IAGREEA HB-D86KW8

IAGREEA 10-in-1 Nut Milk Maker Machine User Manual

Model: HB-D86KW8

INTRODUCTION

Thank you for choosing the IAGREEA 10-in-1 Noise Reducing Nut Milk Maker Machine. This versatile countertop appliance is designed to simplify your healthy lifestyle by allowing you to create fresh, homemade plant-based milks, juices, and more with ease. Featuring a soundproof cover for quiet operation, a 35-ounce capacity, and convenient delay and heat preservation functions, this machine offers a seamless experience for preparing nutritious beverages.

IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before using the appliance.
- Do not immerse the main unit (base with motor) in water or other liquids to avoid electric shock.
- Ensure the power cord is not damaged and is properly plugged into a grounded outlet.
- Keep hands and utensils out of the container while blending to prevent injury.
- Always ensure the lid is securely closed before operating the machine.
- Do not operate the appliance with an empty container.
- Exercise caution when handling hot liquids or steam. The glass inner wall is heat resistant, but the contents will be hot.
- Keep out of reach of children.
- Unplug from outlet when not in use and before cleaning.
- Do not use the appliance for purposes other than its intended use.

SETUP

1. Unpack all components and remove any packaging materials.
2. Wipe the exterior of the main unit with a damp cloth.
3. Wash the container and lid with warm, soapy water, then rinse thoroughly and dry.
4. Place the main unit on a stable, flat, and dry surface.
5. Ensure the container is properly seated on the base before adding ingredients.

OPERATING INSTRUCTIONS

The IAGREEA Nut Milk Maker offers 10 versatile functions for various preparations. Always ensure ingredients and water are between the MIN and MAX fill lines indicated inside the container.

General Operation Steps:

1. Add desired ingredients to the container.
2. Add water or milk, ensuring levels are between MIN and MAX marks.
3. Securely close the lid.
4. Plug in the appliance. The display will light up.
5. Press the "Menu/Delay Start" button repeatedly to cycle through the programs until your desired function is selected.
6. Press the "Start/Cancel" button to begin the selected program.
7. The machine will automatically complete the program and beep when finished.

Program Functions and Recommended Usage:

Function	Description	Approx. Time
Nut Milk	For making various nut milks (e.g., almond, cashew).	10 minutes
Oat Milk	For quick and easy oat milk.	2 minutes
Soymilk	For traditional homemade soy milk.	40 minutes
Juice	For fresh fruit and vegetable juices.	3 minutes
Milk Shake	For creamy milkshakes. (Note: Use fresh, not frozen, fruit/ice for best results).	3 minutes
Rice Paste	For smooth rice paste.	28 minutes
Corn Juice	For fresh corn juice.	38 minutes
Yogurt	For homemade yogurt.	8 hours
Boil Water	For boiling water.	15 minutes
Clean	Self-cleaning function.	14 minutes

Delay and Heat Preservation Functions:

- **12-Hour Delay:** Use the "Delay Start" feature to set a delayed start time for your desired program, allowing you to prepare ingredients in advance and have fresh milk ready when you need it (e.g., in the morning).
- **2-Hour Heat Preservation:** After certain hot programs (like soymilk), the machine can keep the contents warm for up to 2 hours.

High Borosilicate Glass Inner Wall

Resistant to high temperature and bursting

MAINTENANCE AND CLEANING

The IAGREEA Nut Milk Maker features a convenient self-cleaning function.

1. After use, rinse the container to remove any large food particles.
2. Add clean water to the container, ensuring it is between the MIN and MAX fill lines.
3. Close the lid securely.
4. Select the "Clean" program on the control panel.

- 5. Press "Start/Cancel" to initiate the self-cleaning cycle.
- 6. Once the cycle is complete, empty the water and rinse the container.
- 7. For stubborn residue, use the provided cleaning brush.
- 8. Wipe the exterior of the main unit with a damp cloth. Do not immerse the main unit in water.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Machine does not turn on.	Not plugged in; power outage; loose connection.	Ensure power cord is securely plugged in. Check power outlet.
Error message (e.g., E1, E2).	Container not properly seated; lid not closed; water level too low/high; motor overheating.	Ensure container and lid are correctly placed. Adjust water level. Unplug and let cool if overheating is suspected. Refer to manual for specific error codes.
Milk/Juice is not smooth.	Insufficient blending time; too many ingredients; hard ingredients (e.g., frozen fruit).	Ensure correct program is selected. Reduce ingredient quantity. Use fresh, non-frozen ingredients for blending.
Excessive noise during operation.	Hard ingredients; unstable surface.	Ensure machine is on a stable surface. Avoid using overly hard or frozen ingredients.
