2.1. Before You Begin

3. Operating Instructions

3.1. Drop Leaf Countertop

The kitchen island features a retractable drop leaf countertop. To extend, release the locking mechanism (if present) and lift the leaf until it locks into place. This expands the working surface by approximately 40%, suitable for dining or additional prep space. To retract, release the lock and gently lower the leaf. Ensure the weight on the drop leaf does not exceed 50 pounds.
