Nexillumi LX20250312-30M

Nexillumi Permanent Outdoor Lights 100ft (Model LX20250312-30M) User Manual

1. INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Nexillumi Permanent Outdoor Lights 100ft. These smart RGB LED lights are designed to enhance your outdoor environment with versatile lighting options.

The lights feature upgraded anti-glare lenses for a smooth, cone-shaped glow on surfaces. They offer a wide range of rich colors, suitable for both holiday decorations and daily ambient lighting. With 16 million DIY color options, 9 preset scenes, and a music-sync mode, you can customize the lighting to match any mood or occasion.

Each LED delivers up to 100 lumens, providing 3X the brightness for vibrant color effects and a warm white tone (2700K–6500K) for everyday use.

3. SETUP AND INSTALLATION

Installation of the Nexillumi Permanent Outdoor Lights is designed to be straightforward. Follow these steps for a secure and effective setup:

1. **Pre-Installation Test:** Before mounting, connect all components and test the lights to ensure they are functioning correctly.
2. **Surface Preparation:** If using the included adhesive backings, thoroughly clean and wipe the installation surface to ensure optimal adhesion.
3. **Mounting Options:** You can mount the lights using either the self-adhesive backing or by firmly securing them with the provided screws. The lights are designed to be installed under eaves, typically 2–4 inches from your wall.
4. **Connection:** Connect the light strips to the control box and power adapter. Ensure all connections are secure and waterproof.
5. **Power Connection:** The total length for the power adapter and extension cable is 8.2 feet. Ensure your power outlet is within this range for a smooth setup.
