JBL JBLCHARGE6RDAM

JBL Charge 6 Portable Bluetooth Speaker User Manual

Model: JBLCHARGE6RDAM | Brand: JBL

INTRODUCTION

The JBL Charge 6 is a versatile portable Bluetooth speaker designed to deliver powerful audio with exceptional durability. Featuring JBL's signature Pro Sound and deep bass radiators, it provides clear, booming sound suitable for any environment. Its IP68 waterproof and dustproof rating, combined with a rugged design, makes it an ideal companion for outdoor adventures. With extended battery life and advanced connectivity options like Bluetooth 5.4 and Auracast, the Charge 6 ensures your music never stops.

WHAT'S IN THE BOX

Upon unboxing your JBL Charge 6, please verify that all the following items are included:

- JBL Charge 6 Portable Bluetooth Speaker (Red)
- Removable Carrying Strap
- USB-C Cable
- Diginerds Travel Case for Charge 6

SETUP AND FIRST USE

Charging the Speaker

Before initial use, it is recommended to fully charge your JBL Charge 6 speaker. Connect the included USB-C cable to the speaker's charging port and then to a compatible USB power adapter (not supplied). The battery indicator lights will illuminate to show the charging status.

Powering On/Off

To power the speaker on or off, press and hold the power button, typically located on the top panel, for approximately 2 seconds. A distinct audible cue will confirm the power status change.

Bluetooth Pairing

Follow these steps to connect your device to the JBL Charge 6 via Bluetooth:

1. Ensure the JBL Charge 6 speaker is powered on.
2. Press the Bluetooth button on the speaker. The Bluetooth indicator light will begin to flash, signifying that the speaker is in pairing mode.
3. On your audio source device (e.g., smartphone, tablet, laptop), navigate to the Bluetooth settings and enable Bluetooth.

4. Search for "JBL Charge 6" in the list of available devices and select it to establish a connection. Once successfully paired, the Bluetooth indicator light will become solid, and a confirmation sound will play.

OPERATING THE SPEAKER

Audio Playback Controls

The JBL Charge 6 features intuitive controls for managing your audio:

- **Play/Pause:** Press the Play button once.
- **Volume Up:** Press the '+' button.
- **Volume Down:** Press the '-' button.
- **Next Track:** Double-press the Play button.
- **Previous Track:** Triple-press the Play button.

Auracast Pairing (Multi-Speaker Connection)

The JBL Charge 6 supports Auracast technology, allowing you to connect multiple compatible JBL speakers for a synchronized audio experience. To initiate Auracast pairing:

1. Ensure all JBL Auracast-compatible speakers are powered on and within range.
2. On the primary speaker (the one connected to your audio source), press the dedicated Auracast button.
3. On any secondary speakers you wish to connect, press their respective Auracast buttons.
4. The speakers will automatically detect and connect to each other, creating a multi-speaker audio system.

Waterproof and Dustproof Usage (IP68)

The JBL Charge 6 boasts an IP68 rating, signifying its high resistance to water and dust. This means it can withstand submersion in up to 1.5 meters of water for up to 30 minutes, and is fully protected against dust ingress. Before exposing the speaker to water or dust, always ensure that the charging port cover is securely closed to prevent damage.

MAINTENANCE

Cleaning

To clean the exterior of your JBL Charge 6 speaker, use a soft, slightly damp cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the speaker's finish or internal components. Ensure the speaker is completely dry before connecting it to a power source for charging.

Storage

When storing the speaker for extended periods, keep it in a cool, dry environment away from direct sunlight, extreme temperatures, and high humidity. For optimal battery health, it is recommended to charge the battery to approximately 50% capacity before long-term storage.

TROUBLESHOOTING

If you encounter issues with your JBL Charge 6, refer to the following common problems and solutions:

Speaker not turning on:

Ensure the battery has sufficient charge. Connect the speaker to a power source using the USB-C cable and attempt to power it on again.

Cannot pair via Bluetooth:

Verify that the speaker is in Bluetooth pairing mode (Bluetooth indicator light flashing). Confirm that Bluetooth is enabled on your device and that "JBL Charge 6" is selected from the list of available devices. If issues persist, try forgetting the device on your phone's Bluetooth settings and re-pairing.

No sound or low volume:

Check the volume levels on both the JBL Charge 6 speaker and your connected audio source device. Ensure the speaker is not muted. Try disconnecting and reconnecting the Bluetooth connection.

Auracast not connecting:

Confirm that all speakers you are attempting to connect are compatible with Auracast and are within close proximity. Press the Auracast button on all speakers to initiate the connection process.

SPECIFICATIONS

Feature	Detail
