2. SETUP INSTRUCTIONS

2.1. Powering On the Smart Tag

1. Locate the power button on the Smart Tag.
2. Press and hold the power button for 3 seconds until you hear a ring-ring chime, indicating the device is powered on.

2.2. Connecting to Google Find My Device App

1. Ensure your Android device is running Android 9.0 or later.
2. Download and install the "Google Find My Device" app from the Google Play Store.
3. Open the Google Find My Device app and sign in with your Google account.
4. Ensure Bluetooth and location services are enabled on your Android device.
5. Bring the activated Smart Tag close to your phone. A pop-up notification should appear on your phone screen.
6. Tap "Connect" on the pop-up and follow the on-screen prompts to complete the pairing process.
7. If the pop-up does not appear, manually search for the device within the app's settings.

Your browser does not support the video tag.

3. OPERATING INSTRUCTIONS

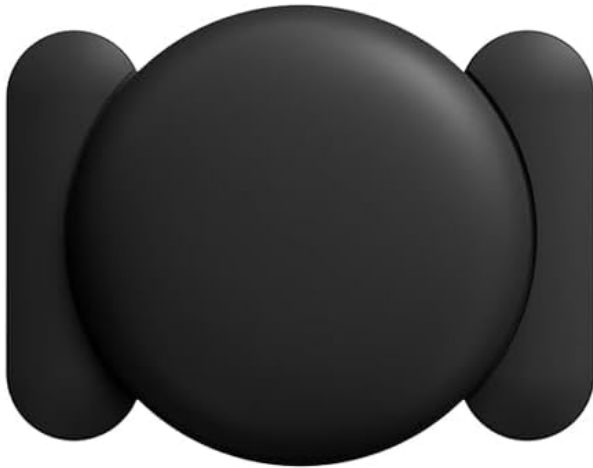

3.1. Locating Your Items

- **Map Tracking:** Open the Google Find My Device app. The app will display the last known location of your Smart Tag on a map.
- **Play Sound:** If your item is nearby but out of sight, select the "Play Sound" option in the app. The Smart Tag will emit a loud alarm to help you pinpoint its exact location.
- **Find Nearby:** For closer proximity, the app may offer a "Find Nearby" feature, providing visual cues or hints as you approach the device.

3.2. Attaching the Smart Tag

The Smart Tag can be attached to various items using the included accessories:

- Use the anti-lost rope to attach it to keys, bags, or pet collars.
- Place the tag inside the magnetic suction case for discreet attachment to vehicles or other metal surfaces.
- Utilize the protective case for added security and attachment options.

4. MAINTENANCE

4.1. Battery Replacement

The Smart Tag is powered by a replaceable CR2032 button battery, designed to last up to 1 year. To replace the battery:

1. Use the included battery replacement tool to gently pry open the Smart Tag casing.
2. Remove the old CR2032 battery.
3. Insert a new CR2032 battery with the positive (+) side facing up.
4. Carefully close the casing until it clicks securely into place.

5. TROUBLESHOOTING

- **Device not connecting:** Ensure the Smart Tag is powered on, Bluetooth is enabled on your Android device, and the Google Find My Device app is installed and updated. Try restarting both the Smart Tag and your phone.
- **Inaccurate location:** Location accuracy relies on the Google Find My Device network. Ensure your phone has a stable internet connection and that other Android devices are within range of your tag.
- **No sound when playing alarm:** Check the Smart Tag's battery level in the app. Replace the battery if it is low. Ensure your phone's volume is up.
- **Device not appearing in app:** Verify that you are logged into the correct Google account in the Find My Device app. The tag can only be connected to one Google account at a time.
