MAINTENANCE

Battery Replacement

When battery levels are low, replace all 8 AA batteries simultaneously to ensure optimal performance. Consider using an external 12V DC power pack via the auxiliary jack for extended operation.

SD Card Management

Regularly check the SD card capacity. Format the SD card periodically to maintain performance and prevent data corruption. Always power off the camera before inserting or removing the SD card.

Cleaning

Wipe the camera lens and housing with a soft, dry cloth to remove dirt, dust, or moisture. Avoid using abrasive cleaners or solvents.

TROUBLESHOOTING

- **Camera not powering on:** Check battery installation and ensure batteries are fresh.
- **No photos/videos captured:** Verify SD card is inserted correctly and has sufficient space. Check trigger settings and detection range.
- **Poor image quality:** Ensure the lens is clean and free from obstructions.
- **Cellular connectivity issues:** Check signal strength in the camera's location. Ensure your HuntSmart App subscription is active.
