Setup

Physical Installation

Before proceeding, ensure you have a clean, flat surface to work on. It is recommended to have two people for safe installation.

1. **Attach the Stand:**
    - Carefully place the TV face-down on a soft cloth or cushion to prevent screen damage.
    - Align the stand pieces with the corresponding slots on the bottom of the TV.
    - Secure the stands using the provided screws. Ensure they are tightened firmly.
2. **Wall Mounting (Optional):**
    - If wall-mounting, refer to the wall mount kit's instructions. Ensure the VESA mounting holes on the TV are compatible with your wall mount.
    - Remove any stand components if they interfere with wall mounting.
3. **Placement:**
    - Place the TV in a location with good ventilation, away from direct sunlight and heat sources.
    - Ensure the TV is stable and cannot be easily tipped over.

Maintenance

Cleaning Your TV

Regular cleaning helps maintain the TV's appearance and performance.

- **Screen:** Gently wipe the screen with a soft, lint-free cloth. For stubborn marks, slightly dampen the cloth with water or a specialized screen cleaner (do not spray directly on the screen).
- **Cabinet:** Use a soft, dry cloth to wipe the TV cabinet. Avoid using abrasive cleaners or solvents.
- **Dust:** Use a soft brush or vacuum cleaner with a brush attachment to remove dust from ventilation openings.
- Always unplug the TV from the power outlet before cleaning.

Software Updates

Keep your TV's software updated to ensure optimal performance and access to the latest features.

- Your TV can automatically check for and install updates when connected to the internet.
- You can also manually check for updates through the TV's settings menu (typically under System > About > System update).

Troubleshooting

If you encounter issues with your TV, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
No power	Power cable disconnected; power outlet issue	Ensure power cable is securely plugged in. Test the outlet with another device.
No picture, but sound is present	Incorrect input source; loose HDMI cable	Press the 'Input' button on the remote to select the correct source. Check HDMI cable connections.
No sound, but picture is present	Volume muted or too low; external audio device issue	Unmute volume or increase level. Check connections to external audio systems.
Remote control not working	Dead batteries; obstruction; remote not paired	Replace batteries. Remove obstructions. Re-pair remote if necessary (refer to TV settings).
Cannot connect to Wi-Fi	Incorrect password; router issue; TV too far from router	Verify Wi-Fi password. Restart router. Move TV closer or use a Wi-Fi extender.

If the problem persists after trying these solutions, please contact TCL customer support.
