Ludatido HKTS001-BK-NA2

Ludatido 70-Inch TV Stand with 36-Inch Electric Fireplace and LED Lighting

Model: HKTS001-BK-NA2

IMPORTANT SAFETY INFORMATION

Please read and understand all instructions and safety warnings before assembling, installing, or operating this product. Failure to follow these instructions may result in electric shock, fire, property damage, or personal injury.

- **Electrical Safety:** Ensure the power outlet used for the electric fireplace and integrated power center is properly grounded and rated for 120V, 60Hz. Do not overload the circuit.
- **Ventilation:** Do not block the air vents of the electric fireplace. Maintain clear space around the unit for proper heat dissipation.
- **Weight Capacity:** The TV stand is designed to support TVs up to 80 inches and a maximum load-bearing capacity of 280 lbs. Do not exceed this weight limit.
- **Placement:** Place the TV stand on a flat, level, and stable surface. Avoid placing it near flammable materials or in areas with high humidity.
- **Assembly:** Assembly requires two adults. Follow all assembly steps carefully. Do not use power tools for tightening fasteners unless explicitly instructed, as this may damage the furniture.
- **Children and Pets:** Keep children and pets away from the electric fireplace when it is operating. The glass panel can become hot.
- **Cord Management:** Route power cords safely to prevent tripping hazards and damage.

PACKAGE CONTENTS

Before beginning assembly, verify that all parts and hardware listed below are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

Additional open storage spaces

There is no space above the air outlet, which is a safety hazard

- TV Stand Panels (various sizes)
- Electric Fireplace Unit (36-inch)
- Integrated Power Strip (3 AC outlets, 2 USB ports)
- Assembly Hardware (screws, dowels, cam locks, etc.)
- Remote Control for Electric Fireplace
- Instruction Manual

ASSEMBLY INSTRUCTIONS

Follow these step-by-step instructions carefully. It is recommended to have two people for assembly.

1. **Prepare the Area:** Clear a spacious, clean, and flat area for assembly. Lay out all components and hardware.

2. **Assemble the Base:** Attach the bottom panel to the side panels using the provided hardware. Ensure all connections are secure.
3. **Install Vertical Dividers:** Secure the central and side vertical divider panels.
4. **Insert Shelves:** Place the adjustable shelves into the desired positions within the side cabinets and open compartments.
5. **Install Electric Fireplace:** Carefully slide the 36-inch electric fireplace unit into the designated central opening. Ensure it fits snugly and is flush with the front of the stand.
6. **Attach Back Panels:** Secure the back panels to the rear of the TV stand. Ensure the cable management holes align with your needs.
7. **Install Power Center:** Mount the integrated power strip into the pre-drilled location on the top surface of the stand. Connect its power cord.
8. **Final Checks:** Verify all screws and fasteners are tightened. Gently move the stand to its final position.

OPERATING INSTRUCTIONS

Electric Fireplace Operation

The electric fireplace can be operated using the control panel on the unit or the included remote control.

Image: Electric fireplace controls and remote.

- **Power ON/OFF:** Press the power button to turn the fireplace on or off.
- **Heater (750W/1500W):** Press the heater button to cycle between low heat (750W), high heat (1500W), or no heat. The flame effect can operate independently of the heat.
- **Flame Speed:** Adjust the speed of the flame effect.
- **Dimmer:** Adjust the brightness of the flame effect.
- **12 Colors:** Cycle through 12 different flame color options.
- **Timer (1-8H):** Set a timer for automatic shutdown of the fireplace.

LED Lighting Control

The integrated LED lighting in the open compartments can be controlled to enhance ambiance.

Image: Examples of LED lighting color options.

Use the dedicated button on the control panel or remote (if applicable) to cycle through various LED colors and effects. Refer to the specific LED controller instructions for detailed operation.

Integrated Power Center

The TV stand includes a built-in power strip with 3 AC outlets and 2 USB ports for convenient device charging and power supply.

- **AC Outlets:** Plug in your TV, sound system, gaming consoles, or other electronics.
- **USB Ports:** Use the USB ports to charge smartphones, tablets, or other USB-powered devices.
- **Power Cord:** Ensure the power center's cord is securely plugged into a wall outlet.

MAINTENANCE

Proper care and maintenance will ensure the longevity and appearance of your Ludatido TV stand.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Dusting:** Regularly dust the unit to prevent buildup.
- **Electric Fireplace:** Ensure the fireplace is unplugged and cool before cleaning. Wipe the glass panel with a soft, lint-free cloth. Do not spray cleaners directly onto the unit.
- **Inspections:** Periodically check all fasteners to ensure they remain tight.

TROUBLESHOOTING

Refer to the table below for common issues and their solutions.

Problem	Possible Cause	Solution
Electric fireplace does not turn on.	No power, power cord loose, unit overheated.	Check power connection, ensure outlet is functional. Allow unit to cool if it has been running for an extended period.
No heat from fireplace.	Heater function not activated, thermostat setting too low.	Ensure heater button is pressed and set to 750W or 1500W. Adjust thermostat if applicable.
Flame effect not working.	Flame effect turned off, bulb issue.	Activate flame effect via control panel or remote. Contact support if issue persists.
LED lights not working.	Power connection loose, LED controller issue.	Check power connections to the LED strip. Ensure the LED controller is functioning.
Devices not charging via USB/AC outlets.	Power center not connected, overloaded circuit, faulty device.	Ensure power center is plugged into a live outlet. Check if the circuit breaker has tripped. Test with another device.
