## 1. INTRODUCTION

The Aaoyun Portable Charger Power Bank (Model B2) is a compact and efficient external battery pack designed to provide reliable power for your mobile devices. Featuring a 10000mAh capacity and 22.5W PD fast charging, it ensures your devices are charged quickly and safely. Its durable aerospace metal casing and built-in USB-C cable offer convenience and longevity.

## 2. SETUP

### 2.1 Initial Charging of the Power Bank

Before first use, fully charge your Aaoyun Power Bank. Use a compatible USB-C wall adapter (not included) and the built-in USB-C cable or a separate USB-C cable to connect the power bank to a power source. The LED indicators will show

the charging status.

- Connect the built-in USB-C cable to a USB-C power adapter.
- Plug the power adapter into a wall outlet.
- The indicator lights will illuminate to show the charging progress. All lights will be solid when fully charged.

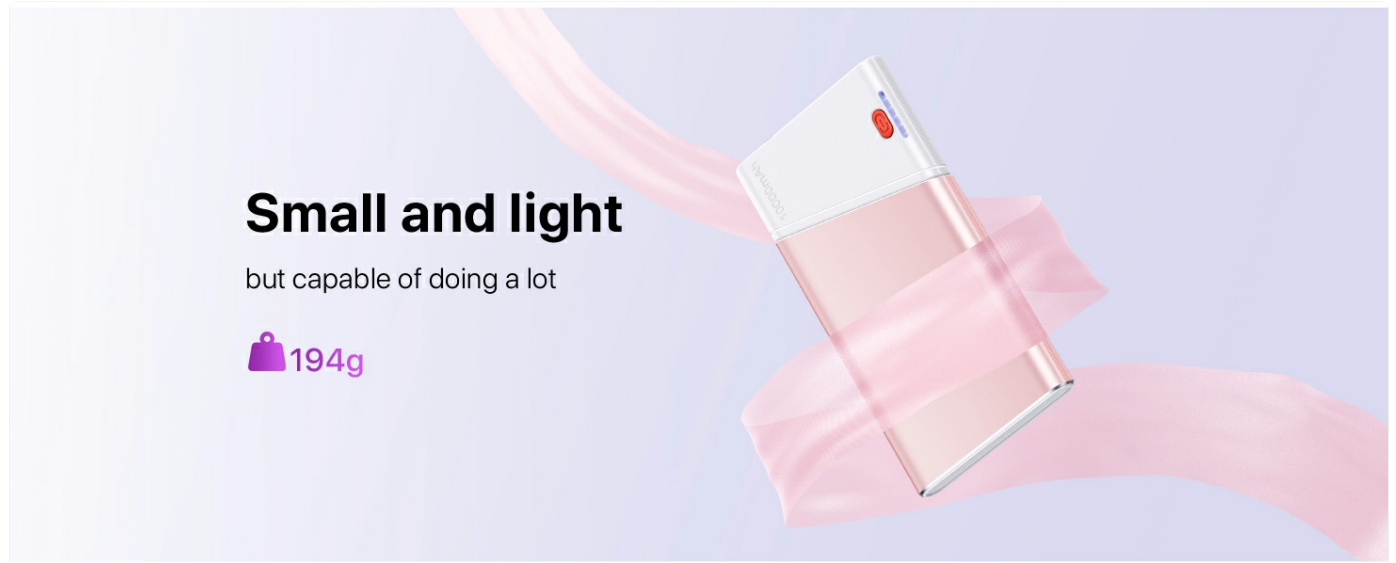

Image 2.1: Charging the power bank using its built-in USB-C cable.

## 2.2 Checking Battery Level

Press the power button once to check the remaining battery level indicated by the LED lights.

## 3. OPERATION

---

### 3.1 Charging Devices

The power bank supports charging up to three devices simultaneously using its built-in USB-C cable, a USB-C input/output port, and a USB-A output port.

- **Using the Built-in USB-C Cable:** Connect the built-in USB-C cable directly to your compatible device's USB-C port.
- **Using the USB-C Output Port:** Connect a USB-C to USB-C cable (not included) from the power bank's USB-C port to your device.
- **Using the USB-A Output Port:** Connect a standard USB-A to device-specific cable (not included) from the power bank's USB-A port to your device.

## 4. MAINTENANCE

- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cleaning:** Use a soft, dry cloth to clean the exterior of the power bank. Do not use liquid cleaners or solvents.
- **Avoid Drops:** While durable, avoid dropping the power bank to prevent internal damage.
- **Regular Use:** To maintain battery health, use and recharge the power bank at least once every three months.

## 5. TROUBLESHOOTING

### 5.1 Power Bank Not Charging

- Ensure the charging cable is securely connected to both the power bank and the power adapter.
- Verify that the wall outlet is functional.

- Try using a different USB-C cable and/or power adapter.

### 5.2 Device Not Charging from Power Bank

- Check if the power bank has sufficient charge. Press the power button to check LED indicators.
- Ensure the cable connecting your device to the power bank is securely plugged in at both ends.
- Try using a different charging port on the power bank or a different cable.
- Confirm your device is compatible with the power bank's output ports.

### 5.3 Slow Charging

- Ensure you are using a fast-charging compatible cable and your device supports fast charging.
- Charging multiple devices simultaneously may reduce the charging speed for individual devices.
- High temperatures can sometimes reduce charging efficiency. Ensure the power bank is in a well-ventilated area.
