## 3. SETUP AND INSTALLATION

---

### 3.1 Power Connection

The E T EASYTAO EC01 camera requires a continuous power supply via the included power cable and adapter. Ensure the power source is stable and within reach of the camera's intended installation location.

### 3.2 App Installation and Camera Pairing

To set up your camera, download the **Trishome** app from your device's app store (App Store for iOS or Google Play for Android). Follow the in-app instructions for creating an account and adding your device. The camera supports both 2.4GHz and 5GHz Wi-Fi networks for stable and fast connection.

## 4. OPERATING INSTRUCTIONS AND FEATURES

### 4.1 2K Ultra HD Video and Pan-Tilt Functionality

The EC01 camera delivers crisp 2K Full HD video, providing clear surveillance day and night. Its pan-tilt-zoom (PTZ) technology allows for a 355° horizontal rotation and 90° vertical tilt, ensuring comprehensive coverage without blind spots. You can control the camera's movement remotely via the Trishome app.

### 4.3 Smart PIR Motion Detection and Alerts

Equipped with a sensitive PIR motion sensor, the camera accurately detects human figures, reducing false alarms. Upon detecting motion at night, it automatically activates a spotlight. The system can also trigger siren and strobe light alarms to deter intruders. Instant alerts are sent to your mobile device.

### 4.6 Customizable Alerts and Family Sharing

You can define specific alarm zones within the camera's view to reduce false notifications. Customize alarm sounds to deter intruders effectively. The app also allows you to share surveillance video access with family members.

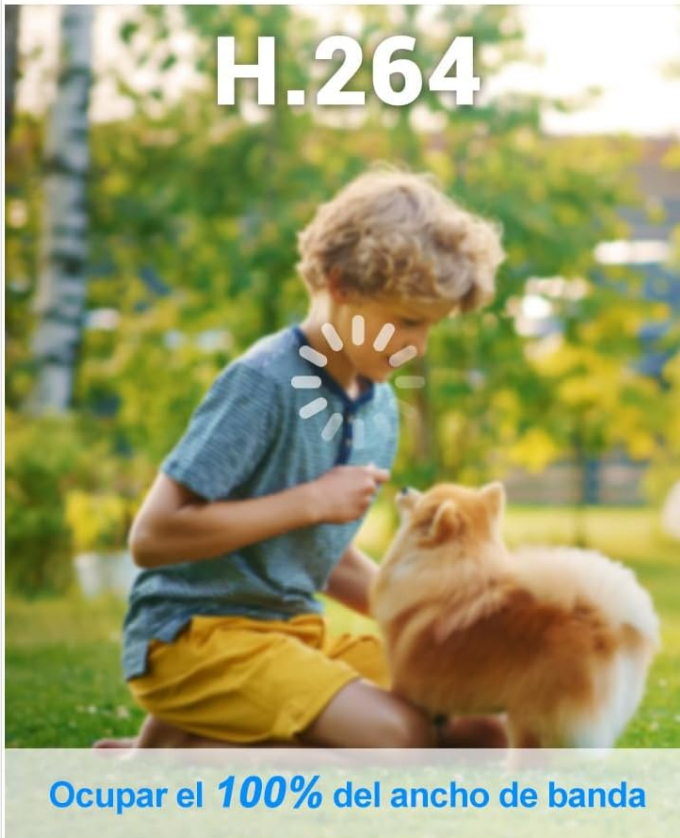

## 5. MAINTENANCE AND STORAGE

---

### 5.1 Flexible Storage Options

The camera offers flexible storage solutions for your recordings. You can use a microSD card (up to 256GB, not included) or opt for secure cloud storage (subscription required). When using a microSD card, ensure it is specifically designed for cameras and purchased from official channels to prevent damage.

## 6. TROUBLESHOOTING

If you encounter issues with your E T EASYTAO EC01 camera, please refer to the following common troubleshooting steps:

- **No Power:** Ensure the power adapter is securely connected to both the camera and a working power outlet.
- **Wi-Fi Connection Issues:** Verify that your Wi-Fi network is 2.4GHz or 5GHz and that the camera is within range of your router. Try restarting your router and the camera.
- **App Connection Failure:** Ensure your phone's Bluetooth is active during the initial pairing process. If the device was previously added, try removing it from the app and re-adding it.
- **Poor Video Quality:** Check your Wi-Fi signal strength. A weak signal can affect video streaming quality. Ensure the camera lens is clean.
- **False Motion Alerts:** Adjust the motion detection sensitivity settings in the Trishome app. Define specific alarm zones to exclude areas with frequent non-threatening movement.

For further assistance, please contact our technical support team via the TrisHome application, available 24 hours a day.
