6. LIMITATIONS

- **No Video Streaming:** The OTTOCAST MINI provides CarPlay and Android Auto functionality only. It

does not support video playback from apps such as YouTube, Netflix, AirPlay, Apple TV+, Prime Video, or Hulu.

- **Audio/Video Synchronization:** Due to the nature of wireless CarPlay, there may be instances where audio and video synchronization is not perfect.
- **Wi-Fi Usage:** This product connects via Bluetooth for initial pairing, and data transmission occurs over Wi-Fi. It occupies your smartphone's Wi-Fi connection, so simultaneous use of in-car Wi-Fi or other Wi-Fi functions on your smartphone is not possible.

7. MAINTENANCE

- Keep the device clean and free from dust.
- Avoid exposing the device to extreme temperatures or moisture.
- For optimal performance, ensure your smartphone's operating system and the OTTOCAST MINI's firmware are up to date.

8. TROUBLESHOOTING

Connection Instability or Interruption

If the connection is unstable or frequently interrupted, insufficient power supply may be the cause.

1. First, try reconnecting or restarting the OTTOCAST MINI.
2. If the issue persists, use a Y-split power cable (not included) for auxiliary power to the device.

No Bluetooth Display for Android Auto

When using wireless Android Auto, the Bluetooth screen will not be displayed. This is normal operation and does not indicate a fault.
