## Important Safety Instructions

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

- Read all instructions.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or toaster in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been dropped or damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.

- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Do not use appliance for other than intended use.
- Oversize foods, metal foil packages, or utensils must not be inserted in a toaster as they may create a risk of fire or electric shock.
- A fire may occur if toasters are covered or touching flammable material, including curtains, draperies, walls, and the like, when in operation.
- Do not attempt to dislodge food when toaster is plugged in.
- Always unplug the toaster after use.
- The crumb tray must be in place during operation.
- Do not use abrasive cleaners or scouring pads to clean the toaster.

## Product Components and Features

Familiarize yourself with the parts of your Arendo toaster:

- **Toasting Slots (4 long slots):** Accommodates up to four slices of bread or two long slices.
- **Touch Control Panel:** Intuitive interface for all functions.
- **Digital Display:** Shows remaining toasting time and selected browning level.
- **Bun Warmer Rack:** Integrated rack for warming buns, croissants, or pastries.
- **Crumb Tray:** Removable tray for easy cleaning of crumbs.
- **Cable Wrap:** For neat storage of the power cord.
- **Non-slip Feet:** Ensures stability during operation.
- **Double Shell Casing:** Provides insulation and safety.

## Setup

1. **Unpacking:** Carefully remove the toaster and all packaging materials. Keep packaging for future storage or disposal.
2. **Placement:** Place the toaster on a stable, flat, heat-resistant surface, away from flammable materials like curtains or walls. Ensure adequate ventilation around the appliance.
3. **First Use (Burn-off):** Before toasting food for the first time, operate the toaster without bread for a few cycles at the highest browning setting (level 7). This will burn off any manufacturing residues and eliminate initial odors. Ensure the area is well-ventilated during this process.
4. **Crumb Tray:** Ensure the crumb tray is properly inserted before plugging in the toaster.
5. **Power Connection:** Plug the power cord into a suitable grounded electrical outlet (220V).

## Operating Instructions

The Arendo toaster features a touch control panel for easy operation.

Image: Detailed view of the touch control panel, showing the function buttons and digital display.

## Basic Toasting

1. **Insert Bread:** Place up to four slices of bread into the toasting slots. The automatic centering system will hold the bread in place for even toasting.
2. **Select Browning Level:** Use the **+** and **-** buttons on the touch panel to select your desired browning level from 1 (lightest) to 7 (darkest). The selected level will be shown on the digital display. The toaster remembers the last setting used.
3. **Start Toasting:** The toasting process will begin automatically after selecting the browning level. The display will show a countdown of the remaining toasting time.
4. **Retrieve Toast:** Once toasting is complete, the toast will automatically pop up. Carefully remove the toast.

## Special Functions

- **Defrost Function (* button):**

This function is for toasting frozen bread. Press the defrost button after inserting frozen bread and selecting your browning level. The toaster will automatically adjust the toasting time to first thaw and then toast the bread.

- **Reheat Function (Square with waves button):**

  Use this function to warm up already toasted bread without further browning it. Insert the toast, press the reheat button, and the toaster will gently warm the bread.

- **Cancel Function (Triangle with line button):**

  To stop the toasting process at any time, simply press the cancel button. The toast will immediately pop up.

- **Bun Warmer Rack:**

  For warming buns or croissants, place them on the integrated bun warmer rack. Select a low browning level (e.g., 1-2) or use the reheat function. Do not place bread directly into the slots when using the bun warmer.

## Maintenance and Cleaning

Regular cleaning ensures optimal performance and extends the life of your toaster.

1. **Always Unplug:** Before cleaning, always unplug the toaster from the power outlet and allow it to cool completely.
2. **Crumb Tray:** Pull out the removable crumb tray from the bottom of the toaster. Dispose of crumbs and wipe the tray clean with a damp cloth. Ensure it is completely dry before reinserting.
3. **Exterior:** Wipe the exterior of the toaster with a soft, damp cloth. Do not use abrasive cleaners, scouring pads, or harsh chemicals, as these can damage the surface.
4. **Interior:** Do not attempt to clean the inside of the toaster with any objects. If bread gets stuck, unplug the toaster and carefully remove it once cooled.
5. **Storage:** When not in use, store the toaster in a clean, dry place. You can use the cable wrap feature to keep the cord tidy.

## Troubleshooting

If you encounter issues with your toaster, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|---|---|---|
| Toaster does not turn on. | Not plugged in; power outage; faulty outlet. | Ensure plug is fully inserted. Check household circuit breaker. Try a different outlet. |
| Bread is not toasting evenly. | Uneven bread thickness; crumb buildup. | Ensure bread slices are of uniform thickness. Clean the crumb tray regularly. The automatic centering system should help. |
| Smoke coming from toaster. | Food stuck inside; excessive crumbs; high browning setting. | Immediately unplug. Allow to cool. Remove any stuck food or clean crumb tray. Reduce browning setting. |
| Toast is too light/dark. | Browning level setting is incorrect. | Adjust the browning level using the **+** and **-** buttons. Experiment to find your preferred setting. |
| Toast does not pop up. | Mechanism stuck; power interruption. | Unplug the toaster. Once cooled, gently check if anything is obstructing the mechanism. Do not force. |

## Specifications

| Feature | Detail |
|---|---|
| Brand | Arendo |
| Model | A305867x50 |
| Color | A: Grey |
| Power | 1500 Watts |
| Voltage | 220 Volts |
| Material | Stainless Steel |
| Product Dimensions (L x W x H) | 38.5 x 19.5 x 19 cm (approx. 15.16 x 7.68 x 7.48 inches) |
| Cable Length | 95 cm (approx. 37.4 inches) |
| Item Weight | 2.46 kg (approx. 5.42 lbs) |

| Feature | Detail |
| --- | --- |
| Automatic Shut-off | Yes |
| Toasting Levels | 7 |
| Special Functions | Defrost, Reheat, Cancel, Memory Function |
