7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures. If storing for extended periods, charge the power bank to approximately 50% every three months to maintain battery health.
- **Handling:** Avoid physical shocks or drops, as these can damage internal components.

8. TROUBLESHOOTING

Power Bank Not Charging:

- Ensure the USB-C cable is securely connected to both the power bank and the wall adapter.
- Try a different USB-C cable or wall adapter to rule out faulty accessories.
- Verify that the wall outlet is functioning correctly.

Device Not Charging from Power Bank:

- Check if the power bank has sufficient charge indicated by the LED display.
- Ensure the charging cable connecting your device to the power bank is functional and properly connected.
- Try a different output port on the power bank.
- Some devices may require specific charging protocols; ensure compatibility.

Slow Charging:

- Ensure you are using a fast-charging compatible cable and your device supports fast charging.
- Charging multiple devices simultaneously may reduce the charging speed for individual devices.
- High ambient temperatures can affect charging efficiency.
