

Govee H606A

Govee Glide Hexagon Light Panels Ultra (Model H606A)

USER MANUAL

Model: H606A | Brand: Govee

1. Introduction

The Govee Glide Hexagon Light Panels Ultra (Model H606A) are advanced RGBIC 3D wall lights designed to enhance your environment with dynamic and customizable lighting effects. This manual provides essential information for the safe and effective installation, operation, and maintenance of your light panels. These panels feature innovative 3D design and multifaceted lighting with 129 LED beads, offering vibrant and immersive experiences. They support open patching for limitless DIY designs and integrate with smart home ecosystems like Alexa, Govee DreamView, Razer Chroma, and Govee Desktop.

2. What's in the Box

Please verify that all components are present before beginning installation:

- Light Panels: 10 units
- Linking Cables: 10 units
- Control Box: 1 unit
- Adhesive Tapes: 36 pieces
- Power Adapter: 1 unit
- Quick Start Guide: 1 unit
- User Manual: 1 unit (this document)

- Keep out of reach of children.
- Avoid prolonged direct eye exposure to the light source.

4. Setup and Installation

Follow these steps to install your Govee Glide Hexagon Light Panels Ultra:

1. **Plan Your Design:** Before attaching the panels, use the included cardboard cutouts to plan your desired layout on the wall. This allows you to visualize the design and ensure proper spacing and placement.
2. **Clean the Surface:** Ensure the wall surface is clean, dry, and smooth. Dust or uneven surfaces can affect the adhesive's effectiveness.
3. **Attach Adhesive Tapes:** Apply the adhesive tapes to the back of each light panel. Ensure they are securely attached.
4. **Mount the Panels:** Carefully peel off the protective backing from the adhesive tapes and press each panel firmly onto the wall according to your planned design. Hold each panel in place for at least 30 seconds to ensure strong adhesion.
5. **Connect Panels:** Use the linking cables to connect the hexagon light panels. The six sides of each panel allow for flexible and open patching designs.
6. **Connect Control Box:** Connect the control box to one of the light panels using a linking cable.
7. **Connect Power Adapter:** Plug the power adapter into the control box, then plug the adapter into a power outlet.
8. **Download Govee Home App:** Download the Govee Home app from the App Store (iOS) or Google Play Store (Android).
9. **Pair with App:** Open the Govee Home app, create an account or log in, and follow the in-app instructions to pair your Govee Glide Hexagon Light Panels Ultra. This typically involves enabling Bluetooth and Wi-Fi on your phone.

5. Operating Instructions

The Govee Glide Hexagon Light Panels Ultra are primarily controlled via the Govee Home app, offering extensive customization and smart features.

5.1 Govee Home App Control

- **Power On/Off:** Toggle the lights on or off directly from the app.

- **Color Selection:** Choose from a vast spectrum of colors and adjust brightness.
- **Scene Modes:** Access 60 pre-set scene modes for various moods and occasions.
- **Music Modes:** Utilize 4 music modes that synchronize light effects with audio.
- **DIY Mode:** Create custom lighting patterns and animations using the app's intuitive interface. The multifaceted surface and line design allows for unique visual effects.
- **Scheduling:** Set timers for the lights to turn on or off automatically.

6. Maintenance

- **Cleaning:** Gently wipe the surface of the light panels with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** If storing the panels for an extended period, disconnect them from power and store them in a cool, dry place.
- **Adhesive Replacement:** If you need to reposition the panels, new adhesive tapes may be required to

ensure secure mounting.

7. Troubleshooting

If you encounter issues with your Govee Glide Hexagon Light Panels Ultra, refer to the following table for common problems and solutions:

Problem	Solution
Lights do not turn on.	<ul style="list-style-type: none">◦ Ensure the power adapter is securely connected to the control box and a working power outlet.◦ Check if the control box is properly connected to the light panels.◦ Verify that the power outlet is functional.
Cannot connect to the Govee Home app.	<ul style="list-style-type: none">◦ Ensure Bluetooth and Wi-Fi are enabled on your smartphone.◦ Make sure your phone is within range of the light panels.◦ Restart the Govee Home app.◦ Unplug the power adapter from the light panels, wait 10 seconds, and plug it back in to reset.◦ Ensure your Wi-Fi network is 2.4GHz. Govee devices typically do not support 5GHz Wi-Fi.
Lights are flickering or displaying incorrect colors.	<ul style="list-style-type: none">◦ Check all linking cable connections between panels and the control box. Ensure they are secure.◦ Try restarting the device by unplugging and replugging the power adapter.◦ Update the firmware of the light panels via the Govee Home app.
Adhesive tapes are not holding.	<ul style="list-style-type: none">◦ Ensure the wall surface was clean, dry, and smooth before application.◦ Apply new, strong adhesive tapes if the original ones have lost their stickiness.◦ Consider using additional mounting solutions for heavier or frequently adjusted panels.

8. Specifications
