## 2. SAFETY INFORMATION

- Always follow assembly instructions carefully. Incorrect assembly can lead to instability and injury.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not exceed the maximum weight limit of 1000 pounds.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- Avoid placing liquids directly on the headboard's charging station to prevent electrical damage or shock.
- Use only the provided power adapter for the LED lights and charging station.

### 3. PACKAGE CONTENTS

---

Verify that all components listed below are present before starting assembly. If any parts are missing or damaged, please contact customer support.

- Floating Queen Bed Frame x 1
- Storage Headboard x 1
- LED Light Strips
- Remote Control x 1
- Power Strip (integrated into headboard)
- Wooden Slats x 12
- Assembly Kit x 1 (includes tools and fasteners)
- Installation Manual x 1 (this document)

### 4. ASSEMBLY INSTRUCTIONS

---

Assembly typically requires two people and can take several hours. All parts are numbered, and a step-by-step assembly video may be available online. Refer to the included detailed assembly guide for specific instructions.

#### 4.1. Preparation

- Clear a spacious area for assembly.
- Unpack all components and lay them out, matching them with the parts list.
- Ensure you have the necessary tools from the assembly kit.

#### 4.2. Frame Assembly

Follow the numbered steps in the separate assembly guide to construct the metal frame. The frame features closely spaced steel slats and independent metal support legs for robust mattress support. No box spring is required.

### 4.3. Headboard Attachment

Attach the upholstered headboard to the assembled frame. Ensure all connections are secure. The

headboard is designed to be stable and provide lumbar support.

#### 4.4. LED Light Installation

The LED light strips are designed for easy installation. Securely fasten the three-sided under-bed light strips using the heavy-duty Velcro provided. Connect the LED strips to the designated power port.

## 5.2. Charging Station

The headboard includes a built-in power strip for convenient device charging. It features:

- 2 AC outlets (125V/12A)
- 1 USB port (5V/2.1A)
- 1 Type-C port (5V/2.1A)

Connect your devices directly to the ports for charging. Ensure the bed frame is connected to a power source for the charging station to function.

## 7. TROUBLESHOOTING

- **Missing or Damaged Parts:** If you receive the product with missing or damaged components, contact Dnxao customer service immediately for assistance.
- **Bed Frame is Noisy/Squeaks:** Ensure all assembly screws and bolts are fully tightened. The frame is designed with noise-free features, including anti-noise sponge strips.
- **LED Lights Not Working:** Check that the power adapter is securely plugged into both the wall outlet and the bed frame. Verify that the LED strips are properly connected. Try using the remote control and the app to rule out control issues.
- **Charging Station Not Functioning:** Confirm the bed frame is plugged into a live power outlet. Test with different devices and cables to isolate the issue.
- **Mattress Sliding:** The bed frame features an embedded design to minimize mattress sliding. Ensure the mattress is properly seated within the frame.
