

AKAI PM-160P

AKAI PM-160P Wireless Portable Outdoor Party Speaker User Manual

Model: PM-160P

INTRODUCTION

This manual provides essential instructions for the safe and efficient operation of your AKAI PM-160P Wireless Portable Outdoor Party Speaker. Please read this manual thoroughly before using the product and retain it for future reference.

SAFETY INFORMATION

- Do not expose the speaker to extreme temperatures or direct sunlight for extended periods.
- Avoid submerging the speaker in water. The IPX4 rating protects against splashes, not submersion.
- Use only the provided charging cable and power adapter.
- Keep the speaker away from children and pets.
- Do not attempt to disassemble or repair the speaker yourself. Contact qualified service personnel.
- Ensure proper ventilation when operating the speaker.

PACKAGE CONTENTS

Verify that all items are present in the packaging:

- 1N Main Unit Speaker
- 1N Wireless Microphone
- 1N Remote Control
- 1N Charging Cable
- 1N Aux Cable
- 1N User Manual/Warranty Card

PRODUCT OVERVIEW

The AKAI PM-160P is a powerful wireless portable party speaker designed for outdoor and indoor use. It features dual 8-inch woofers and a 2-inch tweeter for rich audio, a 5000mAh battery for extended playtime, and multiple connectivity options.

Figure 1: AKAI PM-160P Speaker, Wireless Microphone, and Remote Control. This image displays the main speaker unit with its vibrant LED lights, alongside the included wireless microphone and remote control, illustrating the complete product package.

Key Features:

- **160W RMS Output:** Delivers powerful sound.
- **Dual 8" Woofers & 2" Tweeter:** For enhanced bass and clear highs.
- **5000mAh Battery:** Up to 5 hours playtime at 50% volume.
- **IPX4 Splash-Proof:** Protection against light water splashes.
- **Multiple Connectivity:** Bluetooth 5.0, AUX, USB, TF Card, Guitar Input.
- **True Wireless Stereo (TWS):** Connect two PM-160P speakers for stereo sound.

- **Wireless Microphone:** For karaoke and vocal performances.
- **Dynamic LED Lights:** Multicolor lighting effects.
- **Mobile Holder:** Integrated slot for holding a smartphone or tablet.

Figure 2: Integrated Mobile Holder. This image highlights the top panel of the speaker, showing a smartphone securely placed in the built-in mobile holder, demonstrating its convenience for media playback or display.

SETUP

1. Charging the Speaker

1. Connect the provided charging cable to the speaker's charging port.
2. Plug the other end into a suitable power outlet.
3. The charging indicator will illuminate. Allow approximately [X hours - not specified in data] for a full charge.
4. A fully charged battery provides up to 5 hours of playtime at 50% volume.

Take music anywhere

With Portable Design, power up your outdoor gatherings with the ultimate party companion!

The image features a large AKAI PM-160P speaker on the left, which is illuminated with vibrant rainbow-colored LED lights. The speaker has a black grille and a digital display at the top showing '88.88'. To the right of the speaker, a group of five friends are enjoying a picnic on a grassy field. A man is playing an acoustic guitar, while others are sitting and talking. The scene is set outdoors with a clear sky and green grass.

2. Initial Power On

- Locate the power button on the speaker.
- Press and hold the power button for a few seconds until the display illuminates and the speaker powers on.

3. Connecting the Wireless Microphone

- Ensure the wireless microphone has fresh batteries (if applicable, the product description states "Rechargeable Wireless Mic").
- Turn on the microphone. It should automatically pair with the speaker.
- Adjust the microphone volume using the dedicated control on the speaker or remote.

OPERATING INSTRUCTIONS

1. Bluetooth Pairing

1. Power on the AKAI PM-160P speaker.
2. The speaker will automatically enter Bluetooth pairing mode (indicated by a flashing Bluetooth icon or voice prompt).
3. On your mobile device, enable Bluetooth and search for available devices.
4. Select "AKAI PM-160P" from the list.
5. Once paired, the speaker will confirm the connection, and the Bluetooth indicator will become solid.
6. The Bluetooth 5.0 technology ensures stable connections up to 10 meters.

2. True Wireless Stereo (TWS) Function

To achieve an immersive stereo sound experience, you can connect two AKAI PM-160P speakers wirelessly:

1. Ensure both PM-160P speakers are powered on and not connected to any Bluetooth device.
2. On one speaker (this will be the primary speaker), long press the TWS button.
3. The speaker will search for another PM-160P speaker.
4. Once connected, both speakers will play audio in stereo.
5. Connect your mobile device to the primary speaker via Bluetooth as described above.

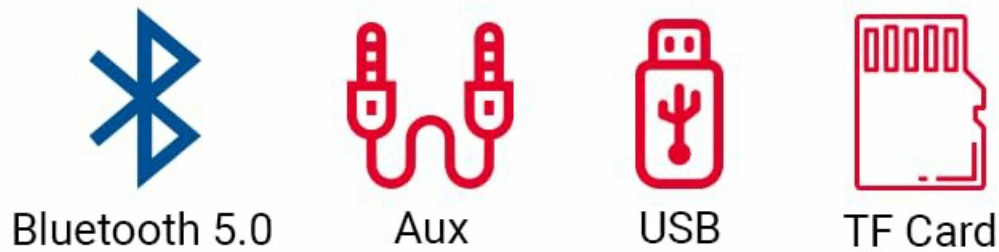

Figure 4: TWS Functionality. This diagram illustrates how two AKAI PM-160P speakers can be wirelessly linked to a single mobile device, enabling a True Wireless Stereo sound experience.

3. Using Other Connectivity Options (AUX, USB, TF Card, Guitar Input)

- **AUX Input:** Connect an external audio device using the provided 3.5mm AUX cable to the AUX port on the speaker. Select AUX mode using the mode button.
- **USB Playback:** Insert a USB flash drive containing MP3 audio files into the USB port. The speaker will automatically detect and play the files.
- **TF Card Playback:** Insert a TF (microSD) card containing MP3 audio files into the TF card slot. The speaker will automatically detect and play the files.
- **Guitar Input:** Connect your guitar to the dedicated guitar input port. Adjust the guitar volume as needed.

The Easy Connectivity

TWS Function

Connect Two Speakers together, just long press on TWS Button

Figure 5: Multiple Connectivity Options. This image displays icons representing Bluetooth 5.0, Aux, USB, and TF Card inputs, along with a diagram explaining the TWS function, highlighting the speaker's versatile connection capabilities.

4. Karaoke Function

With the included wireless microphone, you can enjoy karaoke:

- Ensure the wireless microphone is connected (see Setup section).
- Play your desired music track through any input source (Bluetooth, USB, AUX).
- Adjust the microphone volume and echo effects using the controls on the speaker or remote for optimal vocal performance.

Take your **Karaoke Parties** to the next level!

Our Portable Akai PM-160P Party Speaker with wireless mic feature lets you sing your heart out, anywhere, anytime.

Get ready to rock the party!

Figure 6: Karaoke and Guitar Input. This image depicts individuals singing with the wireless microphone and playing a guitar, showcasing the speaker's suitability for karaoke parties and musical performances.

5. Equalizer Settings

Customize your audio experience with multiple equalizer presets. Use the "EQ" button on the speaker or remote control to cycle through available sound modes (e.g., Pop, Rock, Jazz, Classic, Flat).

6. Dynamic LED Lights

The speaker features dynamic multicolor LED lights that enhance the party atmosphere. Use the dedicated light button on the speaker or remote to change light modes or turn them off.

Figure 7: Dynamic LED Lighting. This image shows the AKAI PM-160P speaker with its vibrant, multicolor LED lights active in a lively party environment, illustrating how the lighting enhances the entertainment atmosphere.

7. Remote Control Operation

The included remote control allows convenient operation from a distance. Functions include power on/off, mode selection, volume control, track selection, EQ settings, and LED light control.

Control at your fingertips, Sound at your command!

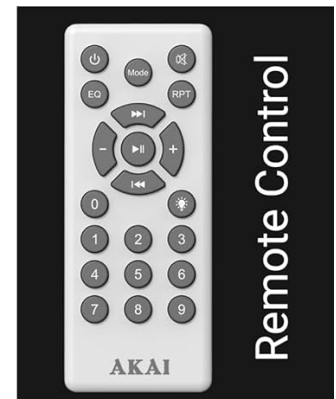

Figure 8: Remote Control and Top Panel. This image displays the speaker's top control panel alongside the remote control, emphasizing the ease of managing settings and playback from a distance.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the speaker's exterior. Do not use abrasive cleaners or solvents.
- **Storage:** Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.
- **Battery Care:** To prolong battery life, fully charge the speaker before long-term storage and recharge it every 3-6 months.
- **Water Resistance:** The IPX4 rating means it is splash-proof. Do not immerse the speaker in water or expose it to heavy rain. Ensure all port covers are securely closed when near water.

IPX4 Splash-Proof

IPX4 water resistance protects your speaker from light water splashes. However, it cannot be submerged.

Dimensions

H: 70cm

D: 33 cm

W: 31.3 cm

Figure 9: IPX4 Splash-Proof Rating. This image highlights the speaker's IPX4 water resistance, indicating protection against light splashes, along with its physical dimensions for reference.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Speaker does not power on.	Low battery; Power button not pressed correctly.	Charge the speaker; Press and hold the power button until it turns on.
No sound.	Volume too low; Incorrect input mode; Device not paired.	Increase volume; Select correct input mode; Re-pair Bluetooth device.
Bluetooth connection unstable.	Device too far; Obstructions; Interference.	Move device closer (within 10m); Remove obstructions; Avoid other wireless devices.
Microphone not working.	Microphone off; Low microphone battery; Volume too low.	Turn on microphone; Charge/replace microphone batteries; Increase microphone volume.

Problem	Possible Cause	Solution
TWS pairing fails.	Speakers already paired to another device; Incorrect TWS procedure.	Ensure both speakers are unpaired from other devices; Follow TWS pairing steps carefully.
