PHILIPS BT5765/15

Philips Series 5000 Beard Trimmer Instruction Manual

MODEL: BT5765/15

Introduction

Thank you for choosing the Philips Series 5000 Beard Trimmer. This device is designed to provide precise and efficient beard trimming with advanced features for a comfortable grooming experience. Please read this instruction manual carefully before using the appliance and save it for future reference.

Important Safety Information

To ensure safe operation, please observe the following warnings:

- Do not immerse the trimmer in water.
- Keep the trimmer away from water sources when not in use.
- This appliance can be used by children aged 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

Package Contents

The Philips Series 5000 Beard Trimmer package includes the following items:

- 1 x Philips Series 5000 Beard Trimmer
- 1 x Short Beard Comb (0.4-10 mm)
- 1 x Long Beard Comb (10.4-20 mm)

- 1 x Precision Trimmer Attachment
- 1 x Hair Collection System Attachment
- 1 x Cleaning Brush
- 1 x Travel Pouch
- 1 x USB-A Charging Cable (Power adapter not included)

Setup

1. Charging the Trimmer

1. Ensure the trimmer is switched off.
2. Connect the USB-A charging cable to the trimmer's charging port.
3. Plug the other end of the USB-A cable into a compatible USB power adapter (not included) or a USB port.
4. The battery indicator will show the charging status. A full charge provides up to 100 minutes of cordless use.

2. Attaching and Removing Combs

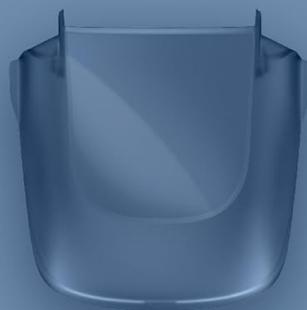

1. To attach a comb, align the comb with the trimmer head and push it down until it clicks into place.
2. To remove a comb, gently pull it upwards from the trimmer head.

Operating Instructions

1. Power On/Off

Press the power button located on the trimmer handle to turn the device on or off.

2. Adjusting Cutting Length

The trimmer offers 40 adjustable cutting lengths in 0.2 mm steps. To select your desired length, rotate the zoom wheel on the trimmer handle. The selected length will be displayed on the device.

3. Trimming Your Beard

- Attach the appropriate comb (short or long beard comb) for your desired length.
- Move the trimmer against the direction of hair growth for an even trim.
- The innovative **Lift & Trim system** lifts hairs and guides them towards the blades for an efficient and

even cut.

- The **BeardSense Technology** analyzes beard density 125 times per second and increases power when needed, ensuring consistent performance even on dense or long beards.

4. Using the Precision Trimmer

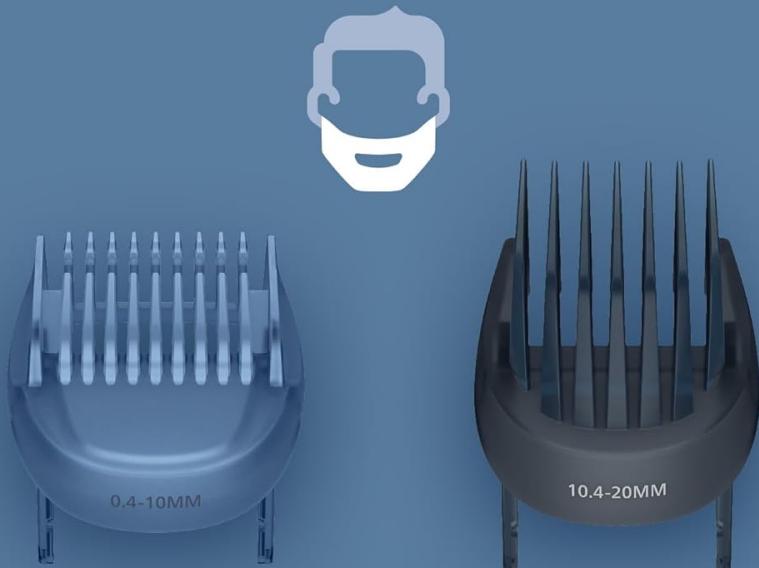

For defining beard lines and creating sharp edges, remove the comb and attach the precision trimmer head. Use gentle, controlled strokes to shape your beard.

Maintenance

1. Cleaning the Trimmer

The Philips Series 5000 Beard Trimmer is 100% waterproof, allowing for easy cleaning:

- After each use, switch off the trimmer and remove any attached comb.
- Rinse the trimmer head and combs under running tap water.
- The innovative **Hair Collection System** captures up to 80% of trimmed hairs, simplifying cleanup. To empty, detach the hair collection chamber and discard the collected hairs. Rinse the chamber under water.
- Allow all parts to air dry completely before reassembling or storing.

2. Blade Care

The trimmer features self-sharpening metal blades that provide long-lasting performance and do not require lubrication. No special maintenance is needed for the blades.

Troubleshooting

- Trimmer does not turn on:** Ensure the trimmer is fully charged. If the battery is depleted, connect it to a power source using the USB cable.
- Poor trimming performance:** Clean the blades and comb thoroughly to remove any trapped hairs. Ensure the comb is correctly attached.
- Trimmer pulls hair:** This may indicate low battery or dull blades. Charge the trimmer fully. The self-sharpening blades should maintain sharpness, but if issues persist, contact customer support.

Specifications

Model Number	BT5765/15
Brand	PHILIPS
