SAFETY INFORMATION

To ensure safe operation and prevent injury or damage, please adhere to the following safety guidelines:

- This appliance is suitable for individuals aged 8 years and above, provided they are supervised or have received instructions concerning safe use and understand the potential hazards.
- Keep the shaver dry. Do not use it in wet conditions or immerse it in water.
- Do not use the shaver if it is damaged. Contact customer support for assistance.
- Avoid opening the shaver casing or attempting self-repair. This may void the warranty and pose a safety risk.
- Clean the shaver gently using the provided brush. Avoid using liquids or abrasive cleaning agents on the main unit.
- Keep out of reach of children.

PACKAGE CONTENTS

Verify that all items are present in the package:

- 1x VGR V-307 Professional Foil Shaver
- 1x Protective Cap
- 1x Storage Bag
- 1x Cleaning Brush
- 1x USB Type-C Charging Cable

PRODUCT FEATURES

The VGR V-307 Professional Foil Shaver incorporates advanced features for an optimal shaving experience:

- **High-Performance Motor:** Equipped with a robust 9000 RPM motor for fast, powerful, and precise shaving.
- **Double Titanium-Coated Flexing Foils:** Features two ultra-thin, titanium-coated foils that adapt to facial contours, providing a close, comfortable, and irritation-free shave.
- **Premium Metal Build:** Designed with a durable all-metal body for long-term use and a premium feel.
- **Long-Lasting Battery:** Powered by a high-capacity 2000mAh lithium battery, offering up to 180 minutes of cordless operation on a full charge.
- **USB Type-C Charging:** Convenient charging via the universal USB Type-C cable, compatible with power banks, laptops, or wall adapters (5V-1A supported).
- **LED Indicator:** An intuitive LED display shows battery level, low power warning (below 15%), and charging status. Includes overcharge protection.

GETTING STARTED

Charging the Shaver

Before initial use, fully charge the shaver. A full charge takes approximately 3 hours and provides up to 180 minutes of cordless operation.

1. Connect the USB Type-C cable to the charging port on the shaver.
2. Plug the other end of the USB cable into a compatible power source (e.g., computer, laptop, power bank, or 5V-1A wall adapter).
3. The LED indicator will display the charging status. Once fully charged, the indicator will show 100%.

The shaver features overcharge protection to ensure battery safety.

OPERATING INSTRUCTIONS

Follow these steps for an effective and comfortable shave:

1. Ensure the shaver is fully charged.
2. Turn on the shaver using the power button.
3. Hold the shaver at a 90-degree angle to your skin.
4. Gently stretch your skin with your free hand to create a flat surface.
5. Shave against the direction of hair growth for the closest results.
6. Move the shaver in short, gentle strokes. Avoid pressing too hard to prevent irritation.

Recommended Uses

- **Facial Shaving:** Ideal for achieving a clean, smooth face.
- **Head Shaving:** Suitable for maintaining a bald head hairstyle.
- **Neck & Jawline:** Perfect for defining edges and achieving a sharp look.

- **Thick Hair:** Capable of shaving thick hair up to 2mm without pulling.

CLEANING AND MAINTENANCE

Regular cleaning ensures optimal performance and hygiene:

- **Cleaning the Foil Assembly:** The foil assembly is removable and washable under water. After each use, detach the foil head and rinse it under running water to remove hair clippings.
- **Cleaning the Main Unit:** The main unit of the shaver is **not washable**. Use the provided cleaning brush to gently brush away any hair particles from the shaver body and internal components.
- **Drying:** After rinsing, allow the foil assembly to air dry completely before reattaching it to the shaver. Ensure the main unit is dry before storage.
- **Storage:** Store the shaver in the provided storage bag with the protective cap in place to prevent damage to the foils.

TROUBLESHOOTING

If you encounter issues with your VGR V-307 Professional Foil Shaver, refer to the following common solutions:

Problem	Possible Cause	Solution
Shaver does not turn on.	Battery is depleted.	Charge the shaver fully using the USB Type-C cable.
Poor shaving performance.	Foil head is clogged with hair or damaged.	Clean the foil head thoroughly. Inspect for damage and replace if necessary.
Shaver pulls hair.	Foil head is dirty or worn out.	Clean the foil head. If the problem persists, the foils may need replacement.
LED indicator not working.	Shaver is not charging or battery is completely dead.	Ensure the charging cable is securely connected to a working power source. Allow some time for the battery to revive if completely drained.

If the issue persists after attempting these solutions, please contact customer support for further assistance.
