Tayogo T6+W25 white

Tayogo Swimming Headphones & T6 Transmitter User Manual

Model: T6+W25 white

PRODUCT OVERVIEW

The Tayogo Swimming Headphones and T6 Transmitter combo offers a unique solution for enjoying music and receiving coaching instructions while swimming. This system allows you to stream audio directly from your smartphone to your waterproof bone conduction headphones, eliminating the need for MP3 downloads. The T6 transmitter ensures clear audio transmission even in water, making your swimming sessions more engaging and effective.

SETUP GUIDE

1. Install the Antenna

Carefully screw the provided antenna into the designated port on the top of the Tayogo T6 Transmitter. Ensure it is securely fastened for optimal signal transmission.

Image: A graphic illustrating how to install the antenna onto the Tayogo T6 transmitter.

2. Connect T6 to Your Phone via Bluetooth

Turn on the Tayogo T6 Transmitter. On your smartphone, navigate to the Bluetooth settings. Locate and select "Tayogo T6" from the list of available devices to pair. Once connected, your phone's audio will be transmitted to the T6.

Image: A graphic showing the Tayogo T6 transmitter and a smartphone with its Bluetooth settings open, indicating a successful connection.

3. Prepare for Swimming

Place the T6 Transmitter and your connected smartphone on the shore, away from the water. Ensure the transmitter's antenna is fully extended for the best signal. Put on your Tayogo W25 headphones and swimming cap/goggles.

STREAM YOUR SWIMMING WITH YOUR PLAYLIST

NO MP3 FORMAT CHANGE & DOWNLOAD HASSEL

OPERATING INSTRUCTIONS

1. Adjust T6 Channel

To unlock the channel screen on the T6 transmitter, press and hold the power button for 2 seconds. Use the navigation buttons to adjust the channel (CH:01 - CH:16). This allows you to select a private channel for clear audio transmission.

step 4

Adjust Receiver Channel

Note:

1. Default Channel is Channel 1.
2. Please Pull out the Antenna for better Signal.

Press & Hold to Adjust

Image: A graphic detailing how to adjust the channel on the Tayogo T6 transmitter using its touch buttons and LCD display.

2. Adjust Receiver Channel

Ensure your W25 headphones are on the same channel as the T6 transmitter. Press and hold the channel adjustment button on the headphones to cycle through available channels until it matches the transmitter. There are 16 channels available.

What You will Get

- **Tayogo T6**

- 1 x transmitter
- 1 x antenna
- 1 x type-c cable
- 1 x instruction manual

- **Tayogo W25 Receiver**

- 1 x waterproof W25 receiver
- 1 x magnetic charging cable
- 1 x sets ear buds
- 1 x instruction manual

Plus: 1 x carrying case to hold all the above.

3. Music Streaming and Coaching

Once both devices are on the same channel, you can stream music from your smartphone's apps (Spotify, Amazon Music, YouTube, etc.) directly to your W25 headphones. The T6 transmitter can transmit up to 150 meters, covering most pool areas. For swim coaching, the T6 features a PTT (Push-To-Talk) function, allowing coaches to send real-time instructions to swimmers without shouting.

MAINTENANCE

Cleaning

After each use, especially in chlorinated or saltwater, rinse both the T6 Transmitter and W25 Headphones with fresh water. Gently wipe them dry with a soft cloth. Do not use harsh chemicals or abrasive materials for cleaning.

Charging

Charge the T6 Transmitter using the provided Type-C cable. The W25 Headphones use a magnetic charging cable. Ensure charging ports are dry before connecting. A full charge takes approximately 2 hours for the headphones and provides up to 15 hours of Bluetooth playback or 8 hours in receiving mode. The transmitter plays up to 8 hours.

Storage

Store the devices in the provided carrying case in a cool, dry place when not in use. Avoid extreme temperatures and direct sunlight.

TROUBLESHOOTING

No Sound or Static Noise

- **Ensure Same Channel:** Verify that both the T6 Transmitter and W25 Headphones are set to the same channel.
- **Extend Antenna:** Always pull the T6 Transmitter's antenna fully up to ensure stronger and more stable signal transmission.
- **Increase Phone Volume:** Set your phone's playback volume to the maximum for a cleaner signal output.
- **Lower Headphone Volume:** After maximizing your phone's volume, reduce the headphones' volume to a comfortable level. This helps minimize amplified static or background noise.
- **Check Distance:** Ensure the transmitter and headphones are within the effective range (up to 150m).
- **Obstructions:** Minimize physical obstructions between the transmitter and the swimmer.

Tips: Tips to Reduce Static Noise on Your Swim Combo Headphones

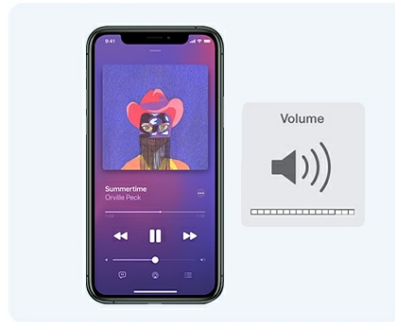

① Extend the Transmitter's Antenna

Always pull the antenna up fully to ensure stronger and more stable signal transmission.

② Increase Your Phone's Volume

Set your phone's playback volume to the maximum for a cleaner signal output.

③ Lower the Headphones' Volume

After maximizing your phone's volume, reduce the headphones' volume to a comfortable level. This helps minimize amplified static or background noise.

Image: A graphic providing tips to reduce static noise on the Tayogo Swim Combo Headphones, including extending the transmitter's antenna, increasing phone volume, and lowering headphone volume.

Device Not Powering On

- **Charge Battery:** Ensure both the transmitter and headphones are fully charged.
- **Check Cables:** Verify that charging cables are properly connected and not damaged.

Bluetooth Pairing Issues

- **Restart Devices:** Turn off and on both your smartphone and the T6 transmitter.
- **Forget Device:** On your phone, forget "Tayogo T6" from your Bluetooth device list and attempt to pair again.
- **Proximity:** Ensure your phone and T6 are close to each other during pairing.
