WHAT'S IN THE BOX

All components included with your JMGO PicoPlay+ projector.

- PicoPlay+ Projector
- Remote Control
- Portable Bag
- Light-Shadow Filter
- Power Adapter
- Lanyard

SETUP

Initial Power On and Placement

Connect the PicoPlay+ to the power adapter. The projector is designed for flexible placement, allowing projection onto walls, ceilings, or screens. Its compact size and lightweight design (2.2 pounds / 0.73kg) make it highly portable.

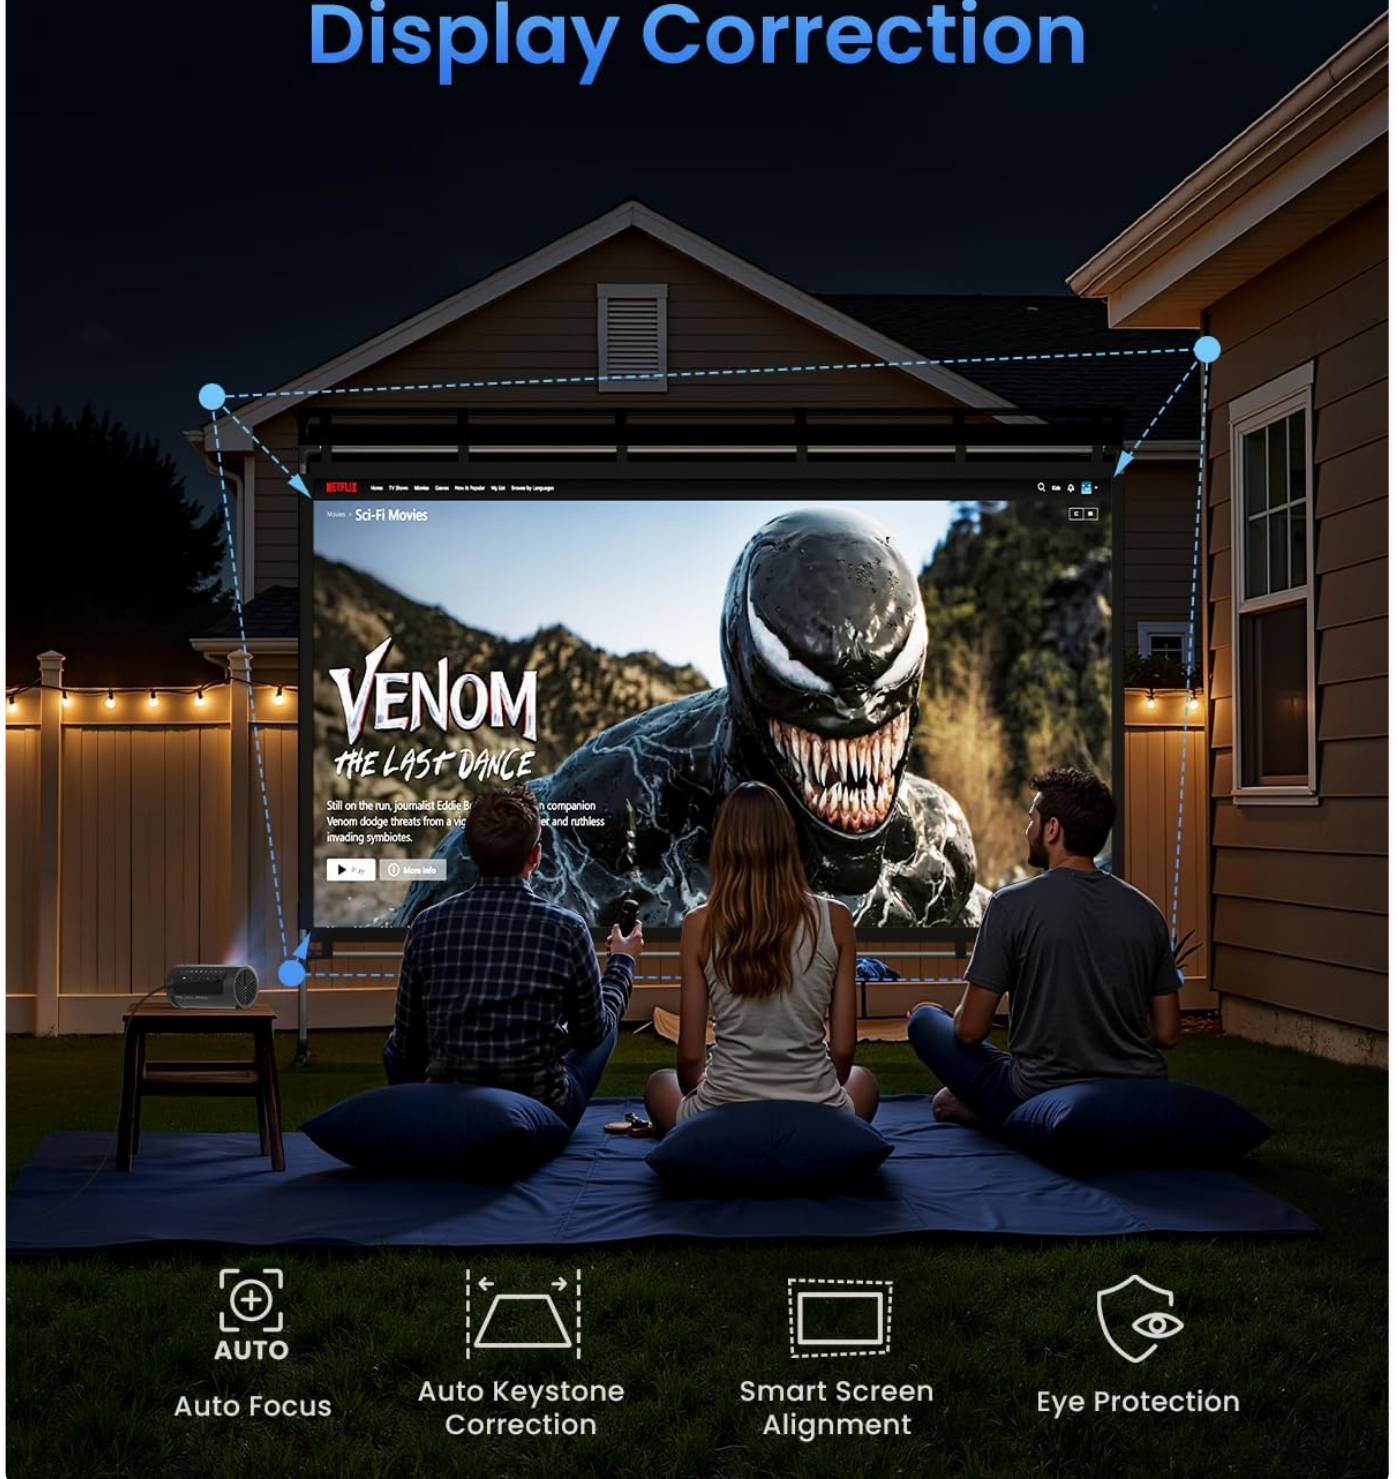

The compact design of the PicoPlay+ allows for easy placement in any environment.

Automatic Optimization

The PicoPlay+ features an 88° Rotating Gimbal and Flexismart System for automatic image optimization. This includes auto-focus, auto keystone correction, and smart screen alignment, ensuring a clear and perfectly shaped image regardless of the projection angle.

Instant Gimbal-like Display Correction

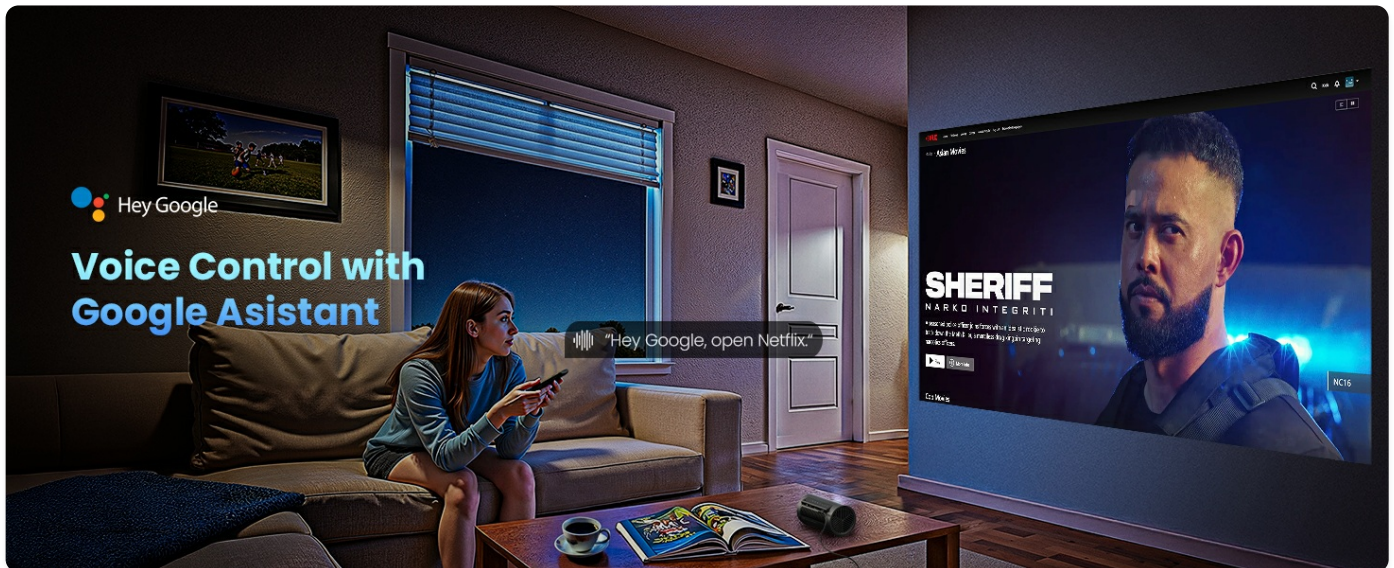

Automatic image correction ensures a perfect display from various angles.

Connectivity

The projector offers multiple connectivity options:

- **HDMI (ARC):** Connect external devices like gaming consoles or Blu-ray players.
- **USB-A:** For media playback from USB drives.
- **USB-C:** For power input (PD3.0 + 65W) and data transfer.

- **Wi-Fi & Bluetooth:** For wireless streaming and connecting to external speakers.

OPERATING INSTRUCTIONS

Google TV Interface

The PicoPlay+ comes with built-in Google TV, providing access to over 10,000 apps and 800+ free live channels. Navigate the interface using the included remote control or the touch buttons on the device.

Access a wide range of entertainment with the integrated Google TV platform.

Voice Control with Google Assistant

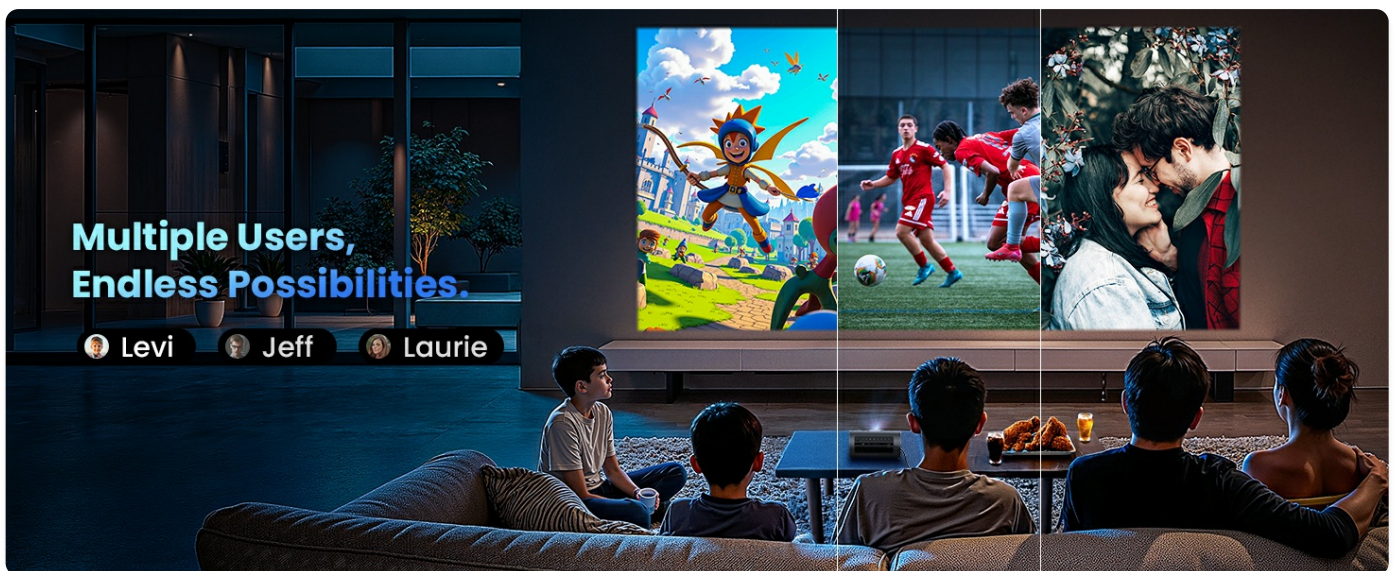

Utilize Google Assistant for hands-free control. Simply say "Hey Google" followed by your command, such as "open Netflix," to quickly access content.

Control your projector and content using simple voice commands.

Casting and Screen Mirroring

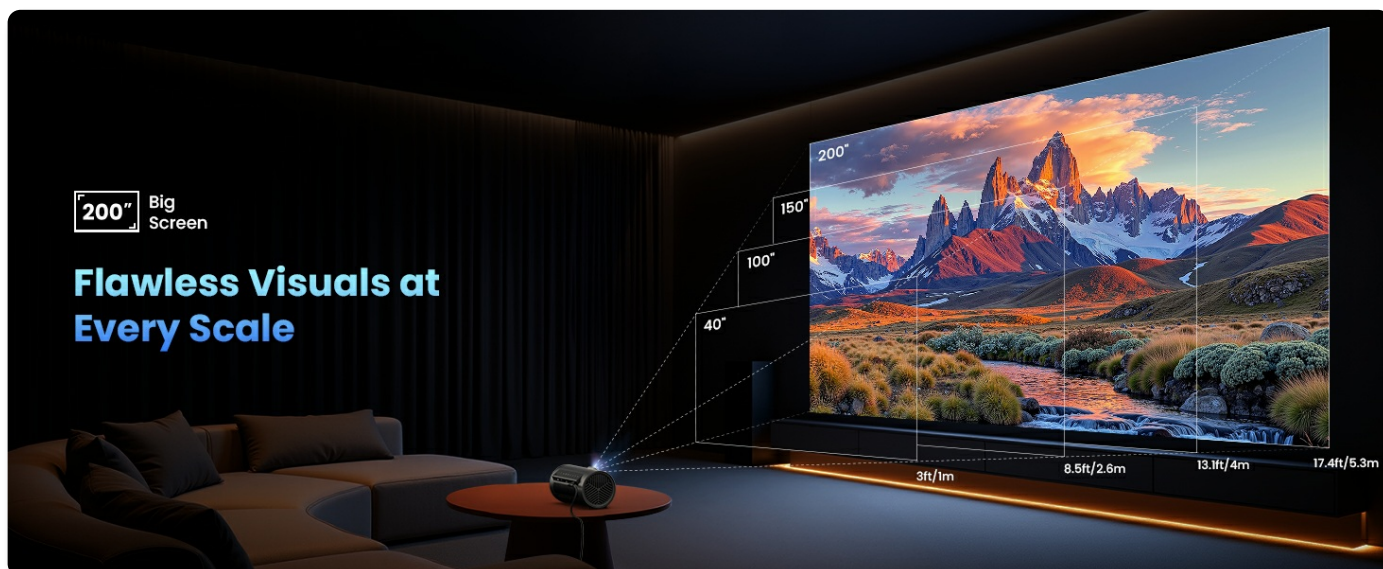

Effortlessly cast content from your compatible devices using Google Cast. The projector supports Wi-Fi 5.0 and Bluetooth 5.1 for stable wireless connections.

Seamlessly cast your favorite content from your devices.

Bluetooth Speaker Mode

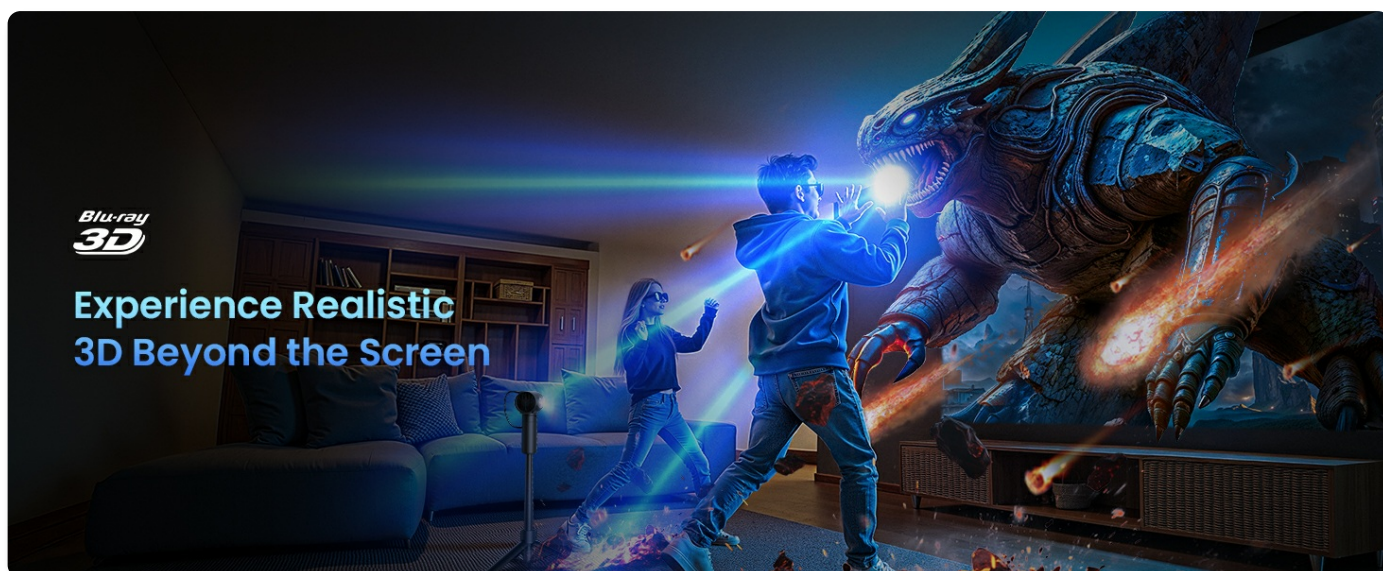

Transform your PicoPlay+ into an immersive Bluetooth speaker. Simply place the projector on its side, and it will automatically switch to Bluetooth speaker mode, providing clear and powerful 8W Dolby Audio.

Enjoy high-quality audio as a standalone Bluetooth speaker.

Ambient Light Mode

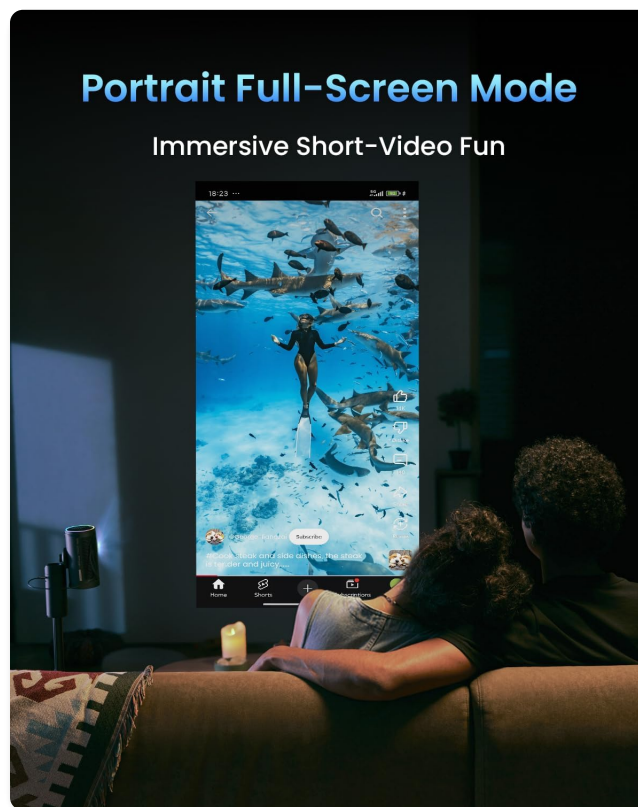

The PicoPlay+ features a customizable ambient light with various colors and dynamic lighting effects. Use the Light-Shadow Filter (included) to create unique visual patterns and enhance the atmosphere.

Customize your ambiance with various light colors and effects.

Vertical Projection for Short Videos

Optimize your viewing experience for short-form video content by utilizing the portrait full-screen mode. This is ideal for platforms like YouTube Shorts or TikTok.

Enjoy immersive short-video content in portrait full-screen mode.

MAINTENANCE

To ensure the longevity and optimal performance of your JMGO PicoPlay+, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the projector. For the lens, use a specialized lens cleaning cloth and solution. Avoid abrasive cleaners or solvents.
- **Ventilation:** Ensure the ventilation grilles are clear of dust and obstructions to prevent overheating. Do not block the air vents during operation.
- **Storage:** When not in use, store the projector in its portable bag in a cool, dry place away from direct sunlight and extreme temperatures.
- **Eye Protection:** The projector includes eye protection features. Avoid looking directly into the lens when the projector is active.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No image projected	Power issue; incorrect input source; lens cap on.	Check power connection. Ensure correct HDMI/USB input is selected. Remove lens cap.
Image is blurry	Out of focus; projection surface too far/close.	Allow auto-focus to adjust. Adjust projector distance from the surface.
Image is distorted (trapezoid shape)	Incorrect keystone correction.	Allow auto keystone correction to adjust, or manually adjust in settings.
No sound	Volume too low; external speaker not connected; audio format not supported.	Increase volume. Check Bluetooth connection for external speakers. Ensure audio format is compatible.

Problem	Possible Cause	Solution
Remote not responding	Low battery; obstruction; not paired.	Replace batteries. Ensure clear line of sight. Re-pair remote if necessary.
