## 3. PRODUCT OVERVIEW

The WARSUN SQ10 is a compact, rechargeable flashlight designed for convenience and versatility. It features a durable ABS material construction and offers multiple lighting options for various tasks.

### Key Features:

- **Mini EDC Design:** Small and lightweight for everyday carry.
- **300 Lumens Brightness:** Provides ample illumination for daily tasks.
- **Rechargeable:** Equipped with a Lithium Ion battery and USB-C charging.
- **Magnetic Base:** Allows for hands-free attachment to metal surfaces.
- **Clip-On Functionality:** Easily attaches to hat brims, pockets, or belts.
- **Multiple Light Modes:** Separate controls for main and side lights, offering various brightness and color options including red and red-blue flashing.
- **Digital Power Display:** Shows current battery level.

## 4. SETUP

### Initial Charging:

1. Before first use, fully charge the flashlight.
2. Locate the USB-C charging port on the device.
3. Connect the provided USB-C cable to the flashlight and a compatible USB power source (e.g., wall adapter, computer, power bank).
4. The digital display will show the charging progress. A full charge typically takes approximately 2 hours.

# USB-C RECHARGEABLE

2H charging time.

## 5. OPERATING INSTRUCTIONS

---

The WARSUN SQ10 features two separate buttons for controlling the main light and the side light, offering a variety of modes.

# NO ACCIDENTAL ACTIVATION

Hold to turn on/off - safe to carry in your pocket

Image: A detailed view of the flashlight's control buttons for the main and side lights.

## Main Light Operation:

- **Turn On/Off:** Press and hold the Main Light Button for approximately 2 seconds to turn the main light on or off. This prevents accidental activation.
- **Cycle Modes:** Once the main light is on, short press the Main Light Button to cycle through modes: Dual Strong Light > Dual Low Light > Single Strong Light > Single Low Light.

## Side Light Operation:

- **Turn On/Off:** Press and hold the Side Light Button for approximately 2 seconds to turn the side light on or off.
- **Cycle Modes:** Once the side light is on, short press the Side Light Button to cycle through modes: White Strong Light > White Low Light > Red Warning Light > Red-Blue Flashing.

## 6. CHARGING

The WARSUN SQ10 is equipped with a rechargeable Lithium Ion battery. The digital display indicates the current battery percentage.

- Connect the provided USB-C cable to the flashlight's charging port and a 5V USB power source.
- The digital display will show the battery percentage increasing during charging.
- Once the display shows 100%, the flashlight is fully charged.
- Charging time is approximately 2 hours.

## 7. MAINTENANCE

- **Cleaning:** Wipe the flashlight with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Recharge the flashlight regularly, even if not in use, to maintain battery health.

## 8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	Low battery or accidental activation prevention.	Charge the flashlight. Press and hold the power button for 2 seconds to activate.
Light is dim.	Low battery.	Recharge the flashlight.
Flashlight does not charge.	Faulty cable or power source.	Try a different USB-C cable or power adapter. Ensure connections are secure.
