

ANTSKU 118" x 71" Retractable Side Awning

ANTSKU 118" x 71" Retractable Side Awning Instruction Manual

Outdoor Retractable Privacy Screen, Waterproof & UV-Resistant

1. INTRODUCTION

This manual provides essential information for the safe and effective installation, operation, and maintenance of your ANTSKU 118" x 71" Retractable Side Awning. Please read these instructions thoroughly before assembly and use. Keep this manual for future reference.

2. PRODUCT FEATURES

- **Durable Construction:** Features a robust aluminum alloy frame and support poles designed for outdoor elements, resisting rust and corrosion.
- **High-Quality Fabric:** Made from high-density 280g/m² polyester fabric with PU coating, offering superior waterproofing, UV protection (UPF30+), and easy cleaning.
- **Retractable Design:** Equipped with a smooth-operating handle for effortless extension and retraction, enhancing flexibility and product lifespan.
- **Versatile Functionality:** Ideal for creating privacy and shade in various outdoor settings such as patios, decks, balconies, gardens, and pools.

Anti-Uv

Splashproof

Image: The awning fabric is designed to be both Anti-UV and Splashproof, providing protection from sun and light rain.

280g/m² polyester fabric with PU Coating

Retractable side awning protects your privacy

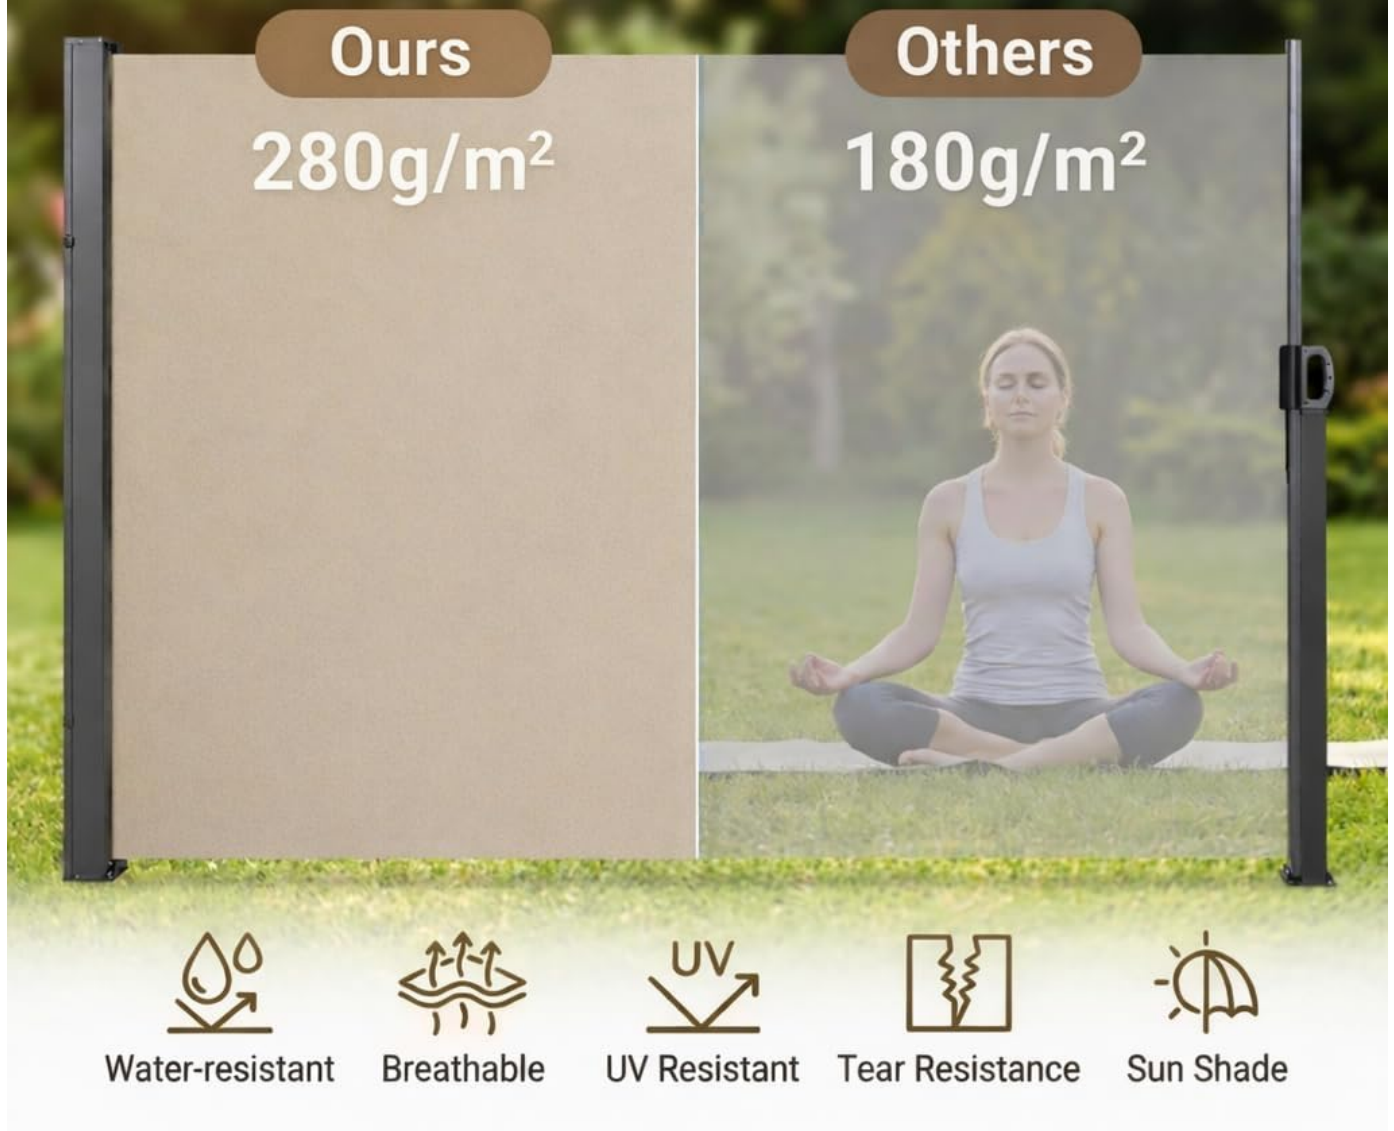

Image: A visual comparison highlighting the density of the 280g/m² polyester fabric used in this awning versus a thinner 180g/m² fabric.

3. SAFETY INFORMATION

- Ensure all mounting hardware is securely fastened to a stable surface.
- Do not use the awning in strong winds or severe weather conditions. Retract the awning to prevent damage.
- Keep children and pets away from the awning during operation to avoid injury.
- Regularly inspect the awning for any signs of wear or damage. Do not operate if damaged.
- Avoid hanging heavy objects on the awning structure.

4. PACKAGE CONTENTS

Verify that all components are present before beginning installation.

- 1 x Retractable Side Awning Unit (Housing with fabric)

- 1 x Support Post
- Mounting Accessories (Screws, anchors, brackets)
- Instruction Manual

5. SETUP AND INSTALLATION

This awning is designed for easy installation. All necessary mounting accessories are included.

5.1 Mounting the Housing Unit

1. Choose a suitable wall or sturdy vertical surface for mounting the awning housing. Ensure the surface can support the weight and tension of the awning.
2. Mark the drilling points for the housing brackets. Use a level to ensure proper alignment.
3. Drill pilot holes and insert appropriate wall anchors if necessary.
4. Securely attach the awning housing to the wall using the provided screws and brackets.

5.2 Installing the Support Post

1. Determine the desired extension point for the awning and the location for the support post.
2. The support post can be mounted directly to concrete, cement floors, or wooden decks.
3. Mark the drilling points for the support post base.
4. Drill pilot holes and secure the support post base using the provided screws.
5. Ensure the support post is vertical and stable.

The side awning leg tube is clamped with a metal bracket and anchored to the wall as an integrated assembly

6. OPERATING INSTRUCTIONS

6.1 Extending the Awning

1. Grasp the handle on the side of the awning fabric.
2. Gently pull the handle outwards, extending the fabric from the housing unit.
3. Guide the handle towards the support post until it locks securely into the designated slot.

6.2 Retracting the Awning

1. To retract, disengage the handle from the support post by pushing it slightly downwards or releasing the locking mechanism.
2. Slowly guide the handle back towards the housing unit. The awning will retract smoothly.
3. Ensure the fabric is fully retracted and secured within the housing when not in use.

7. MAINTENANCE

- **Cleaning:** Clean the fabric with mild soap and water. Do not use harsh chemicals or abrasive cleaners. Rinse thoroughly and allow to air dry completely before retracting.
- **Frame Care:** Wipe the aluminum frame and poles with a damp cloth to remove dirt and debris.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Inspect the fabric for any tears or damage.
- **Winter Storage:** In areas with harsh winters, it is recommended to retract the awning and, if possible, cover the housing unit to protect it from extreme weather.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Awning does not extend/retract smoothly.	Obstruction in the mechanism; dirt/debris; misaligned handle.	Check for obstructions. Clean tracks. Ensure handle is properly engaged.
Awning sags or appears loose.	Mounting screws are loose; fabric tension is incorrect.	Tighten all mounting screws. Consult installation guide for tension adjustment if applicable.
Water pooling on fabric.	Awning not installed with proper slope; heavy rain.	Ensure proper installation angle for water runoff. Retract during heavy rain.

9. SPECIFICATIONS

Feature	Detail
Model	118" x 71" Retractable Side Awning
Dimensions (W x H)	118.1" x 70.9" (approx. 300 cm x 180 cm)
