AirWire ALT-002

AirWire 10'x14' Hardtop Aluminum Gazebo Instruction Manual

Model: ALT-002

1. Product Overview

The AirWire 10'x14' Hardtop Aluminum Gazebo (Model ALT-002) is designed to provide a durable and functional outdoor living space. It features a heavy-duty aluminum frame, a double-tier galvanized steel roof, and includes detachable curtains and netting for privacy and insect protection. This gazebo is suitable for various outdoor environments, offering shade, ventilation, and stability.

Figure 1: Overall view of the AirWire 10'x14' Hardtop Aluminum Gazebo.

2. Safety Information

Important Safety Precautions:

- Always assemble with at least 2 people.
- Allow 2-4 hours for assembly.
- Secure the gazebo to the ground using the provided stakes to prevent tipping.
- Exercise caution when using electric lights or fans on the roof to avoid fire hazards.
- Ensure all connections are tightened securely after assembly and periodically check for stability.

3. Setup and Assembly

The AirWire gazebo is delivered in 3 separate boxes, which may arrive at different times. It is recommended that 2-4 people participate in the assembly process, which typically takes 2-5 hours. Detailed instructions and an installation video

are provided to assist with setup.

3.1 Unpacking and Part Identification

- Carefully unpack all components from the boxes.
- Verify all parts against the provided parts list in the separate instruction manual. Ensure all pieces are present and undamaged.
- Lay out components in an organized manner to facilitate assembly.

3.2 Frame Assembly

Assemble the heavy-duty aluminum frame according to the step-by-step instructions. Ensure all bolts and fasteners are securely tightened. The legs are designed with pre-drilled holes for ground stakes, which should be used for added stability.

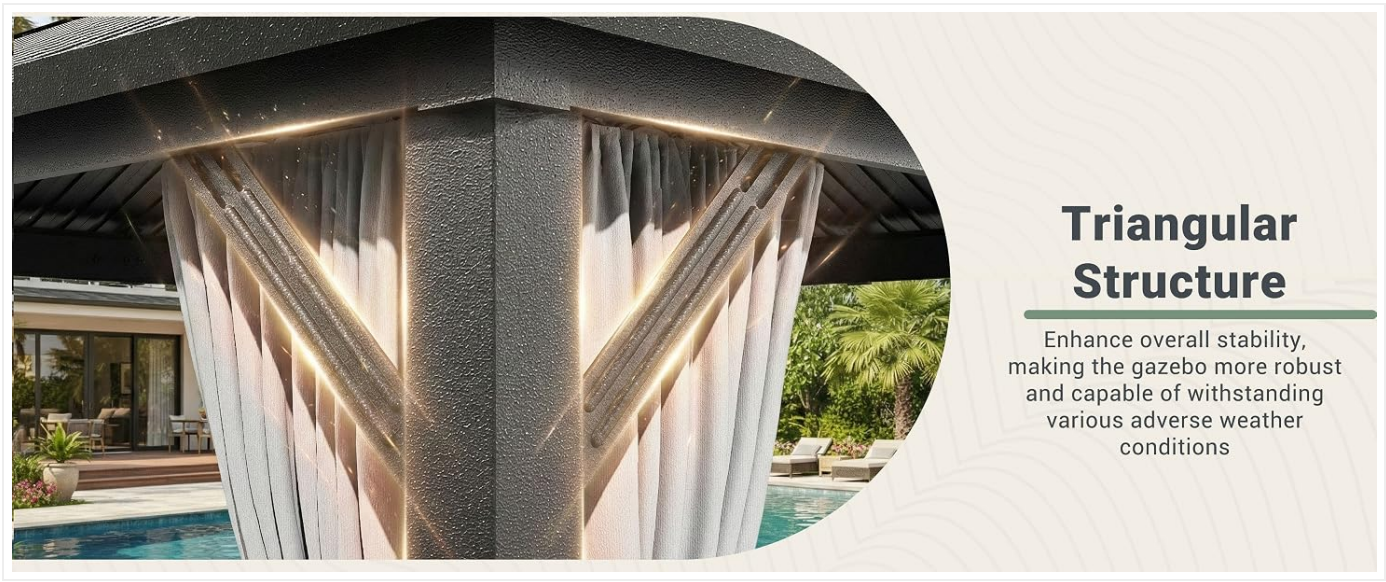

Figure 2: Illustration of the triangular support structure for enhanced stability.

3.3 Roof Installation

Install the double-tier galvanized steel roof panels. The vented design promotes airflow and heat dissipation. Ensure all roof panels are correctly aligned and secured to prevent leaks and ensure structural integrity.

Figure 3: Detail of the double-tier roof with integrated ventilation and hanging hooks.

3.4 Curtains and Netting Attachment

Attach the durable curtains and high-quality zippered mesh sidewalls. These provide privacy, UV protection, and insect deterrence. Ensure they are properly hung and can be easily opened, closed, or tied back as desired.

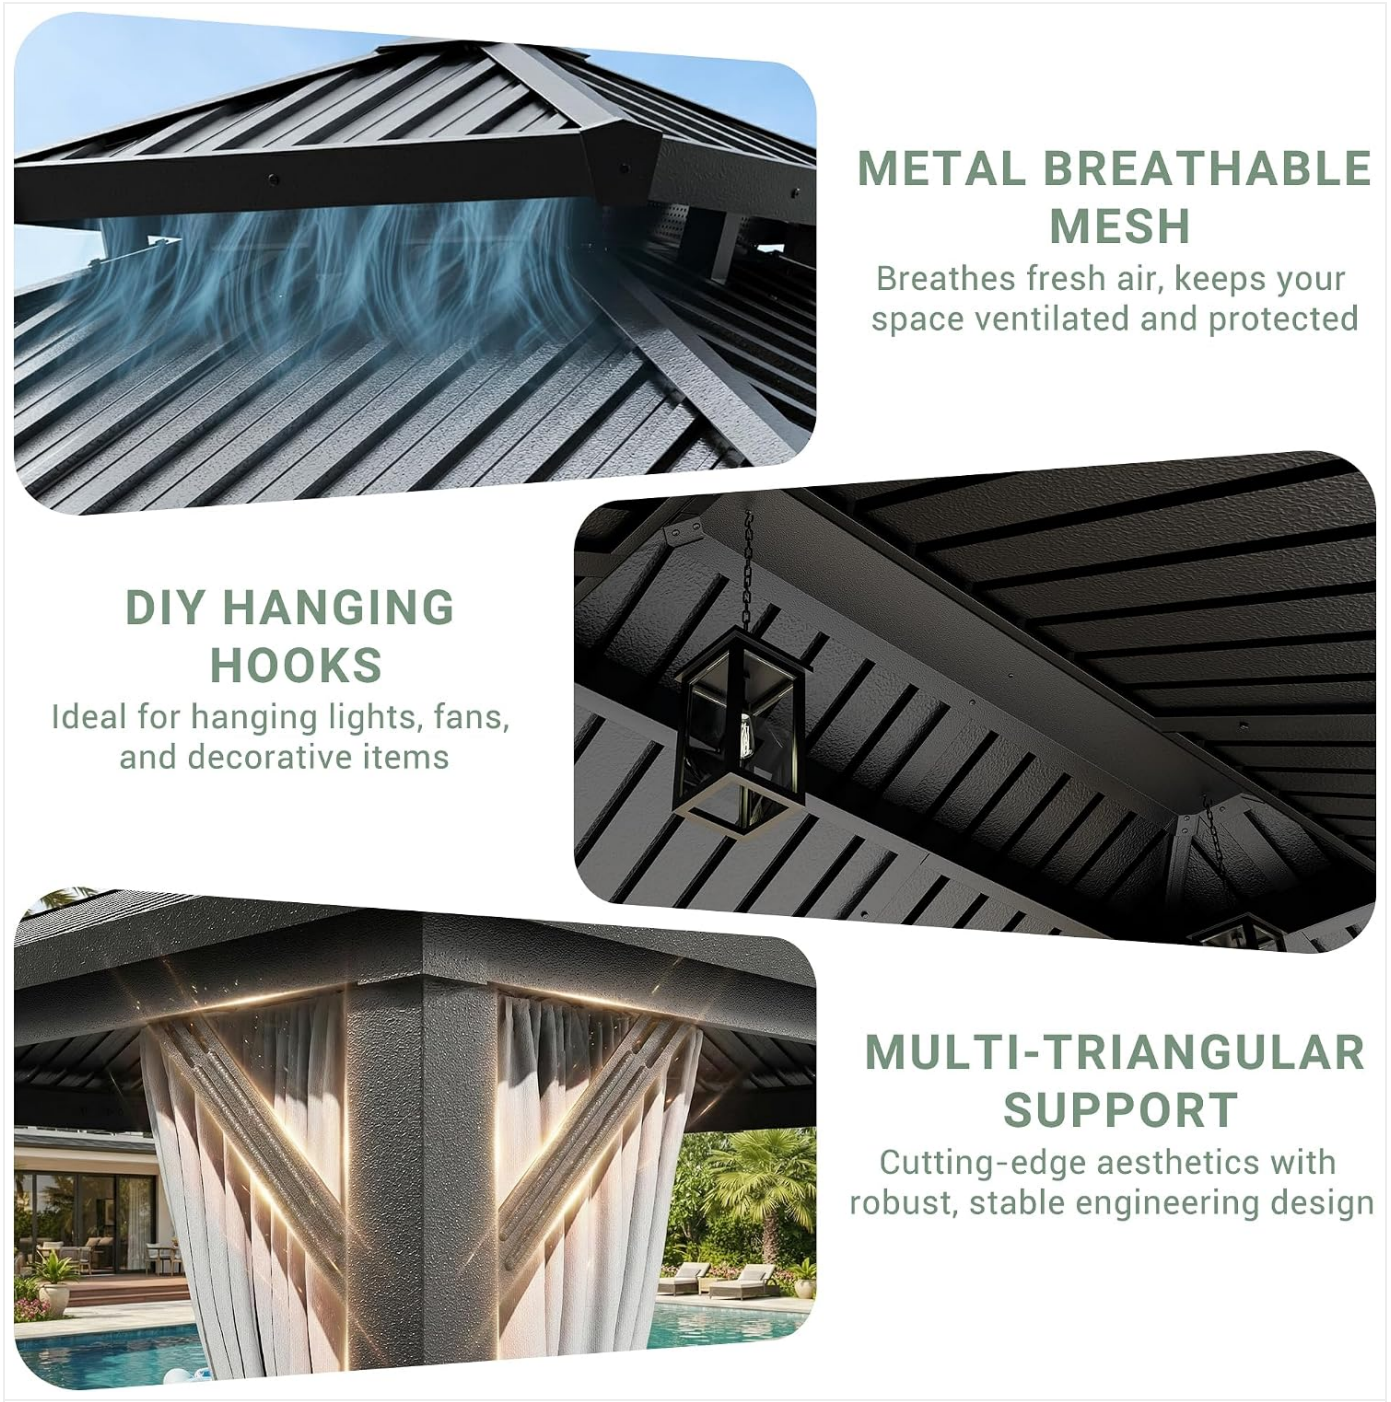

Figure 4: Detachable curtains and netting offering versatile enclosure options.

4. Operating Instructions

4.1 Using Curtains and Netting

- **Privacy Curtains:** The polyester fabric curtains can be drawn closed for privacy or tied back to open the gazebo.
- **Zippered Netting:** The mesh netting can be zipped closed to keep insects out while allowing airflow, or tied back when not needed.

4.2 Roof Features

- **Vented Roof:** The double-tier roof design allows for continuous airflow, reducing heat buildup and increasing stability in windy conditions.
- **Hanging Hooks:** Two sturdy hooks are located at the center of the roof for hanging electric lights or fans. Ensure any electrical devices are suitable for outdoor use and installed safely.

Figure 5: Roof hooks for hanging lights or fans.

5. Maintenance

- **Cleaning:** Clean the aluminum frame with a mild soap and water solution. Rinse thoroughly and dry. The galvanized steel roof can be cleaned with a soft brush and water. Curtains and netting can be spot cleaned or hand washed with mild detergent.
- **Inspection:** Periodically inspect all bolts, screws, and connections to ensure they remain tight. Re-tighten as necessary. Check the condition of the roof panels, curtains, and netting for any signs of wear or damage.
- **Winter Care:** While the gazebo is designed for all-weather use, in areas with heavy snowfall, it is advisable to clear snow from the roof to prevent excessive weight accumulation.
- **Anchoring:** Regularly check the ground stakes or other anchoring methods to ensure the gazebo remains securely fastened, especially after strong winds.

Figure 6: The gazebo is designed for all-weather performance, but regular maintenance is recommended.

6. Troubleshooting

Problem	Possible Cause	Solution
Difficulty during assembly	Parts not aligning, unclear instructions, missing parts.	Refer to the detailed instruction manual and installation video. Ensure all parts are correctly oriented before tightening. Contact customer support for missing or damaged parts.
Gazebo feels unstable or wobbly	Loose connections, insufficient anchoring, uneven ground.	Ensure all bolts and screws are securely tightened. Use all provided ground stakes. Consider additional anchoring methods for very windy areas. Ensure the gazebo is on a level surface.
Roof leaks	Improperly installed roof panels, damaged seals.	Verify that all roof panels are correctly overlapped and sealed according to the assembly instructions. Check for any visible gaps or damage to the roof material.

Problem	Possible Cause	Solution
Curtains/Netting do not hang correctly	Incorrect attachment, tangled fabric.	Review the assembly steps for curtain and netting installation. Ensure all hooks and rings are properly engaged. Untangle and smooth out fabric.

7. Specifications

Feature	Detail
Brand	AirWire
Model Number	ALT-002
Product Dimensions (L x W x H)	167.2" x 120.2" x 110" (10'x14' nominal)
Floor Area	140 square feet
Item Weight	251 pounds
Frame Material	Aluminum (Powder-coated, rust-resistant)
Roof Material	Double-tier Galvanized Steel
Sidewall Material	Polyester fabric curtains, zippered mesh netting
Water Resistance Level	Water Resistant
Ultraviolet Light Protection	Yes
Occupancy	8-12 People
Color	Gray (for this specific model)

8. Warranty and Support

8.1 Warranty Information

Specific warranty details for the AirWire 10'x14' Hardtop Aluminum Gazebo are typically provided with your purchase documentation. Please refer to the warranty card or contact the retailer for information regarding coverage and terms.

8.2 Customer Support

For assistance with assembly, missing parts, or any other product-related inquiries, please contact AirWire customer support. Contact information can usually be found on the product packaging, the separate instruction manual, or the retailer's website.

Note: The product comes in 3 separate boxes. If you are missing parts, please ensure all boxes have arrived before contacting support.
