3. KEY FEATURES

- **Ultra-lightweight Design:** Weighs approximately 581 grams and has a thickness of 15.5mm, making it highly portable.
- **Premium Aluminum Alloy Construction:** The keyboard's entire body is crafted from aluminum alloy with an anodized surface for durability and a metallic finish.
- **7-Color Backlight & LCD Display:** Features 7 backlight colors and 3 adjustable brightness levels for comfortable typing in various lighting conditions. An integrated LCD displays battery level, capitalization status, and pairing status.
- **Multi-Touch Trackpad:** A precision glass panel trackpad supports full Multi-Touch gestures for intuitive navigation and enhanced productivity.
- **Magnetic Levitation Design:** Securely attaches your iPad magnetically, allowing for easy adjustment of viewing angles up to 110 degrees.
- **Automatic Sleep & Convenient Keyboard Switch:** The keyboard automatically powers on when opened and off when closed, conserving battery life.
- **Hidden Type-C Charging Port:** Features a seamlessly integrated Type-C charging port for a clean design.
- **iPadOS Function Keys:** Includes a full set of iPadOS shortcut keys for quick access to brightness, volume, media control, and more.

4. SETUP INSTRUCTIONS

4.1. Charging the Keyboard

1. Locate the hidden Type-C charging port on the keyboard's hinge.
2. Connect the provided USB-C charging cable to the keyboard and a compatible USB power adapter (not included).
3. The LCD display on the keyboard will show the charging status and battery level. Ensure the keyboard is fully charged before first use.

Image: Close-up of the keyboard's Type-C charging port and the LCD display showing battery and status indicators.

4.2. Attaching Your iPad

1. Open the keyboard case.
2. Align your compatible iPad with the magnetic back panel of the case. The iPad will snap into place securely due to the magnetic levitation design.
3. Adjust the iPad to your desired viewing angle (up to 110 degrees).

4.3. Bluetooth Pairing

1. Ensure the keyboard is charged and powered on (open the case).
2. On your iPad, go to **Settings > Bluetooth**.
3. Turn on Bluetooth. Your iPad will search for nearby devices.
4. Look for "A1935" or a similar name in the list of devices and tap to connect.
5. Once connected, the Bluetooth status indicator on the keyboard's LCD display will confirm pairing.

5. OPERATING INSTRUCTIONS

5.1. Power On/Off (Automatic Switch)

- **To Power On:** Simply open the keyboard case. The iPad screen and keyboard will automatically wake up.
- **To Power Off:** Close the keyboard case. The iPad screen and keyboard will automatically turn off, conserving battery.

Image: Illustration showing the keyboard case automatically powering on when opened and off when closed.

5.2. Backlight Control

- **Adjust Brightness:** Press **Fn + Control + Cmd** to cycle through 3 brightness levels or turn the backlight on/off.

- **Change Color:** Press **Fn + Control + Option** to cycle through the 7 available backlight colors.

5.3. Multi-Touch Trackpad Usage

The integrated trackpad supports various iPadOS gestures. Refer to your iPad's iPadOS documentation for a full list of gestures. Common gestures include:

- **Single Finger Tap:** Click/Select
- **Two-Finger Scroll:** Scroll up/down or left/right
- **Two-Finger Pinch:** Zoom in/out
- **Three-Finger Swipe Up:** Go to Home Screen
- **Three-Finger Swipe Left/Right:** Switch between open apps

5.4. iPadOS Function Keys

The top row of keys provides quick access to iPadOS functions:

- **Home:** Return to the Home screen.
- **Brightness:** Adjust screen brightness.
- **Search:** Activate iPad search.
- **Keyboard Language:** Switch input language/keyboard layout.
- **Media Controls:** Play/Pause, Previous Track, Next Track.
- **Volume:** Mute, Volume Down, Volume Up.
- **Lock Screen:** Lock your iPad.

5.5. Switching Input Method

If the characters typed do not match those printed on the keyboard, press the **Globe key ()** to switch the input method to English or your preferred language. This will resolve character discrepancies.

Image: Close-up of the keyboard highlighting the Globe key () used for switching input methods.

6. MAINTENANCE

6.1. Cleaning

- Use a soft, lint-free cloth to gently wipe the aluminum alloy surfaces.
- For the keys and trackpad, use a slightly damp cloth with mild soap if necessary, then wipe dry immediately.
- Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the finish or internal components.

6.2. Storage

- When not in use, keep the keyboard case closed to protect both the keyboard and your iPad.

- Store in a cool, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

7.1. Keyboard Not Pairing or Disconnecting

- **Check Battery:** Ensure the keyboard is sufficiently charged. The LCD display shows battery level.
- **Restart Bluetooth:** On your iPad, turn Bluetooth off and then on again.
- **Forget Device:** In iPad Bluetooth settings, tap the "i" icon next to the keyboard name and select "Forget This Device." Then, re-pair the keyboard as per Section 4.3.
- **Restart iPad:** A simple iPad restart can often resolve connectivity issues.
- **Distance:** Ensure the keyboard is within the effective Bluetooth range (typically 10 meters or 33 feet) of your iPad.

7.2. Trackpad Lag or Unresponsiveness

- **Clean Trackpad:** Ensure the trackpad surface is clean and free of debris.
- **Restart Keyboard/iPad:** Power cycle both the keyboard and your iPad.
- **Software Update:** Ensure your iPadOS is up to date.

7.3. iPad Not Staying Securely Attached

- **Proper Alignment:** Ensure the iPad is correctly aligned with the magnetic back panel.
- **Case Interference:** If you are using an additional case on your iPad, remove it. Some cases may interfere with the magnetic connection.
- **Surface Stability:** Ensure the surface the keyboard is resting on is stable and flat.

7.4. Backlight Not Working

- **Check Battery:** Low battery can affect backlight functionality. Charge the keyboard.
- **Adjust Brightness:** Use the **Fn + Control + Cmd** shortcut to ensure the backlight is not set to the lowest brightness or turned off.
