ANPABO A021-a

ANPABO 24V XXL Shark Car Ride-On Toy Instruction Manual

Model: A021-a

1. SAFETY INFORMATION

Please read and understand all instructions and warnings before assembling and operating the ANPABO 24V XXL Shark Car Ride-On Toy. Failure to follow these instructions may result in serious injury or property damage.

- Always supervise children when operating the ride-on toy.
- Ensure children wear appropriate safety gear, including a helmet and protective clothing.
- Do not operate the toy near streets, cars, steep inclines, swimming pools, or other bodies of water.
- The maximum weight capacity is 110 lbs (50 kg).
- Recommended age range: 3-12 years old.
- Only use the provided charger and battery.
- Regularly inspect the toy for damage, loose parts, or wear.

2. SETUP AND ASSEMBLY

2.1. Assembly Instructions

1. Remove the ride-on toy from its packaging.
2. Charge the battery using the provided charger.
3. Assemble the toy by attaching the seat belts and any other removable parts.

2.2. Included Components

The ANPABO 24V XXL Shark Car Ride-On Toy includes the following components:

- Car body
- Charger
- Remote control
- Assembly tools

- Instruction manual

2.3. Assembly Video

2.4. Setup Images

Image Description: An overview of the ANPABO 24V 4WD Ride-On Shark Car, highlighting its robust design and key features like the 24V 7AH battery, 5.1 mph max speed, 800W motors, and 2-seater capacity.

Image Description: A detailed view of the ANPABO 24V Ride On Toy, showcasing its remote control and powerful motors, emphasizing its suitability for big kids.

3. OPERATING INSTRUCTIONS

The ANPABO 24V XXL Shark Car Ride-On Toy offers multiple modes of operation and exciting features:

- **4WD Power & All-Terrain EVA Tires:** Equipped with four 200W motors, reaching speeds up to 5.1 MPH. Premium wear-resistant EVA rubber tires provide superior grip and traction on various terrains like grass, gravel, or dirt.
- **Spacious 2-Seater & 15.7" Extended Legroom:** Features a 21" extra-wide seat and 15.7" extended legroom for two children. Dual independent adjustable seat belts ensure safety.
- **Parent Control & Manual Mode:** A 2.4G parent remote offers full control (forward/reverse, speed, emergency brake) for supervised play. Older kids can switch to pedal-and-wheel manual mode.
- **Fun and Safety Combined:** Powered by a 24V 7AH battery for 1 to 2 hours of fun. Low center of gravity design enhances stability and reduces rollover risk.
- **More Ways to Play:** Music control panel with volume knob, built-in music, and Bluetooth connectivity. Features lights and a shark-inspired design.

3.1. Operational Videos

Video Description: This video showcases the ANPABO 24V Shark Car in action, highlighting its fun features and dynamic performance for children.

Video Description: A demonstration of the ANPABO 2-Seater Ride on Shark Car, showing its features and how children can enjoy riding it.

Video Description: This video highlights the ANPABO 24V 4WD Ride On UTV, emphasizing the joy of riding side-by-side and its robust capabilities.

4. MAINTENANCE

To ensure the longevity and safe operation of your ANPABO 24V XXL Shark Car Ride-On Toy, regular maintenance is recommended:

- **Cleaning:** Wipe down the exterior with a damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Battery Care:** Fully charge the battery after each use and before long-term storage. Do not overcharge. Store the battery in a cool, dry place.
- **Inspection:** Periodically check all screws, nuts, and bolts to ensure they are tight. Inspect tires for wear and tear.
- **Storage:** Store the toy in a dry, covered area away from direct sunlight and extreme temperatures.

5. TROUBLESHOOTING

If you encounter any issues with your ride-on toy, please refer to the following common troubleshooting tips:

- **Toy not moving:** Check if the battery is fully charged and properly connected. Ensure the power switch is ON

and the forward/reverse switch is in the correct position.

- **Reduced speed or power:** The battery may be low on charge. Recharge the battery fully. Ensure the toy is not overloaded beyond its weight capacity.
- **Remote control not working:** Check the batteries in the remote control. Ensure the remote is properly paired with the toy.
- **Unusual noises:** Stop operation immediately and inspect for any loose parts or obstructions in the wheels or motor area.

For persistent issues, please contact customer support.
