## SETUP AND ASSEMBLY

---

Assembly of your FEZIBO standing desk is designed to be straightforward. A comprehensive installation video is available to guide you through the process. All necessary assembly tools and detailed instructions are included in the package.

### **General Assembly Steps:**

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Assemble the desk frame according to the detailed instructions provided, ensuring all screws are tightened securely.
3. Attach the two-piece desktop to the assembled frame, aligning the pre-drilled holes.
4. Install the control panel on the underside of the desk, typically on the right side.
5. Connect the motor and control panel cables to the power adapter.
6. Attach the desk hooks to either side of the desk as desired.
7. Plug the power adapter into a wall outlet.

For detailed visual guidance, please refer to the installation video provided by FEZIBO.

## KEY FEATURES

- **Healthier Lifestyle Promotion:** The adjustable height supports seamless transitions between sitting and standing, reducing the risks of prolonged sitting such as leg swelling and back strain. This sit-stand workstation encourages better blood circulation, reduced muscle tension, and improved spinal health.
- **Ample Workspace:** The 55" x 24" desktop provides ample space for dual monitors, printers, and other office essentials. Perfect for professionals requiring extensive materials, it offers both durability and versatility for work or leisure.
- **Solid Steel Construction:** Built with a solid steel frame and aerospace-grade lifting column connectors, the desk remains stable and secure even after 100,000 lift tests. Its T-shaped design adds extra stability, making it ideal for demanding activities such as gaming or multi-monitor setups.
- **Anti-Collision Technology:** Features an auto-sensing anti-collision system that protects your desk and surrounding objects by stopping movement if an obstruction is detected.
- **Integrated Desk Hooks:** Two convenient hooks are included, allowing you to hang headphones, bags, or other items, keeping your workspace tidy and organized.

## MAINTENANCE

To ensure the longevity and optimal performance of your FEZIBO standing desk, follow these maintenance guidelines:

- **Cleaning:** Wipe the desk surface with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Cable Management:** Periodically check all cables and connections to ensure they are secure and free from damage. Organize cables to prevent tangling or tripping hazards.
- **Regular Inspection:** Inspect the desk frame and lifting mechanism for any signs of wear or loose fasteners. Tighten any loose screws as needed.
- **Avoid Overloading:** Do not exceed the desk's maximum weight capacity (refer to specifications) to prevent strain on the motor and frame.

## Troubleshooting

If you encounter any issues with your FEZIBO standing desk, please refer to the common solutions below. If the problem persists, contact customer support.

| Problem                                                  | Possible Cause                                                 | Solution                                                                                                              |
|----------------------------------------------------------|----------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Desk does not move.                                      | Power cable disconnected, motor error, or overload.            | Check power connections. Unplug and replug the desk. Reduce weight on the desk. Perform a reset (see below).          |
| Desk moves unevenly or makes unusual noises.             | Loose connections, uneven weight distribution, or motor issue. | Ensure all assembly screws are tight. Distribute weight evenly on the desktop. Perform a reset.                       |
| Memory presets not working.                              | Presets not properly saved or system needs reset.              | Resave your desired heights. Perform a system reset.                                                                  |
| Anti-collision feature triggers too often or not at all. | Sensitivity setting or obstruction.                            | Ensure no objects are near the legs during movement. Consult the full manual for adjusting sensitivity if applicable. |

## System Reset

If the desk is unresponsive or behaving erratically, a system reset may resolve the issue. To reset, press and hold the **UP** (^) and **DOWN** (v) buttons simultaneously for 5 seconds until the desk moves slightly or the display indicates a reset.
