PatrolEyes PE-DV10-PRO

PatrolEyes PE-DV10-PRO Body Camera User Manual

Model: PE-DV10-PRO | Brand: PatrolEyes

INTRODUCTION

The PatrolEyes DV10-PRO WiFi GPS police body camera is a high-definition video recorder designed specifically for law enforcement. It features true 1080P HD video, a 140° wide-angle lens, and 64GB of internal storage, capable of capturing up to 12 hours of footage in 1080p. Recording can be initiated with a single button press even when the camera is powered off, and an automatic infrared sensor ensures clear recording day or night. Built-in WiFi allows for in-field review of videos, photos, or audio recordings directly from your smartphone. The DV10-PRO boasts a durable housing with an IP67 waterproof and dust rating, ensuring reliability in various weather conditions. It also includes built-in GPS that embeds coordinates onto each video file, Advanced Electronic Image Stabilization (EIS) with 6-axis stabilization for steady footage, and AES256 file encryption for enhanced security.

WHAT'S IN THE Box

- Body Camera
- Alligator Clip
- Docking Station
- USB Wall Charger
- USB Car Charger
- User Manual
- One Year Manufacturer's Warranty

PRODUCT OVERVIEW

Familiarize yourself with the various components and features of your PE-DV10-PRO body camera.

Front View: Displays the camera lens, infrared illuminators, and primary control buttons.

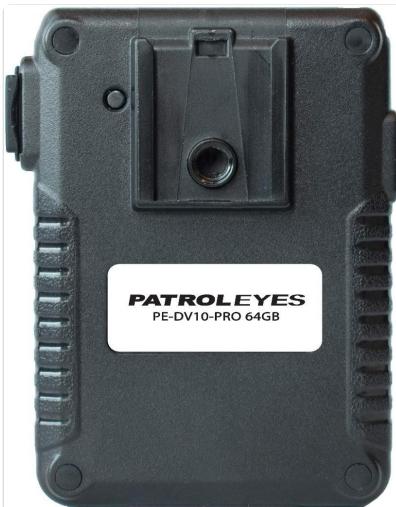

Bottom View: Shows the contacts for connecting to the docking station.

Side View (USB Port): Illustrates the USB port for data transfer and charging.

Side View (Control Buttons): Displays additional buttons for camera operation.

Back View: Features the PatrolEyes product label and mounting point.

Angled Front View: Provides a perspective of the camera with its operational indicator lights visible.

Angled Front View (USB Side): Shows the camera from an angle, highlighting the USB port and side buttons.

Top View: Displays the battery indicator and top-mounted controls.

In Docking Station: The camera securely placed in its charging and data transfer docking station.

SETUP

Initial Charging

Before first use, fully charge your PE-DV10-PRO body camera. Connect the camera to the docking station, then connect the docking station to the provided USB wall charger or USB car charger. The charging indicator light on the camera will show the charging status. A full charge provides up to 12 hours of recording in 1080P.

Powering On/Off

To power on the camera, press and hold the Power button until the indicator lights illuminate. To power off, press and hold the Power button again until the lights turn off.

OPERATING INSTRUCTIONS

Video Recording

To start video recording, press the dedicated Record button. The camera is designed to begin recording with a single press even when initially powered off, ensuring no critical moments are missed.

The camera supports pre and post-event recording, allowing it to capture up to 2 minutes of footage prior to pressing record (available in 720p/480p mode).

The Advanced Electronic Image Stabilization (EIS) with 6-axis stabilization helps achieve clear, steady images even when the camera is subject to movement or shaking.

Audio Recording

For dedicated audio recording, refer to the camera's on-screen menu or specific button functions as detailed in the full digital manual.

Photo Capture

To capture still photos, use the designated Photo button. The camera supports a maximum image resolution of 32 MP.

Wi-Fi Functionality

The built-in Wi-Fi function enables you to review videos, photos, or audio recordings directly from your smartphone. Consult the digital download cam manager program for detailed connection and usage instructions.

GPS Functionality

The integrated GPS module automatically embeds location coordinates onto each video file, providing valuable geographical data for recorded events.

Password Protection

The camera can be password protected to prevent unauthorized access to recorded data. A unique 6-digit password can be set when connected to the included cam manager program (digital download).

MAINTENANCE

Cleaning

Regularly clean the camera lens and body with a soft, dry, lint-free cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the camera's surfaces or internal components.

Storage

Store the camera in a cool, dry place away from direct sunlight, high humidity, and extreme temperatures. For long-term storage, ensure the battery is partially charged (around 50%) to maintain battery health.

TROUBLESHOOTING

Camera Not Powering On

Ensure the camera is fully charged. Connect it to the charger and observe the charging indicator light. If the light does not illuminate, check the charger and cable connections.

Recording Issues

Check the available storage space. The camera comes with 64GB of built-in storage. If storage is full, transfer or delete old files. Ensure the camera is not in a low-power state; charge it if necessary.

Wi-Fi Connection Problems

Verify that the Wi-Fi function is enabled on both the camera and your smartphone. Ensure you are within effective range of the camera's Wi-Fi signal. Refer to the cam manager program's instructions for detailed Wi-Fi setup and troubleshooting steps.

Image/Video Quality Issues

Ensure the camera lens is clean and free from smudges, dust, or debris. For shaky footage, confirm that the Advanced Electronic Image Stabilization (EIS) feature is enabled in the camera settings.

SPECIFICATIONS

Feature	Detail
Model Name	PE-DV10-PRO
Brand	PatrolEyes
Video Capture Resolution	1080p
Maximum Webcam Image Resolution	32 MP
Flash Memory Type	Built-in 64GB
