SETUP

Initial Power On and Setup

1. **Charge the Tablet:** Before first use, fully charge the tablet using the provided USB cable and power adapter. Connect the Type-C end of the cable to the tablet's charging port and the USB end to the power adapter, then plug the adapter into a wall outlet.

2. **Power On:** Press and hold the Power button located on the side of the tablet until the DigiLand logo appears on the screen.

3. **Initial Configuration:** Follow the on-screen prompts to complete the initial setup. This typically includes selecting your language, connecting to a Wi-Fi network, setting up your Google account, and configuring basic security settings.

4. **Insert TF Card (Optional):** If you wish to expand storage, carefully insert a TF (microSD) card into the designated memory card slot. Ensure the tablet is powered off before inserting or removing the card.

For a visual demonstration of the power-on sequence and initial interaction, refer to the unboxing video in the "What's in the Box" section.

OPERATING INSTRUCTIONS

Basic Navigation

- **Touchscreen Gestures:** Navigate the tablet using standard Android gestures: tap to select, swipe to scroll, pinch to zoom, and long-press for contextual menus.
- **Home Screen:** The main interface where you can access apps, widgets, and notifications.
- **Notification Panel:** Swipe down from the top of the screen to access quick settings and notifications.
- **App Drawer:** Swipe up from the bottom of the screen to view all installed applications.

Connecting to Wi-Fi and Bluetooth

- **Wi-Fi:** Go to *Settings > Network & internet > Wi-Fi* Turn on Wi-Fi, select your desired network, and enter the password if required. The tablet supports ultra-fast WiFi 6.
- **Bluetooth:** Go to *Settings > Connected devices > Connection preferences > Bluetooth* Turn on Bluetooth, then select "Pair new device" to connect to Bluetooth headphones, speakers, or other compatible devices. The tablet features energy-efficient Bluetooth 5.0.

Using Cameras

Access the Camera app from your home screen or app drawer. You can switch between the 8MP front camera and the 13MP rear camera within the app. Tap the screen to focus and press the shutter button to capture photos or start/stop video recording.

Multitasking with Split Screen

To use the split-screen feature, open an application, then swipe up from the bottom of the screen and hold to reveal the recent apps overview. Tap the app icon at the top of the app's card and select "Split screen." Choose a second app from the recent apps or app drawer to open it alongside the first. Adjust the size of each app by dragging the divider in the middle of the screen.

MAINTENANCE

- **Cleaning:** Use a soft, lint-free cloth to clean the screen and body of the tablet. Avoid using abrasive cleaners or solvents.
- **Battery Care:** To prolong battery life, avoid exposing the tablet to extreme temperatures. It is recommended to keep the battery charge between 20% and 80% for optimal longevity.
- **Software Updates:** Regularly check for and install system updates to ensure your tablet has the latest security patches and performance improvements. Go to *Settings > System > System update*
- **Storage Management:** Periodically clear unnecessary files and uninstall unused apps to free up storage space and maintain optimal performance.
- **Protection:** Use the provided leather case to protect your tablet from scratches and minor impacts.

TROUBLESHOOTING

This section addresses common issues you might encounter with your tablet. If you experience problems not covered here, please contact customer support.

Problem	Possible Cause	Solution
Tablet does not power on.	Low battery; system crash.	Charge the tablet for at least 30 minutes. If still unresponsive, press and hold the power button for 10-15 seconds to force a restart.
Wi-Fi connection issues.	Incorrect password; out of range; router issue.	Verify Wi-Fi password. Move closer to the router. Restart your Wi-Fi router. Forget the network and reconnect.
Apps are slow or crashing.	Too many apps running; low storage; outdated app.	Close background apps. Clear app cache (*Settings > Apps > [App Name] > Storage & cache > Clear cache*). Free up storage space. Update the app from Google Play Store.
Screen is unresponsive.	Temporary software glitch.	Force restart the tablet by holding the power button.
Tablet not charging.	Faulty cable/adapter; dirty charging port.	Ensure cable and adapter are securely connected. Try a different compatible cable and adapter. Clean the charging port gently with a dry, soft brush.
