3. ASSEMBLY INSTRUCTIONS

Assembly of the HAOARA Queen Size Upholstered Platform Bed Frame is designed to be straightforward and can typically be completed by one adult in approximately 30 minutes. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface (like a rug or blanket) to prevent scratches.
2. **Attach Side Rails to Headboard and Footboard:** Connect the side rails to the headboard and footboard using the provided bolts and washers. Ensure all connections are firm but do not fully tighten until all major components are aligned.
3. **Install Center Support Legs:** Attach the 9 center support legs to the designated points on the bed frame structure. These legs provide crucial stability and weight distribution.
4. **Position Wooden Slats:** Lay the wooden slats across the bed frame. The slats feature Velcro connections for easy positioning and to prevent movement and noise. Ensure they are evenly spaced and securely attached to the side rails.

5. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts and screws using the provided Allen wrench. Do not overtighten.
6. **Attach Foot Pads:** Place the foot pads on the bottom of each leg to protect your floor and further prevent squeaking.

4. USAGE INSTRUCTIONS

Mattress Compatibility

This platform bed frame is designed to support your mattress directly, eliminating the need for a box spring. The sturdy wooden slats provide ample support. For optimal comfort and aesthetics, a mattress with a height between 7 and 13 inches is recommended.

Recommendations for Mattresses

Mattress Sliding Prevention

The bed frame features an inset design and a footboard that helps prevent the mattress from sliding, ensuring it stays securely in place during use.

Under-Bed Clearance

The bed frame provides 6.3 inches of under-bed clearance, offering convenient storage space for items such as luggage or shoe boxes. This clearance also allows for easy access for robot vacuums, simplifying bedroom cleaning.

5. MAINTENANCE

To ensure the longevity and appearance of your HAOARA bed frame, follow these maintenance guidelines:

- **Upholstery Care:** The velvet upholstery fabric should be dry cleaned only. Do not machine wash or tumble dry. For minor spills, blot immediately with a clean, dry cloth.
- **Frame Cleaning:** Wipe metal and wood components with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Fastener Check:** Periodically (every 3-6 months) check all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent squeaking.
- **Avoid Excessive Weight:** Do not exceed the maximum weight capacity of 800 pounds.

6. TROUBLESHOOTING

If you encounter any issues with your bed frame, please refer to the following common solutions:

- **Squeaking Noises:** Squeaking often indicates loose fasteners. Re-tighten all bolts and screws on the frame, headboard, and footboard. Ensure the wooden slats are properly seated and the Velcro connections are secure. The included foot pads also help prevent squeaks.
- **Unstable Frame:** Check that all connections are fully tightened. Ensure the center support legs are correctly installed and making firm contact with the floor. Verify that the bed frame is on a level surface.
- **Missing Parts:** If you find any parts missing during assembly, please contact HAOARA customer support immediately for assistance.
