Serta 12" Queen with Insta 3 Pump

Serta 12" Queen Air Mattress with Insta 3 Pump

User Instruction Manual

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using this product. Failure to follow these instructions may result in injury or damage to the product.

- Do not overinflate the mattress.
- Keep sharp objects away from the mattress surface.
- Ensure the area around the mattress is clear of obstructions.
- This product is not a toy. Keep out of reach of children when not in use.
- Do not use in or near water.
- Do not use for medical purposes.

PACKAGE CONTENTS

Verify that all components are present before proceeding with setup.

- Serta 12" Queen Air Mattress with Integrated Insta 3 Pump
- Full-size Carry and Storage Bag

UNMATCHED CONVENIENCE

Integrated cord storage keeps excess length organized and out of the way.

Full size carry and storage bag included for easy transportation.

SETUP INSTRUCTIONS

1. **Unpack the Mattress:** Remove the air mattress and carry bag from its packaging.
2. **Choose a Location:** Select a flat, clean, and smooth surface for the mattress. Ensure there are no sharp objects or debris that could puncture the mattress.
3. **Unroll the Mattress:** Lay the mattress flat on the chosen surface, ensuring the integrated pump is accessible.
4. **Connect to Power:** Locate the integrated cord storage compartment on the pump. Unwind the power cord and plug it into a standard electrical outlet.

SLEEP-TIL-NOON COMFORT

INSTA-3 PUMP

Set-up and pack-up in minutes with the internal pump's easy auto-inflate and deflate.

PREMIUM PLUSH TOP

Breathable brushed top creates a soft, cozy and inviting surface.

OPERATING INSTRUCTIONS

Inflating the Mattress

The Serta 12" Queen Air Mattress features a high-capacity Insta 3 Pump for quick and easy inflation.

1. **Turn On the Pump:** Locate the inflation switch or dial on the integrated pump. Turn it to the "Inflate" position.
2. **Automatic Inflation:** The pump will begin to inflate the mattress. The Insta 3 Pump is designed to inflate the mattress in less than 3 minutes and features an auto-off function that senses optimal pressure.
3. **Monitor Firmness:** While the pump has an auto-off feature, you can stop inflation at any time by turning the switch to the "Off" position once your desired firmness is reached.
4. **Seal the Valve:** Once inflated, ensure the pump is off and the valve is securely closed to prevent air leakage.

Deflating the Mattress

To deflate the mattress for storage or transport:

1. **Connect to Power:** Ensure the mattress is plugged into a standard electrical outlet.
2. **Turn On the Pump:** Locate the deflation switch or dial on the integrated pump. Turn it to the "Deflate" position.
3. **Automatic Deflation:** The pump will begin to draw air out of the mattress. This process also takes less than 3 minutes.
4. **Complete Deflation:** Allow the pump to run until all air is expelled and the mattress is completely flat.
5. **Turn Off and Unplug:** Once deflated, turn the pump off and unplug the power cord. Store the cord in its integrated compartment.

CARE AND MAINTENANCE

- **Cleaning:** Clean the mattress surface with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners. Ensure the mattress is completely dry before storing.
- **Puncture Repair:** In case of a small puncture, use a standard vinyl repair kit (not included). Follow the repair kit instructions carefully.
- **Avoid Extreme Temperatures:** Do not expose the mattress to extreme heat or cold, as this can damage the material.

STORAGE

Proper storage helps prolong the life of your air mattress.

1. **Ensure Dryness:** Make sure the mattress is completely dry before folding.
2. **Fold Neatly:** Fold the mattress neatly to fit into the included carry and storage bag.
3. **Store in Bag:** Place the folded mattress into the full-size carry and storage bag.
4. **Cool, Dry Place:** Store the mattress in a cool, dry place, away from direct sunlight and extreme temperatures.

UNMATCHED CONVENIENCE

Integrated cord storage keeps excess length organized and out of the way.

Full size carry and storage bag included for easy transportation.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mattress does not inflate.	Not plugged in. Power outlet not working. Pump switch in wrong position.	Ensure power cord is securely plugged into a working outlet. Test the outlet with another appliance. Set pump switch to "Inflate".
Mattress loses air.	Valve not fully sealed. Small puncture or leak. Temperature changes.	Ensure the valve is completely closed after inflation. Inspect mattress for punctures. Use a vinyl repair kit if necessary. Air pressure can decrease in cooler temperatures. Re-inflate slightly if needed.

Problem	Possible Cause	Solution
Pump is running but no air is moving.	Air intake/output blocked.	Check for any obstructions around the pump's air intake or output vents.
