KELY PURE K67

KELY PURE K67 GPS Smart Watch User Manual

Model: K67

INTRODUCTION

This manual provides comprehensive instructions for the KELY PURE K67 GPS Smart Watch. Please read it carefully to ensure proper use, optimal performance, and longevity of your device. The K67 is designed for outdoor enthusiasts, featuring a durable build, advanced health monitoring, and precise GPS capabilities.

PACKAGE CONTENTS

Upon opening the package, verify that all items are present and in good condition.

- KELY PURE K67 GPS Smart Watch
- Magnetic Charging Cable
- User Manual (this document)

PRODUCT OVERVIEW

The KELY PURE K67 Smart Watch is equipped with a 1.43-inch AMOLED display, offering clear visuals for all your data. It features a robust design suitable for outdoor activities, including a built-in compass and LED flashlight. Health monitoring functions include heart rate tracking and activity level analysis. The watch is waterproof with an IP68 rating.

SETUP

1. Charging the Device

Before first use, fully charge your KELY PURE K67 Smart Watch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a compatible power adapter (not included) or a computer's USB port. A full charge takes approximately 2 hours.

2. Powering On/Off

- **Power On:** Press and hold the Power button (typically the top right button) until the KELY PURE logo appears on the screen.
- **Power Off:** Press and hold the Power button, then select "Power Off" on the screen.

3. Pairing with Your Smartphone

1. Download the official KELY PURE companion application from your smartphone's app store (compatible with Android 5.0+ and iOS 12+).
2. Ensure Bluetooth is enabled on your smartphone.

3. Open the KELY PURE app and follow the on-screen instructions to add a new device.
4. Select "KELY PURE K67" from the list of available devices.
5. Confirm the pairing request on both your watch and smartphone.

OPERATING THE SMART WATCH

Navigation

- **Touchscreen:** Swipe left/right, up/down to navigate through menus and widgets. Tap to select.
- **Power Button:** Short press to return to the watch face or previous screen. Long press for power options.
- **Back Button:** Short press to go back to the previous screen.

Key Features

GPS Tracking

The K67 features built-in GPS for accurate tracking of outdoor activities. Ensure you have a clear view of the sky for optimal signal acquisition. The watch supports L1 single frequency ultra-high precision positioning and simultaneous joint positioning of multiple systems including GPS, GLONASS, Big Dipper, Galileo, and QZSS.

GPS motion trail

Health Monitoring

Monitor your heart rate, steps, and other vital statistics directly from your wrist. Access detailed reports through the companion app.

- **Heart Rate:** Navigate to the heart rate widget to view your current heart rate.
- **Activity Tracking:** The watch automatically tracks steps, distance, and calories burned.
- **Sleep Monitoring:** Wear the watch to bed for automatic sleep analysis.

Outdoor Tools

The K67 includes a built-in compass and LED flashlight for convenience during outdoor adventures.

Built-in Compass & Barometric Altimeter

Figure 5: The integrated LED flashlight in action.

Smart Functions

Receive notifications, weather updates, and control music directly from your watch when connected to your smartphone. The watch also features Alexa Built-in for voice commands.

MAINTENANCE

Cleaning

Wipe the watch and strap regularly with a soft, damp cloth. For stubborn dirt, use a mild soap solution and rinse thoroughly. Ensure the charging contacts are clean and dry before charging.

Water Resistance (IP68)

The K67 is IP68 waterproof, meaning it can withstand immersion in water up to 1.5 meters for up to 30 minutes. It is suitable for swimming and showering, but not for diving or high-pressure water activities. Avoid exposing the watch to hot water or steam.

Storage

When not in use for extended periods, store the watch in a cool, dry place. It is recommended to charge the watch to about 50% before long-term storage to preserve battery health.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Watch does not power on.	Low battery.	Charge the watch for at least 30 minutes.
Cannot pair with smartphone.	Bluetooth off; App issue; Watch not discoverable.	Ensure Bluetooth is on. Restart both watch and phone. Reinstall the app. Check watch's Bluetooth settings.
Inaccurate health data.	Improper fit; Sensor obstruction.	Ensure the watch is snug but comfortable on your wrist. Clean the sensor on the back of the watch.
GPS signal weak/lost.	Obstructed view of sky; Indoors.	Move to an open outdoor area. Wait for the watch to acquire satellite signals.
