## 7. TROUBLESHOOTING

### 7.1 Common Issues and Solutions

- **Laptop does not power on:** Ensure the power adapter is securely connected and the wall outlet is functional. Try a different outlet. If using battery, ensure it is charged.
- **Screen is blank:** Check if the laptop is powered on. Press Fn + F7 (or the corresponding display toggle key) to ensure the display is not turned off. Connect an external monitor to check if the issue is with the laptop's display.
- **Overheating:** Ensure all cooling vents are unobstructed. Use the laptop on a hard, flat surface. Update graphics drivers. Adjust power settings to a cooler profile if available in Armoury Crate.
- **Wi-Fi connectivity issues:** Restart your router and modem. Ensure Wi-Fi is enabled on the laptop (Fn + F10 or via Windows settings). Update Wi-Fi drivers.
- **Slow performance:** Close unnecessary applications. Check for background processes consuming high resources (Task Manager). Ensure sufficient free storage space. Run a virus scan.
