the main track connection piece. Connect the two controllers to the designated ports on the track.
- 6. Prepare Cars:** Ensure the conductive brushes on the bottom of each slot car are properly aligned and clean. These brushes make contact with the track's power rails.

Video 4.1: A demonstration of the track assembly process, showing how various pieces connect to form the complete race track. This video is provided by the seller, Bowave.

5. OPERATING INSTRUCTIONS

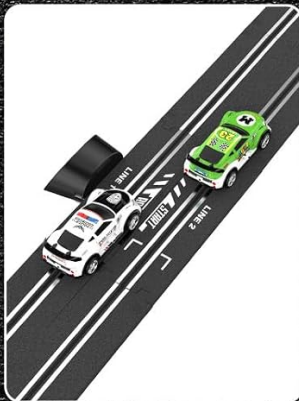

Once the track is fully assembled and powered, you are ready to race!

- 1. Place Cars:** Carefully place the slot cars onto their respective lanes on the track, ensuring the conductive brushes on the bottom of the cars are seated correctly in the track's slots.
- 2. Power On:** Ensure the power adapter is plugged into an outlet and the track is receiving power.
- 3. Control Cars:** Use the handheld controllers to accelerate your cars. Press the trigger to increase speed. Responsive remote controls allow cars to reach high speeds, delivering an authentic racing experience.
- 4. Navigate the Track:** Master precise speed control to navigate sharp turns and the circular overpass. The track features LED flash effects for enhanced realism and excitement.
- 5. Dual Racing:** The 2-in-1 design allows for dual racing, enabling two players to compete simultaneously.

6. MAINTENANCE

- **Clean Track:** Regularly wipe down the track surface with a dry, lint-free cloth to remove dust and debris that can affect car performance.
- **Inspect Brushes:** Periodically check the conductive brushes on the bottom of the cars for wear. Replace them if they appear frayed or damaged to maintain good electrical contact.
- **Store Properly:** When not in use, disassemble the track and store all components in their original packaging.

or a suitable container to prevent damage and loss of parts.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Car not moving or moving slowly	Loose track connection, dirty conductive brushes, power issue, car not properly seated.	Ensure all track pieces are securely connected. Clean conductive brushes on the car. Verify power adapter is plugged in and functional. Re-seat the car firmly in the track slot.
Car derails frequently	Excessive speed on curves, track not flat, worn tires, insufficient guardrails.	Reduce speed when entering curves. Ensure track is assembled on a flat, stable surface. Check car tires for wear. Install all available guardrails on curves.
LED lights on track/cars not working	Power issue, loose connection.	Check power adapter and track connections. Ensure cars are properly making contact with the track.

8. SPECIFICATIONS

- **Model Number:** NO.A51-9A
- **Track Length:** 19.7 FT
- **Scale:** 1:43 (cars)
- **Product Dimensions:** 57.09 x 28.7 x 14.2 inches
- **Item Weight:** 4.4 pounds
- **Recommended Age:** 8 - 12 years (Manufacturer recommended)
- **Material:** High-quality, durable ABS plastic
