Aeitto Max5

Aeitto Max5 Cold Press Juicer Instruction Manual

Model: Max5 | Brand: Aeitto

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using the Aeitto Max5 Cold Press Juicer. Retain this manual for future reference.

- **Automatic Safety Stop:** For your safety, the juicer machine will automatically stop working if the cover of the hopper is opened while the machine is in operation. This feature is designed to protect children and the elderly from potential hazards.
- Always ensure the juicer is properly assembled and all parts are securely locked in place before operation.
- Do not immerse the motor base in water or any other liquid.
- Keep hands and utensils out of the feed chute during operation. Always use the food pusher if necessary.
- Unplug the juicer from the power outlet before cleaning, assembling, or disassembling.

2. PRODUCT OVERVIEW AND COMPONENTS

The Aeitto Max5 Cold Press Juicer is designed for efficient and high-yield juice extraction from various fruits and vegetables. It features a large feed chute and a slow masticating process to preserve nutrients.

Key Features:

- **5.3-inch Extra Large Feed Chute:** Accommodates whole fruits and vegetables, significantly reducing preparation time.
- **Slow Cold Press Technology (50 RPM):** Minimizes heat buildup and oxidation, preserving maximum vitamins, enzymes, and antioxidants for healthier, richer-tasting juice with zero foam.
- **High Juice Yield (250W Motor):** Efficiently separates juice and pulp, providing purer juice and dryer pulp. Features 7-stage upgraded cold press technology for higher nutrient extraction.
- **Easy Assembly and Cleaning:** Integrated hopper screen design with fewer parts for quick setup and cleanup.
- **Safety Design:** Automatic stop function when the hopper cover is opened during operation.

Components:

Familiarize yourself with the parts of your Aeito Max5 Juicer:

- Motor Base
- Chamber
- Squeezing Auger (7-stage upgrade)
- Filter/Screen (3-stage micro-filtration: 2mm coarse, 0.8mm medium, 0.5mm fine mesh)
- Hopper with 5.3-inch Feed Chute
- Hopper Cover
- Juice Outlet with Anti-drip Stopper
- Pulp Outlet
- Juice Cup (1.7 Liters capacity)
- Pulp Container
- Cleaning Brush

Image: An X-ray style view of the juicer's internal mechanism, highlighting the high-power motor and the path of juice extraction. Text overlays indicate 'High Power Motor', '50db Lower Noise', and 'Crush Hard Fruit', emphasizing its performance capabilities.

3. SETUP AND ASSEMBLY

The Aitto Max5 Juicer is designed for quick and easy assembly. Follow these steps to set up your juicer:

1. **Step 1: Place the Chamber.** Position the chamber onto the top of the motor housing.
2. **Step 2: Insert the Auger.** Insert the squeezing auger firmly into the center of the chamber.
3. **Step 3: Position the Hopper.** Place the hopper vertically onto the chamber.
4. **Step 4: Lock the Hopper Cover.** Open the hopper cover, then turn the hopper clockwise to lock it securely into place. Close the hopper cover.

Tip: The hopper can only be rotated and locked when the hopper cover is open.

Easy to Clean

Image: A visual guide demonstrating the four simple steps to assemble the Aeitto Max5 Juicer, from placing the chamber to locking the hopper cover, emphasizing its ease of setup.

4. OPERATING INSTRUCTIONS

Once assembled, your Aeitto Max5 Juicer is ready for use. Follow these guidelines for optimal juicing:

1. **Prepare Ingredients:** While the 5.3-inch feed chute can handle whole fruits and vegetables, it is recommended to cut very large or fibrous items into smaller pieces to ensure smooth operation and prevent clogging. Remove any hard pits or seeds.
2. **Position Containers:** Place the juice cup under the juice outlet and the pulp container under the pulp outlet.
3. **Start Juicing:** Plug in the juicer. Use the one-button operation switch on the motor base. Push the switch to the 'ON' position to start the juicing process.
4. **Feed Ingredients:** Slowly feed the prepared fruits and vegetables into the feed chute. The slow masticating process will extract the juice.
5. **Juice and Pulp Separation:** The juicer will efficiently separate the pure juice into the juice cup and the dry pulp into the pulp container.
6. **Stop Juicing:** Once finished, push the switch to the '0' (off) position.

One-Button Operation:

The juicer features a simple control switch:

- **'ON' (Start):** Initiates the juicing process.
- **'0' (Off):** Stops the juicer.
- **'R' (Reverse Function):** Activates the reverse rotation of the auger. This is useful for dislodging any clogged ingredients and preventing blockages.

5. MAINTENANCE AND CLEANING

Regular cleaning ensures the longevity and optimal performance of your Aeitto Max5 Juicer. The design facilitates quick and easy cleanup.

1. **Disassemble:** Unplug the juicer. Disassemble all removable parts: hopper cover, hopper, filter, auger, chamber, juice cup, and pulp container.
2. **Rinse Immediately:** Rinse all removable parts under running water immediately after use. This prevents pulp from drying and sticking, making cleaning much easier.
3. **Use Cleaning Brush:** For thorough cleaning of the filter mesh and other intricate areas, use the included cleaning brush.
4. **Wash with Soap (Optional):** For a deeper clean, wash the removable parts with warm, soapy water. Rinse thoroughly.
5. **Dry:** Allow all parts to air dry completely before reassembling or storing.

6. **Motor Base:** Wipe the motor base with a damp cloth. Never immerse the motor base in water.

Easy to Assemble

Tips : The hopper can be rotated only when the hopper cover is open.

Place the chamber onto the top of housing.

Insert the auger firmly into the center chamber.

Position the hopper vertically onto the chamber.

1.Open the hopper cover and turn the hopper clockwise to lock it.
2.Close the hopper cover.

Image: A visual demonstration of the easy cleaning process for the juicer's components, showing parts being rinsed under a faucet and scrubbed with a brush, highlighting the convenience of maintenance.

6. TROUBLESHOOTING

If you encounter any issues with your Aeitto Max5 Juicer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Juicer does not turn on.	Not plugged in; power switch off; parts not assembled correctly; safety lock not engaged.	Ensure the power cord is securely plugged into a working outlet. Check that the power switch is in the 'ON' position. Verify all parts are correctly assembled and the hopper cover is securely locked.
Juicer stops during operation.	Hopper cover opened; motor overheating; too much produce fed at once; hard ingredients causing blockage.	Ensure the hopper cover remains closed during operation. If the motor overheats, unplug and let it cool down for 30 minutes. Reduce the amount of produce fed at one time. Use the 'R' (Reverse) function to clear blockages.
Low juice yield or wet pulp.	Filter clogged; ingredients too soft or overripe; feeding too quickly.	Clean the filter thoroughly. Alternate between soft and hard ingredients. Feed ingredients slowly to allow for maximum extraction.
Excessive noise or vibration.	Parts not assembled correctly; hard ingredients; juicer on an uneven surface.	Reassemble all parts, ensuring they are securely in place. Cut hard ingredients into smaller pieces. Place the juicer on a stable, flat surface.

If the problem persists after trying these solutions, please contact Aeitto customer support for assistance.

7. SPECIFICATIONS

Attribute	Detail
Brand	Aeitto

Attribute	Detail
Model	Max5
Color	Black
Special Features	High Power, No Clogging, Fits Whole Fruits and Vegetables, High Juice Yield, Easy to Clean, Easy to Assemble
Product Dimensions	13"D x 12"W x 8"H
Capacity	1.7 Liters (Juice Cup)
Voltage	120 Volts
Item Weight	9.72 pounds
Motor Power	250W
Rotation Speed	50 RPM (Revolutions Per Minute)

8. WARRANTY AND SUPPORT

Aeitto is committed to providing high-quality products and excellent customer service.

Warranty Information:

Your Aeitto Max5 Cold Press Juicer comes with a **12-month repair and replacement service** from the date of purchase.

Customer Support:

For any questions, concerns, or assistance with your product, please utilize our **7*24 hours online consultation services**. Refer to your purchase documentation or the official Aeitto website for contact details. Please retain your proof of purchase for warranty claims.
