#### 3.2 Step-by-Step Assembly

Refer to the detailed instruction booklet included with your product for specific step numbers and diagrams. Ensure all bolts are securely tightened but do not overtighten.

1. **Unpacking:** Carefully unpack all components and verify against the parts list in the manual. Separate hardware by type.
2. **Frame Assembly:** Begin by assembling the main metal frame sections as indicated in the manual. Pay attention to the orientation of the legs and support beams.
3. **Desk and Shelving Installation:** Attach the desk surface and corner shelves to the frame. Ensure the charging station cutout is correctly positioned.
4. **Staircase Assembly:** Assemble the staircase structure, including the integrated drawers and wardrobe section.
5. **Bed Base and Guardrails:** Install the bed base slats and secure the full-length guardrails.
6. **Electrical Components:** Install the LED light strips and connect the charging station. Ensure all cables are neatly managed and secured.

## 5. MAINTENANCE

Proper care and maintenance will ensure the longevity and appearance of your loft bed.

- **Cleaning:** Wipe surfaces with a damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Retighten as necessary to maintain stability.
- **LED Lights:** If LED lights malfunction, check connections. For persistent issues, refer to the troubleshooting section or contact customer support.

## 6. TROUBLESHOOTING

If you encounter any issues with your loft bed, refer to the following common solutions:

Problem	Possible Cause	Solution
Bed feels wobbly or unstable	Loose bolts or incorrect assembly.	Ensure all bolts are fully tightened. Review assembly steps, especially for frame connections, to confirm correct orientation of parts.
Parts do not fit together	Incorrect part orientation or mismatched parts.	Carefully re-examine the instruction diagrams for part numbers and orientation. If parts are damaged or missing, contact customer support.
LED lights not working	Loose connection or power issue.	Check that the LED light strip is properly plugged into the power source and that the power source is connected to a working outlet.
Charging station not working	Power cord not connected or outlet issue.	Ensure the charging station's power cord is fully inserted into a functional wall outlet. Test the outlet with another device.
