Setup

1. Charging the Headphones

Before first use, fully charge your headphones. Connect the supplied USB-C charging cable to the Type-C port on the headphones and the other end to a USB power source (e.g., computer USB port, wall adapter). The indicator light will show charging status and turn off when fully charged. A full charge provides

approximately 48 hours of listening time.

2. Powering On/Off

- **Power On:** Long press the Power button until the indicator light flashes.
- **Power Off:** Long press the Power button until the indicator light turns off.

3. Bluetooth Pairing

1. Ensure the headphones are powered off.
2. Long press the Power button until the indicator light flashes blue and red alternately, indicating pairing mode.
3. On your device (smartphone, tablet, laptop), enable Bluetooth and search for available devices.
4. Select "Y05" from the list of found devices.
5. Once paired, the indicator light will flash blue slowly.

The headphones feature Bluetooth 5.3 for stable, low-latency connections up to 50 feet. After the initial pairing, the headphones will automatically connect to your device when powered on, if Bluetooth is enabled on your device.

Wide Compatibility

After the first pairing, it will automatically and quickly connect to your device when you turn it on.

Maintenance and Care

- **Cleaning:** Use a soft, dry cloth to clean the headphones. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the headphones in a cool, dry place, away from direct sunlight and extreme temperatures. The foldable design allows for compact storage.
- **Battery Care:** To preserve battery life, avoid fully discharging the headphones frequently. Charge them regularly, even if not used for extended periods.
- **Water Exposure:** These headphones are not waterproof. Avoid exposure to water or excessive moisture.

Travel-Ready Design

This space-saving design ensures you ready wherever you roam.

Troubleshooting

If you encounter issues with your Wentronic Y05 headphones, refer to the following common problems and solutions:

Problem	Solution
Headphones do not power on.	Ensure the headphones are charged. Connect to a power source using the USB-C cable.
Cannot pair with a Bluetooth device.	Ensure headphones are in pairing mode (flashing blue/red). Turn off and on Bluetooth on your device. Move closer to the headphones. Clear previous Bluetooth connections on your device.
No sound or low volume.	Check volume levels on both headphones and your connected device. Ensure headphones are properly paired or the 3.5mm cable is fully inserted.

Problem	Solution
Sound quality is poor.	Move closer to your Bluetooth device to avoid interference. Try a different audio source or file. Ensure the 3.5mm cable is not damaged if in wired mode.
Microphone not working.	Ensure the headphones are connected and selected as the input device on your computer/phone. Check application microphone settings.
